

Athens Distinguished Sons

Rev. H. E. Warren Tells Interesting Story in the Methodist Church.

Special cards of invitation to 150 young men and women, and a catchy subject of special interest to the people of Athens, accounted for the big audience in the Methodist Church on Sunday night in spite of the icy roads. It was a night of retrospect for the old, and of ideals realized for the young.

The pastor, Rev. H. E. Warren, announced his theme as "Some Sons of Athens That Have Won Distinction." At the outset a distinction was drawn in a picture contrast of two women of these counties. One a celebrity of Athens, known abroad as the "Witch of Plum Hollow," whose notoriety passed with her passing; the other, Barbara Heck, whose distinction was not realized till a century after her death, and then by two natives that reared at Prescott a memorial to her honor as the founder of North American Methodism.

The speaker in his choice of candidates for distinction had found a feast and not a famine and feared the subjective element had probably warped his judgment.

The Old Grammar School.

From that distant past stood out two names—both alive—Sir Clifford Sifton and Mrs. Dr. Leonora Howard King. From country lad to the Farmersville Grammar School to Cabinet Minister in the Federal Cabinet was a big step. Not many homes could outclass that humble Sifton home, that had the double honor of having also supplied a Premier to the young Province of Saskatchewan—the Hon. A. L. Sifton. Athens had made other contributions to Government Cabinets in the persons of Hon. John F. Wood, Controller of Inland Revenue and Customs in the Federal House, and Hon. Dr. R. F. Preston, Minister of the Hearst Government at Toronto. She has given to the bench, their Honors, George W. Green, of Alberta; A. L. Fisher, junior Judge of the County of Renfrew, and Judge H. S. Mott, of the Toronto Juvenile Court, not to speak of other townsmen who have been members of the Canadian Senate and Houses of Parliament.

Dr. Leonora Howard King left home as a young school teacher to blaze a new path for women in the medical profession. From Ann Arbor College to Tiepin, China, was a long way via Cape Horn and a bold adventure. On her arrival a door of opportunity opened. She was called to visit the sick wife of Li Hung Chang, then the ruler of the Chinese Empire. Through tapestried curtains a royal hand was thrust, according to the custom of the secluded Chinese women. She pled to see the royal patient. Her plea was granted. It meant a new day for the womanhood of China. It meant the triumph of the western art of healing. When Li Hung Chang proposed a recompense for the cure, she boldly asked for the first Women's Hospital in China. He gladly built it, and she was its superintendent for nearly half a century. Her husband has been a faithful minister of the gospel at her side, and together they still work for the land of their adoption.

Nearer Home.

But distance is dispensable as a criterion of distinction. "Greatness may dwell a tour very doors," said the speaker, and soon was recognized one who has for half a century moved along our streets, and played the double roll of faithful servant and expert surgeon—an exceptional record. He is known far and near by the familiar name of Dr. Charles Cornell. Pioneers in the Mission Fields of Asia. Nearly 40 years ago the Methodist Church determined to enter China. She needed new adventure, culture and faith. Strange that Athens had them in waiting. Loaned to Kingston for higher equipment for the task, they responded—Omar L. Kilborn and George E. Hartwell. One was a doctor and the other an evangelist. The doctor reached his distant field a widower, the first Canadian to be buried in that western mission field. It was soon years before there was a speaker. To-day, what a harvest has crowned the labors of these brave pioneers. A dozen mission outposts sway 60 million, a group of churches and hospitals, a publishing house and university and over 200 of a working force. Kilborn's work ended on a furlough four years ago, but his mantle has fallen upon his family, all volunteers for China.

Corea.

Dr. William James Hall was a Glen Elbe lad that gravitated to Athens for his education. His next step was to mission work in New York City.

There he found one after his own heart, Dr. Rosetta Sherwood, and together as man and wife they volunteered for Corea. He had a peculiar passion for helping people, and the flame of his evotion never abated till, after overcoming the hatred and hostility of the Coreans, death claimed him as a victim of disease contracted upon the battle field between the Japs and Coreans. His widow still carries on and awaits the joy next year of welcoming as her assistant, her son, Dr. Sherwood Hall and his wife, also a doctor who was formerly a Miss Botteral, of Athens.

Service and Drummond.

"The missionaries are monopolizing most of the seats of distinction to-night," Dr. Charles W. Service is a son of the Athens parsonage. His father was Rev. William Service. So early did he scent his life work that he was a boy preacher on those days. Marrying Miss Robbie Morgan, a nurse of the Brockville hospital, they volunteered for West China. Other hands reared the pioneer hospital in the capital city of Chentoo, Chinese Montreal. Here for years he has been the superintendent. His daughters in Toronto are preparing to join him in mission work when their preparations is complete.

Rev. Mr. Drummond's field in Southern China, where he is doing a great work under the Presbyterian Board. We were boys together in the old village. He has a helpmeet indeed in his companion.

Another Woman Pioneer.

The achievements of women are so numerous as to surprise no one these days. She has entered the professions and at last the bolted door of Parliament has opened before her. Before Lady Astor and Miss McPhail in point of time we must put an Athens girl, known in her girlhood days as Louise Crummy, a sister of Rev. Dr. Eber Crummy, at one time a missionary in Japan, and now an outstanding minister in the Canadian west. She met her fate when she changed her name to McKinney. She arose to distinction when one day she took her seat in the Alberta Legislature, the first woman legislator in the British Empire. Since then others have followed but slowly.

Of the names of foremost women of our Canadian West, we must rank her along with Mrs. "Judge" Murphy and Mrs. Nellie McClung, both having won distinction as authors. While out of politics now she is not out of her great life mission in the building of a better Canada, for she is a stalwart in the W.C.T.U.

In conclusion the speaker paid a tribute to the churches for doing the Trojan part in shaping the higher ideals of these brilliant sons and daughters of our town.

"HONOR BADGES."

The Tuxis Honor Badges are awarded each time a Tuxis Boy meets the requirements of any section of the four-fold programme. These badges are made of silk and are sewn into spaces provided for them on the Tuxis Boys' sweater crest. Honor Badges are of three degrees: Red Honor Badges, the first class; Blue Honor Badges, the second; and White Honor Badges, the third class.

The plan of Canadian Standard Efficiency Training is to establish a standard in every activity which will contribute to the best development of boy life. The White Honor standard is just a fair average standard for boys of Tuxis age. Any time a boy falls below this standard he may regard himself as being below par in that place of his life. The Blue and Red Honor standards may be said to be good and excellent standards respectively, and any Tuxis Boy who reaches these standards has a right to be proud of his achievement as being well above the average.

The programme of every Tuxis Square and the individual work of every Tuxis Boy should be centered on the winning of the Honor Badges. The experience of hundreds of groups has shown that this is the best and most interesting way to work out the programme. The winning of a new badge or two every month gives a feeling of real achievement and the Tuxis Boy who plans his work systematically over a period of two or three years will be surprised at the total number of his new and worthwhile achievements. Badge work is central importance. It is the only practical way to check the progress made in meeting the standards which form the basis of this four-fold programme of training for Canadian Christian Citizenship.

Amendment to O. T. A.

THE METHODIST CHURCH OF ATHENS.

Action Taken Upon the O.T.A.—Communication to Hon. Mr. Ferguson and H. A. Clark, M.P.P.

At a recent meeting of the Quarterly Board of the Athens Methodist Church, specially called for the purpose, the following action was unanimously taken, the same to be communicated to the Premier of the Province, Hon. G. Howard Ferguson, and Dr. H. A. Clark, Member of the Legislative Assembly for the Brockville Riding.

Resolved, That whereas the Ontario Temperance Act has been placed upon the statute books of Ontario, as a triumph of non-partisan legislation, and there is abundant confirmation in the present session of its being a party issue again;

And whereas the Premier and his Government have interpreted the mandate of the people, recently expressed at the polls, as a victory for the Wets, inasmuch as legislation is immediately proposed in harmony with such a conclusion;

And whereas the Premier and his Government propose to amend this Act, that has made for real temperance for the past eight years of its history, so as to legalize positive drunkenness by authorizing an intoxicating beverage in the face of scientific findings in Canada and other lands;

And whereas the Premier and his Government through manifest intimidation of the liquor interests and their following, have opened a campaign of defiance against the voice of the sovereign people, which denies the foundation principle of British constitutional government, viz., government by majorities;

And whereas the Premier and his Government through the Attorney-General are now pleading the impracticability of enforcing the Act in its present form where wet majorities seem large in evidence—a confession of governmental impotence so soon after solemn pledges to the contrary;

And whereas the main plea advanced is only the matter of a little better tasting beer;

Therefore, be it resolved that we deeply deplore this unfortunate retrogression in the cause of moral reform legislation by making it a party issue, and ask the Premier and his Government to honor the sacred principle again, which lies at the base of this legislation;

And that we speak with no equivocal voice at this hour, with less than four months of when we spoke by the ballot at the Premier's request, in the face of the most suspicious, if not flagrant, padding of the voters' lists by the Wets in certain urban sections of the Province in spite of the care taken—and ask the Premier to abide by his own unequivocal pledges, before and since the vote of October 23, and by the unmistakable mandate of the people;

And that the Ontario Temperance Act be not amended by the proposed increase of the alcoholic content of beverage beer, but in furtherance of the original spirit of this Act, when placed upon the statute books that it be strengthened when and where necessary and that it be faithfully and uniformly enforced.

Miss C. Morrison, Brockville, spent the week-end at her home here.

Mrs. R. Dunn, who has been on the sick list, is able to attend to her household duties again.

A. H. S. Notes

An open literary meeting, taking the form of a St. Patrick's concert, will be held about March 17th. The concert will be put on by Irish talent from the school, and should prove very interesting.

On March 6th a debating team composed of Sam Hollingsworth, jr., and Robert Rahmer, will go to Smiths Falls to debate against the Smiths Falls C.I. team. The subject is, "Resolved, that organized labor is a greater menace to the state than is organized capital," with our boys taking the affirmative. The winners speak against Brockville in the finals for the Stewart Cup, which is at present held by Brockville C.I.

The Chemistry Room will soon be in a condition to occupy. A number of shipments of apparatus have been received and put in order, and Mr. C. C. Slack is at present engaged in painting the room. It will be a great convenience for teachers and pupils alike when this room is ready for occupation.

The school in general is gradually looking more "homelike." The window blinds made their appearance over the week-end and added greatly to the general appearance.

A shipment of books arrived recently from the Oxford University Press. These included books on history, biography, literature, etc. for supplementary reading. This was part of the shipment of books made possible by the Alumni Association grant.

Strong Position Reported by Standard Bank of Canada

Total assets amount to \$83,520,820—Liquid Assets Stand At Over Forty Millions—Addition of \$150,000 to Reserve Fund, Bringing It Up to \$2,900,000.

A position of unusual strength and a condition that will enable it to handle its full share of the business requirements of the country are the outstanding features shown in the annual statement of the Standard Bank of Canada. The report, which is for the year ending January 31st, is the first issued by the Standard Bank since the Sterling Bank of Canada was amalgamated with it. On this account there will be special interest in the figures submitted, and it should be a matter of great satisfaction to the public, as well as to the shareholders, that the combined resources have made for such marked strength and at the same time enable the Bank to offer more efficient services to a much larger clientele.

The general statement of assets and liabilities shows that the total assets of the combined banks amount to \$83,520,820. Of this amount as much as \$40,000,000 is in liquid, or immediately available assets, equal to over 53% of liabilities to the public. In addition, these liquid assets include cash, as represented by current coin, Dominion notes and deposit in central gold reserves, of over \$10,000,000, being more than 25% of liquid assets.

Holdings of High Grade Securities. The principal accounts included in liquid assets are a very large proportion of holdings in high grade securities. Dominion and Provincial Government securities amount to \$14,382,293; Canadian Municipal and British, Foreign and Colonial Public securities, \$3,148,197; Railway and

other bonds, \$450,475, and total call and short loans, \$6,769,330, making the total in this department \$24,760,296.

Indicating the large amount of general business being handled are current loans and discounts entirely in Canada of \$36,077,639, and loans to cities, towns and municipalities, \$1,798,201.

The confidence enjoyed by the Bank among a large number of depositors is reflected by total deposits of \$63,422,377. These include deposits bearing interest of \$52,048,439, and deposits not bearing interest, \$11,383,938. The Bank's paid-up capital now stands at \$4,823,400, and the Reserve Fund, to which has been added \$150,000, now totals \$2,900,000.

Earnings Well Maintained. The Profit and Loss statement shows that earnings, after providing for all charges and dividends, per mitted of a liberal amount being added to the balance carried forward. The profit for the year, after deducting expenses, interest accrued on deposits and rebate on unmatured bills, Provincial taxes, and making provision for bad and doubtful debts, was \$688,682. This, added to the amount carried forward from the previous year, brought the total up to \$904,344, which was appropriated as follows: Dividends, \$488,234; War taxes on note circulation, \$40,000; Reserve for Dominion Income Taxes, \$50,000; contributed to Officers' Pension Fund, \$27,000; transferred to Reserve Fund, \$150,000; leaving a balance to be carried forward of \$151,110.
