THE RETURN OF TARZAN

By EDGAR RICE BURROUGHS

Copyright 1913 by W. G. Chapman

As they rose and stood on either side of the now peaceful form tears came to the ape-man's eyes, for through the inguish that his own heart had suffered he had learned compassion for the suffering of others.

Through her tears the girl read the nessage upon the bit of faded yellow paper, and as she read her eyes went very wide. Twice she read those star-

She banded the paper to Tarzan "And he has known it all this time," she said, "and did not tell you?"

"I knew it first, Jane." replied Tar message that night in the waiting room. It was there that I received it.' "And afterward you told us that your mother was a she-ape and that

ou had never known your father?" she asked incredulously. "The title and the estates meant nothing to me without you, dear," he replied. "And if I had taken them away from him I should have been

robbing the woman I love-don't you understand, Jane?" It was as though he attempted to excuse a fault. She extended her arms toward him cross the body of the dead man and

took his hands in hers. "And I would have thrown away

ove like that!" she said. The next morning they set out upon the short journey to Tarzan's cabin. Four Waziri bore the body of the dead Englishman. It had been the apeman's suggestion that Clayton be buried beside the former Lord Greystoke near the edge of the jungle against the cabin that the older man had built. Jane Porter was glad that it was to be so, and in her heart of hearts she wondered at the marvelous fineness of character of this wondrous man, who, though raised by brutes and among brutes, had the true chivalry and ten derness which one only associates with

the refinements of the highest civiliza-They had proceeded some three miles of the five that had separated them from Tarzan's own beach when the Waziri who were ahead stopped suddenly, pointing in amazement at a strange figure approaching them along the beach. It was a man with a shiny silk hat, who walked slowly with bent head and hands clasped behind him underneath the tails of his long black

At sight of him Jane Porter uttered a little cry of surprise and joy and ran quickly ahead to meet him. At the sound of her voice the old man looked up, and when he saw who it was confronting him he, too, cried out in relief and happiness. As Professor Archimedes Q. Porter folded his daughter in seamed old face, and it was several minutes before he could control himself sufficiently to speak.

When a moment later he recognized Tarzan it was with difficulty that they could convince him that his sorrow ad not untilanced his mind, for with been so thoroughly convinced that the very lifelike appearance of Jane's "for- He saw the black warriors palavering

passed away many days ago." "Thuran is with you?" asked Tar-"Yes. He but recently found us and led us to your cabin. We were camped but a short distance north of it. Bless

me, but he will be delighted to see you "And surprised," commented Tar-

A short time later the strange party came to the clearing in which stood the ape-man's cabin. It was filled with people coming and going, and almost the first whom Tarzan saw was D'Ar-

"Paul!" he cried. "In the name of sanity, what are you doing here? Or are we all insane?"

It was quickly explained, however, as were many other seemingly strange things. D'Arnot's ship had been cruising along the coast on patrol duty when, at the lieutenant's suggestion they had anchored off the little landlocked harbor to have another look at the cabin and the jungle in which ing with Lieutenant D'Arnot und many of the officers and men had ta- tain Dufranne. ken part in exciting adventures two years before. On landing they had found Lord Tennington's party, and raised his eyes and met those of the arrangements were being made to take them all on board the following morning and carry them back to civiliza-

Hazel Strong and her mother, Esmeralda, and Samuel T. Philander were almost overcome by happiness at Jane Porter's safe return. Her escape seemed to them little short of miraculous, and it was the consensus of opinion that it could have been achieved by no other man than Tarzan of the Apes. They loaded the uncomfortable ape-man with eulogies and attentions until he wished himself be a in the amphitheater of the apes.

All were interested in the savage Waziri, and many were the gifts the black men received from these friends of their king, but when they learned that he might sail away from them upon the great canoe that lay at anchor a mile off shore they became very

"His surprise will be short lived," eplied the ape-man grimly, and there was that in his tone that made her look up into his face in alarm. What she read there evidently confirmed her fears, for she put her hand upon his arm and pleaded with him to leave the Russian to the laws of France.

"In the heart of the jungle, dear," she said, "with no other form of right or justice to appeal to other than your own mighty muscles, you would be warranted in executing upon this man the sentence he deserves, but with the strong arm of a civilized government at your disposal it would be murder to kill him now. Even your friends would have to submit to your arrest, or if you resisted it you would plunge us all into misery and unhappiness his arms tears streamed down his again. I cannot bear to lose you again, my Tarzan. Promise me that you will but turn him over to Captain Dufranne and let the law take its course. The beast is not worth risking our

happiness for." He saw the wisdom of her appeal the other members of the party he had | koff and Tennington emerged from the jungle. They were walking side by side. Tennington was the first to note
