THE EATON GUARANTEE

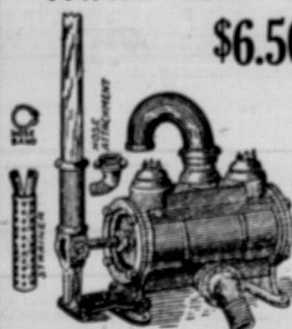

The confidence a man holds in the goods he wants to sell is expressed in the extent to which he is prepared to be their guarantee. The Eaton guarantee is the fullest that can be given. We replace free of all cost to you any article with which you are dissatisfied, with one which will please you, or refund your money in full, reimbursing you for any charges you have paid. Think what it means.

YOU WILL NEED A HAY RACK

This is one of the best stock and hay racks ever made. It is simple in construction and can be used in a great many different ways. No rods or hooks to become loose; made 14 feet long, 38 inches wide; to fit ordinary farm wagon. Box is 12 inches deep. The wings can be used in flat position or in vertical position; no wrench is needed as the malleable castings are so constructed as to lock the wings wherever required.

Combination rack, weight 600 lbs. Price **\$25.00**

TANK PUMP

\$6.50

We guarantee this pump to be the equal of any pump of this style manufactured. It is a double acting pump, sucking water at each stroke of the piston. Cylinders are 5 in. diameter with 5 in. stroke. Spout is reversible and attached to top of pump. We furnish a 2-inch strainer and clamps with each pump. All pumps are shipped complete, ready to attach to hose. Capacity 2 barrels per minute. Weight 100 lbs. Price complete as shown in illustration **\$6.50**

ENDLESS CANVAS BELTING

This belting on account of its peculiar construction, is unaffected by atmospheric conditions, uninjured by water or steam. It is painted with a composition of reddish color, which makes it waterproof; and it is not affected by oil. Actual length of these belts is 3 feet less than that stated, as it requires price of 3 feet for lap and labor in making belt endless. There is no better grade of canvas belting made.

41B168, 150 ft., 7 inch, 4 ply	\$43.00
41B169, 150 ft., 7 inch, 5 ply	\$4.00
41B170, 150 ft., 8 inch, 4 ply	\$1.00
41B171, 150 ft., 8 inch, 5 ply	\$9.00

GUARANTEED RUBBER BELTING

The line of rubber belting we handle is one of the best made, heaviest duck being used in its construction. It is uniform in width and thickness, not affected by change of temperature, and is thoroughly stretched in the manufacture, thus reducing the amount of stretching caused by working, and enabling you to get full power, as friction remains same.

41B173, 2 in. wide, 3 ply, per foot	\$0.12
41B174, 4 in. wide, 4 ply, per foot	.12
41B175, 5 in. wide, 4 ply, per foot	.26
41B176, 6 in. wide, 4 ply, per foot	.32

ENDLESS RUBBER THRESHER BELTS

41B177, 150 ft., 7 inch, 4 ply	\$53.00

41B180, 150 ft., 8 inch, 5 ply	75.25
41B181, 160 ft., 8 inch, 4 ply	65.00

There is Every Advantage in Early Buying of Twine

Of course it is too early yet to give entire sway to our optimistic hopes for an enormous wheat yield this year; but it is not too early to estimate what twine you are going to need, basing calculations on last year's yield and your extra acreage this year.

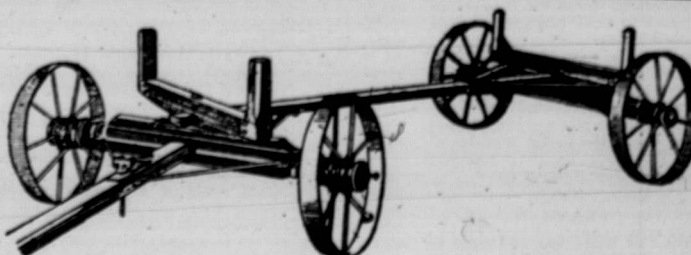

Placing your orders now entails no responsibility, and ensures your safety.
