Dated the 7th day of April, 1917. CHRISTENA E. GRANT, of New Glasgow, N.S., administrator of the estate of James W. Grant, deceased.

Tuesday afternoon the home of Mrs. B. F. Trask was the scene of a very pretty event, the occasion being a little farewell in honor of Mrs. D. H. Simpson. The parlors were prettily decorated with tulips and ferns, which were greatly admired by the friends present. A dainty five o'clock tea was served in Mrs. Trask's inimitable style, after which Miss Eudora Hilton paid a high tribute of appreciation and thanks to Mrs. Simpson in behalf of her many friends for her valuable services so willingly rendered in various ways in the church work during the past winter, not forgetting the splendid work she has done with the C. E. Society. Mrs. Simpson responded in a most fitting manner. She has been spending the winter with Mr. and Mrs. Trask and has made many friends, who wish her every prosperity. She left yesterday morning for Calgary, Alberta, to spend the summer with her daughter, Miss Marion Simpson.—Yarmouth Exchange.

PERFECT HEALTH DUE TO THE BLOOD No Girl or Woman Need be Constantly Ailing and Unhappy

Nature intended every girl and every woman to be happy, attractive, active and healthy. Yet too many of them find their lives saddened by suffering—nearly always because their blood is to blame. All those unhappy girls and women with colorless cheeks, dull skins and sunken, lustreless eyes, are in this condition because they have not enough blood; red blood in their veins to keep them well and in the charm of health. They suffer from depressing weariness and periodical headaches. Dark lines form under their eyes, their heart palpitates violently after the slightest exertion, and they are often attacked with fainting spells. These are only a few of the miseries of bloodlessness. Nothing can secure girls and women from the inevitable decline that follows anaemia except a generous supply of new, rich, red blood and nothing has ever proved so successful in creating red, good blood as Dr. Williams' Pink Pills for Pale People. Thousands and thousands of girls and women owe their good health and charming complexion to the use of this medicine. Here is one example of its power to cure. Miss Dorina Bastien, St. Jerome, Que., says: "For over a year my health was gradually failing, my blood had seemed almost to have turned to water, my cheeks were pale, my lips bloodless, and the slightest exertion left me breathless. I suffered frequently from severe headaches, my appetite failed, and my friends feared I was going into consumption. I had been doctoring but did not derive any benefit, and finally I had to give up my work and return home. It was at this stage that a friend brought me a box of Dr. Williams' Pink Pills and urged me to try them. By the time the box was used I thought they were helping me, and decided to continue using the pills. I took a half dozen boxes more, when my strength had completely returned, my appetite was restored, my color returned, headaches had disappeared and I was feeling better than I had been for years. I would urge every weak and ailing girl to give Dr. Williams' Pink Pills a fair trial."

These pills are sold by all medicine dealers or may be had by mail at 50 cents a box or six boxes for \$2.00 from The Dr. Williams' Medicine Co., Brockville, Ont.

A WARTIME SESSION A young British naval officer, attached to the French and English commission, which lately met in Washington, D.C., attended a dinner, given in their honor, after which dancing was proposed, which he declined to join. When questioned as to his reason for doing so, he replied, "On account of the war." Are they dancing and making merry in England, think you. And how about France, Serbia, Russia and the others? Not to mention Germany and Austria. Is there much of that kind of thing going on in any of those countries do you suppose, or is it only in this country that people are celebrating and amusing themselves, while all the others are suffering from lack of food and are spending their time in sadness, doing all the good and helpful work that can and very hard work at that. May our eyes be opened that we may see.

THE CAMERONIA TORPEDOED AND SUNK LONDON, May 17.—(Delayed)—The British Admiralty issues the following statement for newspapers of Saturday: "The British transport Cameronia, with troops, was torpedoed by an enemy submarine in the Eastern Mediterranean on April 15. One hundred and forty men are missing and are presumed to have been drowned." The British steamer Cameronia, of 10,963 gross tons, was one of the largest ships belonging to the Anchor Line, of Glasgow. She 515 feet long, 62 feet in beam and 33.7 in depth.

INCREASED PRODUCTION The ready response given by farmers and town and city planters throughout the Dominion for the purpose of helping to win the war, has been the subject of much praise at the hands of the Committees in charge of this noble work, but it seems that few yet fully realize the gravity of the present food crisis. With flour selling as high as \$17.00 and potatoes at \$6.00 per barrel, and still soaring, one wonders what the food situation will be before the new crop is marketed.

The crop outlook, so far as can be ascertained at the present moment, has not been so poor in the past 35 or 40 years. The prospects in the United States are causing grave concern to the authorities, and a note of warning has been sounded to produce more and more, and more! The alarm is not confined to the United States and Canada. The allied nations all encourage increased production.

Professor Cumming has expressed the opinion that the farmers of this Province are in full sympathy with the movement for increased production and evidences of this is not lacking in the Annapolis Valley, where the soil is so particularly adapted to mixed farming. But more can and should be done. The writer regrets to learn that some farmers fear a glut in the market if production should reach the proportions aimed at by the National Service Board. Bonar Law has recently given a decided answer that should satisfy the pessimist in this respect, when he said that at the present time, it was more important to produce food than to fight. Without food the men at the front can do very little.

If there should be an over production in Nova Scotia, there is a market in New England States within 24 hours from the heart of the Annapolis Valley, capable of taking all the surplus products of our farms and much more this year. Among the crops that can be raised very profitably for the New England markets, are turnips, carrots, beets, potatoes, etc. The Province of Ontario grows 30 millions bushels of turnips. Nova Scotia should raise as many. Too much encouragement cannot be given to the necessity of growing vegetables. Every pound of fertilizer and every grain of seed available should be utilized during the ensuing seeding season. Wheat can be grown in the Valley and the rolling mills at Berwick and Meteghan can turn it into flour, thus keeping these local industries busy and performing the work for which they were established in this territory.

PRESENTATION TO PROF. MCKEIL AND MISS HARRIS A committee of the University Faculty waited on Professor McKel of the Science Faculty and Miss Harris of the Ladies College Faculty last night and presented with a purse of \$25 dollars. Professor McKel and Miss Harris are to be married on Monday at the bride's home in Pictou, from whence they will go to Ottawa where Professor McKel is to represent Mount Allison at the Conference of Canadian Universities to be held in that city on the 23rd inst. The best wishes of their many friends in the college and the town will go with them on their journey.—Sackville Tribune.

YOUNG WOMEN MAY AVOID PAIN

Need Only Trust to Lydia E. Pinkham's Vegetable Compound, says Mrs. Kurtzweg.

Buffalo, N.Y.—"My daughter, whose picture is herewith, was much troubled with pains in her back and sides every month and they would sometimes be so bad that it would seem like acute inflammation of some organ. She read your advertisement in the newspapers and tried Lydia E. Pinkham's Vegetable Compound, and it will be held in strictest confidence."

She praises it highly as she has been relieved of all these pains by its use. All mothers should know of this remedy, and all young girls who suffer should try it.—Mrs. MATILDA KURTZWEG, 529 High St., Buffalo, N. Y.

Young women who are troubled with painful or irregular periods, backache, headache, dragging-down sensations, fainting spells or indigestion, should take Lydia E. Pinkham's Vegetable Compound. Thousands have been restored to health by this root and herb remedy.

If you know of any young woman who is sick and needs helpful advice, ask her to write to the Lydia E. Pinkham Medicine Co., Lynn, Mass. Only women will receive her letters, and it will be held in strictest confidence.

BRITISH HOLD HINDENBURG LINE.

LONDON, May 21.—The British troops are now holding the entire Hindenburg line from the east of Bullecourt to Arras, with the exception of trench elements on the front of about 2,000 yards west of Bullecourt, according to the official communication issued tonight. The recent gains northwest of Bullecourt have been consolidated. The statement says: "Our new positions in the Hindenburg line northwest of Bullecourt have been secured during the day with little interference from the enemy. All information received confirms the severity of the German losses in the recent fighting in this area."

"With the exception of a sector about 2,000 yards long immediately west of Bullecourt we now hold the whole of the Hindenburg line from a point one mile east of Bullecourt to Arras. "The hostile artillery has again shown considerable activity on the north bank of the Scarpe. "There was great aerial activity yesterday. A number of successful bombing raids were carried out, and our airplanes co-operated excellently with our infantry in the attacks, engaging the enemy troops in the enemy's front line trenches with machine gun fire. "In the air fighting seven German airplanes were downed, of which one fell inside our lines. Eight others were driven down out of control. Another hostile machine was a shot down out of control by our anti-aircraft guns. Four of our airplanes are missing."
