AIR COMPRESSORS.

A line of power driven, single stage, straight line air compressors manufactured by the Canadian Ingersoll Rand Co. Limited of Montreal, is illustrated in a new bulletin, K300A. These machines are designed for motor or belt drive and are furnished with a special short belt drive where floor space is a consideration. They are intended for use in industrial and mining plants where units of 950 cu. ft. displacement and under per minute are required. Eighteen sizes are built giving a wide range of choice. "CIRCO" leaf inlet and outlet valves and the dust proof, self-oiling and self-contained construction of this type of compressor are fully described.

GAS AND GASOLINE DRIVEN AIR COMPRESSORS.

The Chicago Pneumatic Tool Co. has issued a bulletin, 34-Y, on gas and gasoline driven air compressors. It is descriptive of two of the best known compressors.

FOR SALE

- 20 Stamps of 850 lb. each.
- 10 Stamps of 1,000 lb. each.
- In five batteries of 5 stamps each.
- 30 new chrome steel shoes.
- 30 new chrome steel dies.
- 2,000 feet of 12-inch pipe.
- 1 3-h.p. Direct Current Motor.
- 1 20-h.p. High Speed Engine.

Box B, Canadian Mining Journal

FOR SALE

MOTORS AND PUMPS.

Two centrifugal pumping units complete as follows: Two 24-in. Suction, 24-in. Discharge Centrifugal Pumps direct connected to Canadian Westinghouse induction motors. Type: H. F. Constant Speed, 750 H.P., 2,200 Volts, 25 Cycle, 3 Phase, 175 Amp. per terminal, 292 R.P.M., complete with circuit breaker and starter.

These units are practically new and have received good care and can be purchased as a whole or in part.
