

MISLED

Have you been misled into believing a modern cream separator needs disks or other complicated parts inside the bowl? Makers and dealers selling common separators like you to believe so because they know their machines must have them.

The simple, sanitary, easy-to-clean Sharples Dairy Tubular has nothing in the bowl except the tiny piece here shown on the thumb. Compare washing this single piece with washing the pan full of disks

here shown from a common separator. Yet Tubulars run easiest, skim fastest, and cleanest, wear longest—are The World's Best. Tubular sales exceed most, if not all, others combined. Tubulars probably replace more common separators every year than any other maker sells.

The manufacture of Tubulars is one of Canada's leading industries.

This Cylinder Shows Why The "EUREKA" Root Cutter

is the best on the market. See how it is designed. Grooved knives, with the grooves on one blade opposite the teeth on the next. Instead of slicing or pulping, the "Eureka" turns out roots in shreds—thin narrow strips—

suitable for any kind of feeding. The "Eureka" shreds from one to two bushels a minute, and turns so easily that a child can operate it. In the "Eureka" the feed is kept free from dirt, the feeder bottom being made with iron rods, thus allowing all dirt to drop out before it can reach the shredding cylinder.

The sloping form of the cylinder makes the machine a self-cleaner. Write for catalogue which explains fully.

FREE

Send us your name to-day, and we will send you our illustrated booklet. This book is full of money-saving tips for syrup makers. You need a "Champion" Evaporator in your maple grove next spring, because the Champion will save you time, labor and money, and get more out of your grove than any evaporator on the market. The successful men all use "Champions." The size you want doesn't cost so much either. Write for prices.

Boys for Farm Help The managers of Dr. Barnardo's Homes invite applications from farmers, or others, for the boys who are arriving periodically from England to be placed in this country. The young immigrants are mostly between 11 and 13 years of age; all will have passed through a period of training in Dr. Barnardo's English Institutions, and will have been carefully selected with a view to their moral and physical suitability for Canadian life. Full particulars as to the terms and conditions upon which the boys are placed may be obtained upon application to Mr. Alfred B. Owen, Agent Dr. Barnardo's Homes, 50-52 Peter St., Toronto.

Most Convenient Easiest on Horses

Dain

Pull Power Press

By long odds the most convenient hay press on the market. You can set the Dain between two stacks or at the middle of a stack. You don't have to fork the hay so far or set the press so often. Shape of hopper, and location of feed table and platform make press very easy to feed. You can stand on either side and keep out of the dust. If you are doing the tying you can stand up all the time. Not necessary to walk around the press, as you can readily reach over and tie the wire. The bales come out of the press away from the dust. They are smooth and clean.

You can set the Dain Press quickly, as it does not have to be level. You can bale hay on the floor of a bank barn without leveling the floor.

As the Dain is the original pull power press, it has patented features found on no other press. No pitman or other large obstruction for the team to step over. The power is applied direct, and an ingenious device equalizes the draft, maintaining an even, moderate load. The Dain is thus very, very easy on the horses.

Every part of the Dain is made stronger than actually necessary. Made of steel throughout. No toggle joints or other delicate parts. It is the most durable press as well as the one that makes the smoothest bales and has the largest capacity.

Write today and we will tell you of a co-operation plan whereby purchasers of Dain Presses can get more money for their hay.

THE ROOFING WITH A REPUTATION

It pays to be careful in buying roofing, for most prepared roofings look all about alike before they are laid—pretty hard to tell the good from the poor. Many roofings are simply experiments—been on the market so short a time that you can only guess how long they'll last. Better let some one else "try these" new and "improved" kinds, and you pay your money for a kind that has actually proved that it is long lasting—economical.

You can have no better guide than the reputation of the makers and the record of the roofing.

PAROID ROOFING

was one of the first prepared roofings put on the market and from the start it has been the best. In all parts of the world we can point to thousands of Paroid roofs that to-day are as good as new, after years of service. Judge PAROID by its record.

Progressive experience of over 33 years in this one line of business has taught us how to make roofing. We have learned how to make better roofing felt than any other manufacturer—but that is only one secret of PAROID durability.

The felt in a roofing is like the foundation of a house—of its greatest importance—yet most roofing manufacturers buy their felt where it can be bought cheapest. We make PAROID from start to finish ourselves. We even make our own caps for laying PAROID because the ordinary tin cap is not good enough. Our cap is rust-proof and being square has more holding surface than a round cap.

Yet we do not ask you to buy PAROID Roofing solely on its unequalled reputation. Try it at our risk.

OUR GUARANTEE is that we will replace every square foot of roofing that proves to be defective manufacture. If a stronger guarantee than this could be made we would make it. Dealers everywhere sell PAROID Roofing.

FREE BOOKS

For the Man About to Build
 "Practical Farm Buildings" will show you how to save roof money and worry.

"Comfortable Homes" will show you how our **NEPONSET WATER-PROOF BUILDING PAPER** will save one third of your coal bill each winter.

If it's a cottage or bungalow our "Prostate Roofing Booklet" tells how to get a more attractive roof than shingles at about one-half the cost.

Write to-day and tell us the kind of building and we will send you the right book and samples.
