BAYSIDE

To the people of Bayside:

There are a whole lot of things going on around here that people ought to know about—real good things and there is much we could tell that isn't what you might term good, so we will endeavor in this short epistle to shun the evil and cleave to that which is good, or in other words ring out the false and ring in the true.

If you are seeking after the truth there is no better way in this world to get it, than by believing all we have to say and that isn't a very difficult matter if you exercise a little faith.

Prevarication, the meaning of which is unknown to us, has never been allowed to form any part, (intentionally or otherwise) of our letters to the press. If you have any fault to find regarding anything that may have been said about you in Bayside Briefs in the past, it is only because the truth happened to answer better than anything else.

There is reason in all things and the reason we invariably tell the truth concerning the people of Bayside, is not because we wish to build up a reputation but because the people of this place are a truthful people, zealous in good works, read and known of all men and if we were to say anything about you that would be contrary to the principles of truth and justice it would be branded, immediately, throughout this great dominion as a deliberate scheme to deceive, a suppression of the facts and a misrepresentation of the truth. And why? Do you happen to know that Bayside Briefs, appear-

ing as they have during the past couple of three years have been instrumental in placing Bayside on the map to stay? Do you know that by this medium you have been presented every week to the people of Canada and the United States to say nothing of the overseas dominions, as the most generous, most forgiving, truest and best people under the canopy of heaven? A reputation to be proud of surely. Since you have won such an enviable position in the estimation of your fellows throughout the world, it would be a very graceful way of showing your appreciation by dropping in and having a shake with the editor of The Ontario—telling him you appreciate his paper more than any other paper that comes to your home, because it contains the truth about all matters generally and local events in particular. Give him the hand-shake that only Bayside people know how to give. Don't forget to mention the fact that you are from Bayside and if you do you will be tendered a banquet at the Hotel Quinte. The mayor will grant you the freedom of the city and if you should get stuck for a place to sleep its altogether likely Chief Newton could give you a night's lodging.

Beginning next week Bayside Briefs will appear regularly in The Ontario. While this local news service may not have been appreciated by you in the past, we are going to make an honest effort to garner in all the worth while news of the community and present it to you in such a manner that Bayside Briefs will be appreciated more than ever before. But we can't do it alone. We need your generous co-operation and feel sure we will have it. With your help Bayside Briefs can be made the most catching, up-to-date, down-to-the-minute bit of literature to be found anywhere in the English language.

If you have news of value such as weddings, deaths, removals, arrivals, visitors, sickness, etc., call us up by phone. If you have any special news you would like published, call us to one side and give us the details. We'll patch it up and make it worth while. Don't be stingy with your news. There are hundreds of people living in distant parts of Canada and the United States who watch regularly for The Ontario each week. Some are relatives and friends of yours and if you have ever been very far from home you can understand to some extent at least how your friends in other parts appreciate the news they receive concerning you through Bayside Briefs.

We will write up anything of news value, anything wholesomely funny, but under no circumstances come to us with a tale of blue rain. The world has too long a face now. Don't ask us to knock anybody. We don't know how.

During the coming autumn and winter months, let us each endeavor to make Bayside Briefs a real live success.

Yours very truly,
Bayside Correspondent.

THAT'S WHY MRS. KARGUS RECOMMENDS DODD'S KIDNEY PILLS.

Lynedoch Lady states that she was so weak she could not get out of bed till she found relief in Dodd's Kidney Pills.

Lynedoch via Wolfe, Ont., Aug. 30.—(Special).—"I feel like telling everybody about what Dodd's Kidney Pills did for me." This is the joyful exclamation of Mrs. Frank Kargus, a well known and highly respected resident here. Mrs. Kargus gives splendid reasons why she is so enthusiastic over Dodd's Kidney Pills.

"I don't know the cause of my trouble," she says, "but I know it dragged along for over a year, I had a bad pain in my back and I was so weak that I could not get out of bed. My heart troubled me very much and my sleep was broken and unrefreshing."

"I was always tired and nervous and sometimes I was so bad I thought I could not live much longer. I tried two doctors and they did not do me much good so I tried Dodd's Kidney Pills."

"They have done me a lot of good, I can do my housework again and I am getting along fine."

Mrs. Kargus' troubles are all symptoms of diseased kidneys. That's why she got such prompt relief. Ask your neighbors if Dodd's Kidney Pills do not relieve all kidney ills.

Another Still Discovered. Peterboro, Aug. 31.—Up in the Inland Revenue Office at Peterboro, reposes a still, the boiler coated with a hard, yellow substance, where the mash has boiled over, the bottom of the boiler blackened from much usage, and the tin dented where too much pressure of some sort has been applied. It is lying in a dismantled condition in the main office, a subject for speculation on what might have been. The apparatus, however, has placed four people in danger of the arm of the law, and on Thursday its most recent guardian, Hannah L. Young, of Myersburg, three miles south of Campbellford, was fined \$200 and costs by Magistrate Payne in Campbellford for "concealing an apparatus suitable for the manufacture of spirituous beverages." In default of payment the woman will spend the next six months in the County Gaol at Cobourg, at hard labor. W. R. Parker, Deputy Collector of the Inland Revenue Department, conducted the prosecution. This is the first case of this sort tried in this section when the new minimum fine has been given and the first such charge against a woman. Sons Apprehended. The two sons of Mrs. Young were likewise taken into custody, but they jumped their bail and are still at large. The original possessor and user of still, according to Inland Revenue Officers, is William Rogers, of Madoc, and a warrant for his arrest has been issued by the Chief of Police of Belleville. The still is quite evidently not the work of an amateur. The receptacle in which the mash is boiled is an old wash boiler but a funnel has been cleverly soldered on to the top of the boiler, and this is connected by means of a long heavy lead pipe to the coils. The vessel which held the water which cooled and condensed the vapour in the coils, connected to the pipe, was smashed, and hence the apparatus is incomplete. Asked what was done with the confiscated stills, Mr. Parker said that they were stored in the basement until the supply exceeded the space, and then they were rendered unfit for further use, and turned to the junk dealers.
