SOME MORE CONVINCING EVIDENCE

If more evidence were needed to demonstrate the exceptional value of the total abstainer as an insurance risk than what has already been published by this Company, it is found in the following Table, covering the experience in the two Departments of the Company for a period of ten years:—

Year	Per Cent. of Expected Loss	
	Abstainers	General
1905	36.95%	74.23%
1907	37.81	69.15
1909	33.50	48.45
1911	46.07	77.89
1913	40.42	44.94
1914	41.83	71.63
Average for Last Ten Years		
	39.48%	64.19%

Why not reap the advantages of total abstinence by insuring in a Company which grants the special terms and rates which the above Table clearly shows are deserved by those who can classify for insurance in this Department?

The Head Office or any of the Branches throughout Canada will be glad to furnish full information on request.
