THE BEST ALL-ROUND POTATO IN EXISTENCE

New Noroton Beauty

The most valuable introduction since the Early Rose—sent out by one of the most reliable Seed Houses in America, who claim:

It is the earliest potato ever grown.

It is by far the most productive extra-early, yielding as heavily as any of the medium early sorts.

It is handsomer in appearance and more uniform in size and shape than any other variety.

Its table quality is superb and it keeps longer than any other sort, early or late.

These claims are substantiated by Mr. E. L. Coy, the American potato expert.

The ground-work of the tubers is white, slightly rusted, and splashed more or less pink, with pinkish eyes. The shape is round and the flesh white.

Price, postpaid, to Canadian points: 1 pound 80c., 2 pounds \$1.40, 4 pounds \$2.60, 8 pounds \$4.65.

We also offer the following well-known varieties: EARLY OHIO, EARLY SIX WEEKS, EARLY BOVEE, BOVEE'S WHITE BEAUTY AND SIR WALTER RALEIGH.

Postpaid, 1 pound 15c., 5 pounds 50c., by freight or express. Peck 35c., Bushel \$1.10. Jute bag 10c. extra.

Our beautifully-illustrated Catalogue of Seeds and Implements, etc.—88 pages—mailed free to all applicants.

IDEAL WOVEN WIRE FENCE

Made to Last.

This fence is made to keep your live stock in and your neighbor's out. It will do this not only for this year and next year, but for many years to come. To do this the fence must be strong and durable. The IDEAL is both, because we use large gauge (No. 9) hard steel wire for both stays and horizontals, securing them with the "Ideal knot that will not slip." The wire is well galvanized, being tested thoroughly by us before being made into fence.

We cannot tell you all about it here, because we have much to say. If you are interested in fencing, write us for our illustrated catalogue. It shows a style for every purpose, and tells you why the IDEAL is the best value. Our catalogue also shows the Ideal All-metal Farm Gate.

All that is necessary is to send us your address on a postal card. Do it to-day.

THE MCGREGOR-BANWELL FENCE CO., LTD., Walkerville, Ont.

Pulls Stumps or Standing Trees.

Clears a two-acre circle with one sitting—pulls anything the wire rope will reach; stumps, trees, grubs, rocks, hedges, etc. A man and a boy with one or two horses can run the

COMBINATION STUMP PULLER,

Stump Anchored or Self Anchoring.

A minute and a half is all it takes for the ordinary stump. No heavy chains or rods. Note the strong wire rope with patent coupler—grabs the rope at any point. Does not chafe rope; far ahead of old-style "take-ups." Smallest rope we furnish stands 40,000 lbs. strain. It generates immense power and it's made to stand the strain. We also make the Iron Giant Grub and Stump machine, the L.X.L. Grabber and Hawkeye Grub and Stump Machine. Write for free illustrated catalogue.

Largest manufacturers of Stump Pullers in the World. Established 1884.

HAY LOADER TALK No. 3

BY THE DAIN FELLOW.

Before mentioning the Loader, we want you to take a look at the Side-Delivery Rake.

This is a mighty serviceable implement. It takes the place of a Tedder. Also a Sulky Rake. Two machines in one. Puts your hay in a high, loose, continuous winrow. The wind and air will penetrate it. This gives you air-dried hay, instead of sun-burnt. Did you ever notice how damp the hay is at the bottom of a winrow made by a Sulky Rake? This never occurs with the Dain Side-Delivery Rake. The winrow is too loose. It doesn't whip or thrash the hay. It is a slow-motion machine.

Then the Dain Loader takes your hay CLEAN right out of the Side-Delivery Rake winrow.

No second rakings.

We can do this out of the swath too.

Do you remember the last time it rained on your winrows?

Next morning you had to go out and throw it about with a pitchfork.

The Dain Side-Delivery Rake does this much better, and in less time than a dozen men can do it.

Get these facts into your mind.

They'll help you, make money for you, if you'll let them.

Write for our circular.

We have one written by a practical farmer.

Yours for the asking.

Dain Manufacturing Co.,
PRESTON, ONT.

THE OXFORD Cream Separator

Is easy to wash and turn, is a perfect skimmer, is durable, has no exposed gears, has low-down supply tank, and is fitted throughout with Ball Bearings.

Those are a few of the features that make the

OXFORD the most up-to-date machine on the market.
