**A TRIP TO THE WEST INDIES**

The "P. & B." steamers sailing from Halifax every twelfth day for Bermuda, the British West Indies and Demerara, are all very superior ones. The trip occupies about thirty-eight days, and is a delightful cruise from the start to the finish.

Through tickets from Toronto and all points on the railways are sold by

**WHEN TRUSTED MEN GO WRONG**

Every once in a while the daily papers report the shortcomings of an apparently trustworthy and responsible clerk or official. There is no accounting for these unfortunate affairs. They are accidents, and to be provided against as such. Our Guarantee and Fidelity Bonds insure an employer against the loss entailed by such accidents. We bond clerks and officials, cashiers and collectors and trusted employees handling money in every department of business. Our bonds are an asset to the employer, and a reliable credential for the employee.

**WOOD TRADE IN BRITAIN.**

The imports of deals, both Baltic and spruce, especially the latter, were very heavy at Liverpool during September, and stocks of both red and white at Manchester as well as Liverpool are excessive. But small arrivals of pine timber are announced at either Manchester or Liverpool; stocks are moderate, and values rule high, the supply of second-class is light. Elm is more enquired for, and values firm. Oak steady, with slow demand. Birch logs in improved request and firm; planks still in heavy supply and more coming in British Columbia pine in adequate stock; values steady.

No Oregon pine came into Liverpool during August, nor any California redwood, but demand is extremely slack for both. Arrivals from the Baltic and Europe for the month have been 54 vessels of 36,918 tons, as compared with 35 vessels, 24,565 tons, during the same month of 1909. Flooring boards of white wood have made fairly well, the supplies being more liberal and values keeping up. The stock of Galatz whitewood is ample, the consumption continues small.
