

### Lousy Poultry Can't Pay

Lice-infested poultry are a constant loss to the poultryman. Lice suck the rich lifeblood from poultry, stunt the growth of young chicks and rob you of your well earned dollars. These pests reduce the hens' laying ability. Buy an effective louse killer and use it liberally.

DR. HESS

### INSTANT LOUSE KILLER

**Kills Lice Instantly.** Sprinkle it thoroughly on lousy hens, rub it well under the wings and neck, put it in the dust bath, in the nests, roosts and cracks. Instant Louse Killer also kills lice on farm stock, bugs on cucumber, squash and melon vines, cabbage worms, slugs on rose bushes. Comes in handy, sifting-top cans.

1 lb. 35c; 3 lbs. 85c.  
(Duty Paid)

Cure the lamest and worst—have the part looking just as it did before the blemish came.

**Fleming's Spavin Cure (Liquid)** is a special remedy for soft and semi-solid blemishes—Bog Spavin, Thoroughpin, Splint, Curb, Capped Hock, etc. It is neither a liniment nor a simple blister, but a remedy unlike any other—doesn't irritate and can't be imitated. Easy to use, only a little required, and your money back if it ever fails.

**Fleming's Vest-Pocket**

**Veterinary Adviser**

describes and illustrates all kinds of blemishes, and gives you the information you ought to have before ordering or buying any kind of a remedy. Mail free if you write.

FLEMING BROS., Chemists,  
75 Church Street, Toronto, Ont.

however slightly that crop may have been affected. Note Regulation 10 under "The Destructive Insect and Pest Act," reading:—

It shall be illegal to sell, offer for sale or in any way dispose of or to receive any trees, shrubs or other plants, vegetable matter or portions of the same, if the same are infested with any of the insects, pests or diseases herein-after specified.

(10) If the quantity of potatoes permitted to be used by the inspector is considerable, you are strongly advised to keep a number of pigs, and use a quantity of boiled potatoes among the usual food.

(11) The use for seed of any potatoes resulting from an infected crop, no matter how sound they may appear, is tirely propagated by the use of infected seed.

(12) The land on which a diseased crop has been raised is useless for the cultivation of potatoes for an indefinite number of years. It may, however, be used for the growing of any other kind of crop, except potatoes.

(13) All tools, implements, etc., used on infected land must be carefully cleaned by washing with an antiseptic solution (crude carbolic acid, sheep dips, etc.) before removing them from such infected land. Any soil left adhering to them, or to the boots of persons working in the field, is liable to contain disease germs, and in this way may be responsible for carrying the disease to clean land.

In conclusion, I must caution you to carefully carry out all these instructions. They have been devised to protect your own and the country's interests. Also kindly note paragraph "8" of "The Destructive Insects and Pests Act," reading:—

(8) Every person who contravenes any provision of this Act, or any regulation made thereunder, shall be liable, upon summary conviction, to a fine not exceeding one hundred dollars, or to imprisonment for a term not exceeding six months, or to both fine and imprisonment, etc.

Further, note paragraph 7 of the Destructive Insect and Pest Act:—

(7) The Minister, upon the report of any inspector setting forth a reasonable belief of the existence of any insect, pest or disease in an area defined in such report, may prohibit the removal from such area or the movement therein of any vegetation, vegetable or other matter which, in his opinion, is likely to result in the spread of such insect, pest or disease.

H. T. GUSSOW,

Dominion Botanist, Central Experimental Farm, Department of Agriculture, Ottawa.

### Gossip.

Shipments of Clydesdales from Glasgow for Canada the first week in August included superior selections of some 30 head by Smith & Richardson, Columbus, Ont., and James Torrance, Markham. There were also shipments the same week consigned to the United States, Buenos Aires, and South Africa.

Tommy's father had been giving him lessons in politeness, but he hardly dared hope that the seeds of his teaching had taken root.

Hearing cries coming from the nursery one day, he investigated, and found that Tommy had been unmercifully pommeling his little brother.

"I'm surprised, Tommy," said his father sternly, "that you should hurt your little brother! Don't you know that it is very cowardly to strike one who is smaller than yourself?"

"Yes," replied the culprit, meekly, "but when you spanked me yesterday, I was too polite to mention it."—Mother's Magazine.

Hostess—Miss Robinson has no partner for this waltz. Would you mind dancing with her, instead of me?

Hawkward—On the contrary, I shall be only too delighted.

### Roofing As Attractive in Price —As in Color

You'll admit this roof looks attractive—in distinctive colors of red or green. But for most home builders its chief attraction lies in its remarkable economies. Let's begin with its first cost. NEPONSET Proslate Roofing costs less to buy than good shingles. Greatly reduces the cost of repairs. No shingles to split, crack or "curl up." Remember, the shingles of today aren't the shingles of 20 years ago. NEPONSET Proslate Roofing makes a water-tight blanket. And best of all, resists fire—is "spark-proof." Its protection from fire-hazard alone is worth all its cost. Its first cost is its only cost, too. Can you afford NOT to have NEPONSET Proslate Roofing on your roof?

## NEPONSET

### Waterproof Building Products

#### Roofings

NEPONSET roofings are a fire protection, leak-proof and long lived. Anyone can lay them. NEPONSET Paroid Roofing is for general use. NEPONSET Proslate Roofing is an ornamental roofing for dwellings. Attractive colors.

#### Building Papers

If NEPONSET Waterproof Building Papers are built into walls and floors, the building will be warmer, will cost less to heat and will last years longer. Recommended by architects, engineers and building owners everywhere.

#### Wall Board

NEPONSET Wall Board is a scientific product which takes the place of lath and plaster; comes in sheets 32 inches wide. Remember, it is the only wall board with waterproofed surfaces that requires no further decoration. Anyone can put it up.

Are you going to build? Write for more facts about the products in which you are interested. Send for samples, free booklet and name of nearest NEPONSET dealer.
