Day poppy campaign realized the sum of \$31,381.

BELLEVILLE MEN GIVE MR. ELLIOTT BADGE OF OFFICE

Delegation from Here to Big Meet at Brantford Home Well Satisfied

SUBJECTS UNDER REVIEW Electrification of Railways and Other Live Topics Discussed by Delegates

The delegation from Belleville City Council and Chamber of Commerce to the Brantford convention of the Ontario Associated Boards of Trade have returned home, well satisfied with their trip.

Returning President John Elliott figured in a presentation at the banquet. To Mayor Hanns fell the honor of reading an address.

"We, your fellow delegates from the most beautiful and progressive city in Ontario and from the Belleville Chamber of Commerce, recognizing the honor that has been paid to you and through you to our city," said the mayor, "desire to take advantage of the present occasion to extend to you our congratulations and to express our grateful appreciation of the merited tribute to your personality. In order to give tangible expression to our feelings, we ask you to accept this token and badge of your high and honorable office. We trust that your subjects will be so orderly that you will not be compelled to resort to physical force in carrying out your onerous duties. The colors have been selected to match your nationality."

The token and badge of the high office were borne by Mr. J. Bone and presented to the president. Then the significance of the phrase "physical force" dawned upon the assembly of four hundred. The token was a huge wooden mallet attached to which was green ribbon several yards in length. The mallet was a glorification of the gavel.

Mr. Elliott accepted the presentation in the spirit of fun in which it was made. Mr. Elliott became past president. Col. Brock being elected president. Col. Panton, a past president, was elected to the position.

"Wherever feasible it is strongly recommended that Canadian railways be electrified," was a resolution which was adopted. The resolution was moved by Mr. Fred Newman, of Picton, who applied it only to the Picton-Trenton branch of the C.N.R., which, he said, was the most productive part of the national railways. K. J. Dunstan expressed opposition on the ground that the association was not competent to pass judgment on the matter.

Without dissent a resolution calling for night lights visible at 200 yards on all vehicles, was passed. This was introduced by Belleville.

A resolution calling for publicity before marriage and for medical examination was withdrawn, partly because of hostile criticism and partly because it was felt that this was not the business for which the convention was held.

Unanimous endorsement was given to a Toronto motion calling upon the Ontario government to call a conference of municipal representatives, boards of trade and other commercial organizations for the purpose of discussing taxation in all its phases and specifically to bring about uniformity in assessment throughout the province.

Owen Sound was chosen as the meeting place for the 1922 convention.

Four resolutions from Hamilton, Peterborough, Guelph and Saint Ste. Marie, were merged into one, with the Guelph resolution as the foundation. It called for greater protection for the investor against fraudulent stock promotions, and asked for a committee of each house to inquire into the whole subject of improper flotations and to make recommendations upon which legislation could be based and that Mr. Thomas Mulvey, K.C., be requested to act with such committee.

The Hamilton resolution calling for the adoption of the Western Canada Colonization Association plan for the prevention of alienation of colonization lands to the non-residents, was presented by Mayor Coppiey, of Hamilton, who pointed out that action was needed to thwart the western land speculators.

Hugo Stinnes Called To Meet Lloyd George

BERLIN, Nov. 19.—Hugo Stinnes, industrial magnate, is on his way to London for a conference with Mr. Lloyd George at the latter's invitation, presumably in connection with German reparations.

"Millionaire" Laboring Men. Turning to protection, he declared that it was essential to protect infant industry. But of corporations he said that if all the water was squeezed

Germany: "Surely, France, you haven't the slightest doubt of my unchanging friendship, have you?"
France: "Oh, no—not the slightest—only sometimes I wonder what you would be like if you were my enemy."
—La Democratie Nouvelle, (Paris).

CITY HALL FILLED TO HEAR PROGRESSIVE-LABOR CANDIDATE; SPEAKERS TELL AIMS OF LABOR

Mr. A. D. McIntosh Holds First Meeting in Belleville—Mrs. Andrew Glenn and Mr. Wm. Varley of Toronto, Precede Candidate—Mr. R. H. McCracken of Trenton, is chairman—The Speeches.

The first gun in the electoral campaign in West Hastings was fired in Belleville on Saturday night when the city hall was filled with a crowd to hear the issues of the day discussed by the Progressive-Labor candidate, Mr. A. D. McIntosh, of Stirling. From the fact that the meeting was held in the city, it might be expected that the speakers devoted almost their entire attention to labor problems.

That the labor movement is an economic and a revolutionary force to right human wrongs, that making living less ideal than it should be, was explained by Mrs. Andrew Glenn, of Toronto. Like all humanitarian movements it was destined to success in spite of the opposition of the classes.

Agriculture with its million and a half of population in Canada and the industrial workers in scarcely less numbers have no voice in the making of the laws. "That's what we seek," declared the chairman, Mr. R. H. McCracken, of Trenton.

The first speaker was Mr. Wm. Varley, an official of the Labor movement from Toronto. "I believe the question most before the electors is reconstruction," said Mr. Varley. "It is said that free trade and protection are the main issues, but to my mind they are not the issues at all. One party says they are, and the reason is that the interests that would benefit by protection are those that are willing to finance the election."

"I have not yet heard anything in the nature of a free trade speech. I have heard Mr. Crerar and Mr. King and some of the lieutenants of Mr. Meighen, and in none of their addresses have I heard free trade advocated."

"But there are issues which are more important to the workers of the country. There's the question of re-establishment of the returned soldiers. This re-establishment cannot take place until we adopt a policy of reconstruction. We have been told what the Government has done for the returned men. There is not one in this hall tonight who does not believe that if it had not been for the extravagance of the Government there would have been enough to satisfy every demand of the returned soldier."

What was done with the value of the dollar, he asked. There are many men who received pay in England at the rate of \$4.37 to the pound and if they happened to have any left when they reached home they were paid \$3.85 to the pound. Mr. Varley illustrated the generosity of the Government by a story of a shipwreck on the coast of Scotland. The people built a monument. This monument was erected to the dead men by money taken from the dead men's pockets, "read the inscription, and the same could be said of the Government of Canada in relation to its recognition of the service of the soldiers."

"Millionaire" Laboring Men. Turning to protection, he declared that it was essential to protect infant industry. But of corporations he said that if all the water was squeezed

serious changes are needed, that human wrongs should be righted. Progressive Movement. The founders of all progressive movements were called agitators, if not something worse. First they were ridiculed, then feared and persecuted, and then they triumphed, and those who opposed them entered into enjoyment of the privilege as that were won at such a cost in the face of their opposition. So the radical thought of the past becomes the everyday thought of the next age.

"In every country you see the labor movement, a great evolutionary force, that will bring in a new world. Some people will say it is a selfish movement, but let me tell you, it is a movement in which people will risk their lives if need be. It may have at its base the instinct of self-preservation. Primarily it is a humanitarian movement."

What "Back to Normal" Means. Mrs. Glenn outlined the Meighen phrase: "We must get back to normal." She admitted class distinctions, "he said, "for he advises that there be a return to the spirit that preserves the balance between the classes. If that is so," declared Mrs. Glenn, "we have never had anything but class legislation and nothing else, but class government in Canada."

Farm and Labor are class movements, and should be, for the working classes have to work out their own salvation. "We have an exploiting class and an exploited class. I am glad to say that myself and my husband belong to the exploited. I don't believe in class hatred, for these other people are just as much the victims of the present system as we are."

"Those who control the affairs today say they will give a fair deal to labor, but it is not your ideal for what they consider a fair deal to an employee is quite different from a fair deal to themselves. I know, people who do not know the names of their servants."

GERMANY.

serious changes are needed, that human wrongs should be righted. Progressive Movement.

The founders of all progressive movements were called agitators, if not something worse. First they were ridiculed, then feared and persecuted, and then they triumphed, and those who opposed them entered into enjoyment of the privilege as that were won at such a cost in the face of their opposition. So the radical thought of the past becomes the everyday thought of the next age.

Some people will say it is a selfish movement, but let me tell you, it is a movement in which people will risk their lives if need be. It may have at its base the instinct of self-preservation. Primarily it is a humanitarian movement."

What "Back to Normal" Means. Mrs. Glenn outlined the Meighen phrase: "We must get back to normal." She admitted class distinctions, "he said, "for he advises that there be a return to the spirit that preserves the balance between the classes. If that is so," declared Mrs. Glenn, "we have never had anything but class legislation and nothing else, but class government in Canada."

Farm and Labor are class movements, and should be, for the working classes have to work out their own salvation. "We have an exploiting class and an exploited class. I am glad to say that myself and my husband belong to the exploited. I don't believe in class hatred, for these other people are just as much the victims of the present system as we are."

"Those who control the affairs today say they will give a fair deal to labor, but it is not your ideal for what they consider a fair deal to an employee is quite different from a fair deal to themselves. I know, people who do not know the names of their servants."

"Labor's Movement a Protest. "The Labor movement is a protest against the continuance of these conditions. No other system is so destructive of human life as the modern industrial system. The problem of production is solved by machinery, which has made possible the exploitation of manhood." Mrs. Glenn told of the awful conditions which had forced children of five years of age to work in the mines.

The alleged profits of the Ford Company at Ford as revealed in an address of the Attorney-General of Ontario, the Hon. Mr. Raney, were quoted to show that protection did not increase revenue so much as pile up abnormal profits for the manufacturer. The original \$125,000 of capital is today worth \$30,000,000. The shareholders have received back the original capital sixty-three times, in dividends.

The campaign that the Government was waging was full of antiquated methods, a nightmare seeming to be troubling it over the foreign element in Canada, Mr. Varley declared. "The purpose in bringing them to Canada was to reduce the English and the Canadians to the level of the foreigners, and that being the case there is only one attitude for us to adopt—to see that they do not, but that we raise them to our level and standard of living. It is a shame to hear the Government attacking the foreigners, whom they spent millions to bring out to Canada."

Failure to Educate. Mr. Varley pointed out how in some districts workmen did not receive education when young because the districts were too poor to keep the schools open, and he thought the duty of the federal Government was to contribute to the cause of education for the sake of a better citizenship.

Farmers As Workers. "I know Mr. McIntosh is a representative of a great working class. There are 1,500,000 farmers in Canada, slightly more than the industrial workers. If you don't think that farmers work, I advise you to go to work on a farm for two weeks."

In closing, he contended that the Government had manifested its inability to carry on the affairs of the country.

"You see before you one of those awful extremists that Mr. Meighen talks to you about," declared Mrs. Andrew Glenn, of Toronto, when she stepped to the front of the platform to address the meeting.

Mrs. Glenn pointed out the differences in the viewpoint of the parties. The Conservatives saying conditions are all right; the Liberals, that while things were not altogether right, a little touch here and there would rectify them; Labor, contending that

simple and sure. "Dr. Thomas' Electric Oil is so simple in application, that a child can understand the instructions. Used as a liniment the only direction is to rub, and when used as a dressing to apply. The directions are so plain and unmistakable that they are readily understood by young or old."

At a stormy meeting of the Socialist Federation Party of Winnipeg, Ald. John Queen was informed that the party would not support him as an aldermanic candidate as he is a member of the Legislature.

SHIP-BUILDING MARKET IS POOR

Cancellation of "Hoods" is only one More Blow to Clyde and Tyne.

LITTLE WORK IN SIGHT

Wages are Three and One-half Times Those Paid Ten Years Ago

GLASGOW, Scotland, Nov. 21.—The market for ship-building is so poor that no new order to build a ship has been received at Walsend, on the Tyne since the beginning of the year, says Sir George Burton Hunter, chairman of the board of directors of one of the big ship-building companies there. Now even British warships have been cancelled.

A vessel now nearly completed at Sunderland has been sold at a price less than one-half her cost of construction. Sir George gives figures showing that it now costs \$1173 for a ton of steel used in a ship, as compared to \$3.58 in 1911. The iron workers, he says, now handle about two hundredweight of steel per week less than they did 10 years ago.

Sir George asserts also that wages are from three to three and one-half times those paid 10 years ago, when the amount of work done is taken in consideration. He says that the workers accomplish 25 per cent. less work now than in 1911 and he adds:

"This applies to other industries as well as ship-building and explains why more orders are not obtainable and why so many men are unemployed."

Hun Who Fired Upon Life Boats, Escapes From Jail

HAMBURG, Nov. 19.—Former Commander Johan Boldt, convicted of manslaughter for firing on lifeboats at the Llandovery Castle, after the vessel had been torpedoed, has escaped from prison here.

Prison Term for Gluttony Proposed

MUNICH, Nov. 19.—Drunkness, gluttony and manifestations of "high living" would be punished by a heavy fine and imprisonment, under the proposed Bavarian statute.

Funeral Limousine Hit by Train; 7 Die

CHICAGO, Nov. 19.—Seven persons were instantly killed and a funeral limousine in which they were riding was demolished when a fast Santa Fe train crashed into the machine as it was crossing the tracks between Summit and Lyons this morning. Parts of the victims' bodies and fragment of the machine were strewn along the track for nearly a mile.

THOMPSON HOLDS MEETING

Govt. Candidate in East Hastings Aided by Woman Speaker

At Thomasburg on Friday afternoon a successful rally was held in the interest of Mr. Thomas H. Thompson, M.P. for East Hastings, Government candidate in the coming elections. Addresses were delivered by Mr. W. E. Tupper, Hon. Dr. Edwards, M.P. of Frontenac, and Mrs. Braddigan, of Toronto. The candidate himself spoke at some length on the issues of the day.

Mr. Thompson held another meeting at the village of Plainfield last night, at which the same speakers addressed the electors. The attendance at both gatherings was very large and encouraging to the candidate.

CHEESE JUMPS TO 18½

Season Now About Closing for 1921—District Meeting Called

Cheese advanced, on the Belleville board today to the price of eighteen and a half cents per pound. The season is now about closed. The board was as follows: Sidney Town Hall 40, Acme 50, Silver Springs 9, and 32 trins.

The annual district dairy meeting will be held at the Sidney Town Hall on December 13th. Mr. F. J. Knight, director, will preside.

Simple and Sure. "Dr. Thomas' Electric Oil is so simple in application, that a child can understand the instructions. Used as a liniment the only direction is to rub, and when used as a dressing to apply. The directions are so plain and unmistakable that they are readily understood by young or old."

WILLARD BATTERIES

Price from \$30.00

HOME BREWING PREVALENT

IN ALL SECTIONS OF ONTARIO

MOVE TO MAKE IT ILLEGAL

The general belief is that the brewing of beer which is legal providing notice has been sent to the Inland Revenue officials of the possession of the required utensils and of the intention to brew, and the distillation of liquor which is illegal outside of licensed distilleries are becoming quite prevalent throughout the province.

Local authorities asked about it today nodded their heads and the was suggested that their might be more truth than poetry in the belief. Anyway an alarmingly large number of people can tell "how to do it."

In some sections an effort is being made to see if home brewing can be declared illegal because the sale of malt extract and hops by the druggists to home brewers is climbing rapidly and fears are expressed for the high repute of the O.T.A. is to procure enough "malt extract" is to procure enough "malt extract" which is declared to be an excellent agent in brewing, to make drinks for the whole town.

Malt extract is a heavy liquid, about as thick as what is commonly called "black strap" treacle, but it is much lighter in color. Wholesale sellers sell it to the retail druggists in bulk, and the latter generally put it up in their own containers for individual trade.

But because malt extract is considered to offer relief to sufferers from colds, all you have to do when ordering it is to cough a little, and the druggist will never catch on.

THREE CORNERED FIGHT POSSIBLE IN HASTINGS

Candidates in the elections in Hastings ridings are now entering the home stretch. In the west the conflict will be between Mr. E. Guas Porter, M.P., the government candidate and Mr. A. D. McIntosh, who bears the Progressive-Labor banner. Liberals will not enter a candidate in the field.

In the East Hastings riding there is every indication of a triangular battle between Tory, Liberal and Progressive.

Prince Edward has also a triple fight on its hands, the three candidates all having indications of success.

Nominations will take place on Tuesday. In West Hastings they will be staged at Trenton.

EGGS CLIMB FROM 65 TO 75 FAIR MARKET FOR WET MORNING

Eggs climbed up rapidly on today's market from 65c to 75c per dozen. The offerings were not plentiful.

Butter was at its lowest, selling at 35c to 40c per pound.

Hogs were a little better at \$9.00 per cwt. and pork sold at \$14.25 dressed.

A great deal of meat was cut up today, an open-air butcher told The Ontario.

Ducks brought \$1.25 to \$1.50 each, and chickens \$1 to \$2 per pair.

Potatoes were steady today at \$2 a bag.

Grains were unchanged: Wheat \$1.25, oats 50c, barley 65c, buckwheat 75c.

The hide market which a week ago strengthened slightly, has sunk back to its low mark of 3c a pound.

Vegetables sold as follows: Beets, carrots, parsnips, 40c a peck; turnips, 30c a peck; celery, 10c a bunch.

plates the welfare work carried on by the Metropolitan Life Insurance Company was made a part of this study and was made no less interesting, as it was outlined that during last year over one and a half million visits were made by the company's nurses throughout the continent, in the case of those who were ill and in maternity cases, etc. The fact that over fifteen million copies of health extension literature were distributed during 1920, in co-operation with various state, provincial and municipal public health and welfare organizations absolutely free of charge indicated the very practical side of this campaign for better health conditions.

DIED.

WALTON.—In Belleville on Friday, Nov. 18th, 1921, George Walton.

DEMILL.—On Friday, Nov. 18th, 1921, at her home, Cedar St., Trenton, Lena Reddick, beloved wife of Percy Demill, is her 23rd year. Funeral will take place on Sunday.
