

BERESFORD TO TALK ON NAVY

Britain in Grave Danger, He Thinks and Will Tell Canada So

Will Conduct Campaign While in This Country

Convinced of Weakness of Britain's Navy--Germany Greatest Foe

MONTREAL, Que., Aug. 28.—Lord Charles Beresford will conduct an active naval campaign in Canada. Yesterday he received a cable from London saying that the elections would be held in January. He is as strong in his opinion of the weakness of Britain's navy as he will open his campaign while in Canada. He will tell Toronto of the great danger Britain is in and will demand increased battleships, bringing the command under one man instead of a number as now, and an active defensive preparation against Germany, which he considers as Britain's greatest foe. He will speak in Montreal later and may speak in other cities if he can spare the time.

SHOT MANUFACTURER TO AVENGE HIS WIFE

Young Husband Takes Desperate Action After Hearing Story

NEW YORK, Aug. 28.—A despatch to the Times says that Louis Denny, a well-to-do manufacturer, residing in St. Louis was shot from ambush yesterday and mortally wounded by George Snyder. Denny was shot twice just over the heart after he had been lured from his office by a telephone call by a man who called himself Denny. Snyder used a single-barrel shotgun which he loaded and fired the second time at Denny from a distance of about 100 yards. Snyder's weapon and standing off a crowd of 25 or 30 men which had been attracted by the shooting and escaped. He was arrested last night at his home and admitted he did the shooting. "Denny knows why I shot him and he can tell if he will," was his answer to the deputy sheriff's question of motive. The county authorities discovered last night that Snyder got his gun and cartridges from an ordnance store and had lived in the Denny family several years before her marriage. Three weeks ago a child was born to the Snyder family and Thursday Mrs. Snyder returned to her home from a hospital. All attempts to obtain from Snyder a statement as to his wife's confidences have failed. Mrs. Snyder has been on the verge of a collapse since the shooting and is unable to make a statement. Denny, who is an unmarried man, lives with his parents. He was at work in his office when Michael Heisenleiter summoned him to a telephone across the street. Unconscious that she was using him toward his assailant, the girl walked ahead and was but a few feet in advance of him when the first shot was fired. Snyder lay underneath a building, which is elevated a few feet from the ground by wooden pillars.

DESTRUCTION OF SWITCHES TIES UP TRAIN SERVICE

No One Hurt in Train Accident at Canton Junction, Mass.

CANTON, Mass., Aug. 28.—Through the destruction of the switches at Canton Junction, where the engine of the 448 passenger train from Montreal to Boston left the iron and steel tracks, all traffic on the Providence division of the New York, New Haven and Hartford Railroad was tied up for several hours late this afternoon and tonight. No one was hurt in the accident and none of the cars in the passenger train left the rails. The cause of the wreck is not known. The train, which consisted of the engine, three passenger cars and a smoking car, was going at a moderate speed when the engine suddenly jumped the tracks at the junction of the main line and the Boston branch and plowed across the tracks, destroying the switches, finally tipping over on its side. Both the engineer and fireman escaped safely, and beyond a shaking-up none of the passengers was hurt. Some wrecking and repair work was done at work immediately after the accident, but all trains were held up for several hours, and passengers on the local trains had to make their journey by electric.

CURTISS' "GOLDEN FLYER" BREAKS ANOTHER RECORD

THE CURTISS BIPLANE

A message to the railroad officials says that there are no lights and no water at Monterey, the water mains having been destroyed. The Santa Catalina River divides the city from the suburb of San Luisito and the latter probably has been destroyed. The bridge is now under a torrent. Several blocks of houses occupied by the poor were carried away while the river watched helplessly. The city authorities are trying to give aid to the sufferers, but with little success. The message further says that it is impossible to estimate the number of dead. It is reported that a number of villages have been destroyed in other parts of the province and that thousands of persons are homeless.

Minister Back from Tour of Canadian West

Highly Pleased With Development--Plans for Future

Hon. Wm. Pugsley, Minister of Public Works, reached his summer residence at Rosheys by the Ocean Limited Saturday night after his tour of the Dominion. The Minister is slightly fatigued after the laborious tour of his tour and will remain here some time. While in St. John he will be tendered a complimentary banquet by his political friends of this city and the province in general. Speaking to The Sun last night the Minister of Public Works expressed himself as being satisfied with the results of his tour which placed him in touch with practically all parts of Canada. He was particularly impressed with the possibilities of the northern part of this province, which he visited during the latter part of his tour. Enthusiastically received Hon. Mr. Pugsley was enthusiastically received at both Campbellton and Bathurst. The first named place was visited on Friday. The Minister was taken on a special train over the International Railway which is being built from Campbellton to St. Leonard's and which is rapidly nearing completion. Hon. Mr. Pugsley was enabled to judge of what benefit the new railway would be to the northern section of the province in opening both lumbering and settlement lands. The minister also made an inspection of the water front of Campbellton, where certain improvements have been asked. Friday was spent by Mr. Pugsley at Bathurst. There the minister inspected the harbor and in the evening attended a banquet given in his honor and also addressed a public meeting. Hon. EXPLODE MINES KILLING MANY

Moors Put Up a Brave Resistance at Capture of Tasquin

LEISBON, Aug. 28.—A dispatch from Penon de la Gomera, today says that the Spaniards in Morocco exploded a number of mines, killing one hundred Moors. The Spaniards were re-laying the mines in the darkness when the Moors returned and attacked them savagely. Three Spanish officers and fifty men were killed. According to another message received here, a Spanish division led by Arbas, hoping to push on to Zelouan. But it was repulsed by the enemy with considerable loss and fell back to El Arbas to await reinforcements.
