When Do Most Men Die?

OCCASIONALLY a prospect for Life Insurance says: "I'm not in urgent need of it. My parents and grandparents lived to an old age. I'm healthy, and when I die it will be from old age." Will it? If you consult the list of claims paid monthly by any well-established Life Insurance Company, you will find that a very small percentage of their policyholders died from old age. The newspapers and health records also show this.

The time to seek and buy Life Insurance is when you have good health and the money to pay for it,—not when you're old and can't get it, for the lack of physical or financial ability, or both. Perhaps you have a mortgage on your house, costing you 6½ to 7 per cent interest? If anything happened to you, would your family have to continue paying it? Wouldn't it be better to leave your family a home clear of debt, by covering your mortgage with an Insurance Policy?

Life Insurance constitutes the only effective way to protect your family in the event of your death. The Continental Life's Policies, including a fixed monthly income, are adapted to all needs and conditions. Don't put it off, but

See your nearest Agent of the Company, or write to either of the undersigned at Head Office for full particulars, stating your age at nearest birthday.
