

THE ACADIAN.

WOLFVILLE, N. S., MAY 27, 1904.

It is to be hoped that the street authorities, as well as all the citizens, will do their utmost to make our town present an attractive appearance next week.

It is understood that Principal Britain has tendered his resignation, which is now being considered by the Board of Governors.

Next week will witness the closing exercises of Acadia College and affiliated schools. The past year has been one of the most successful in the history of the institutions, and the exercises next week all promise to be of special interest.

THE ACADIAN would respectfully call the attention of the street authorities to the condition of the sidewalk on Acadia street particularly that portion between Highland avenue and the college.

World Wide.

There is, in the Canadian building at the World's Fair, a series of pictures from the brush of Mr. Paul Wickson, of Paris, Ont., showing all phases of farm life in Canada.

The 19th of May, Emperor Nicholas' thirty-sixth birthday, was honored as a highly celebrated holiday in St. Petersburg.

A tragic drowning accident occurred on Oranocote Lake, N. B., last Sunday, by which two of St. John's well known boys were lost.

Up to the present time the Japs' naval losses have been one torpedo boat, one battleship and two cruisers.

For the purpose of greater rapidity and convenience in war time, a scheme for inflating balloons with vaporized petroleum has been successfully carried out. The plan includes a newly constructed vaporizer that will fill a balloon of 70,000 cubic feet capacity in less than an hour.

Although the war in the far East, or, as it lies from us, the far West, is attracting most of the public attention, there are, at the same time, several other little disagreements being settled by force of arms in various corners of the earth.

Graduating Recital.

The musical graduating recital of the musical pupils of Acadia Seminary, took place on Monday evening in Alimona Hall, which was crowded to its utmost capacity, with the many friends of the graduates.

Miss Gertrude Heales, in her vocal selections, acquitted herself with credit, and showed evidence of careful training. She has a sweet, sympathetic voice, which showed to great advantage in the cradle song by Mendelssohn, and her rendering of the air, 'Lord to Thee,' from 'Theodor' was characterized by smoothness and English. Her selection from 'Samson and Delilah,' was interpreted with dramatic effect.

Miss Wortman was most effective in her playing of Ann. Loreley-Pets, while Miss Strong captured the audience in Spanish Caprice. The performers received a number of beautiful bouquets of roses and carnations, while Miss Heales was the recipient of a handsome ring, set with three exquisite diamonds, from her parents.

Victoria Day.

Victoria Day recalls in a touching manner the affection of a great people—in fact, of an entire world—for a Queen whose reign was unique in the annals of history. There have been Kings and Queens before, much loved by their own people, but it is doubtful whether ever another lived who had so high a place in the united esteem of all peoples. Wherever the name of Victoria was known, she was respected and loved; for she had not permitted her Queenhood to mar her womanliness nor her womanhood to weaken her Queenliness.

The long reign of Victoria saw the coming of a new birth—if not the discovery of a new heaven. Invention and science made over the world, while she looked on with her wise, encouraging eyes. The methods of trade and commerce were revolutionized during her reign to an extent which had not been seen before during the lifetime of even a great dynasty. The human race suddenly shot forward in the Victorian Age; and she saw the slow progress of centuries eclipsed in as many decades.

The very Empire over which she reigned changed under her hand. India became the jewelled throne upon which she sat as Empress, though it had been the hunting ground of a private company. Australia came into being. The Dark Continent was lit up largely by British exploration, and British rule promised justice and liberty to a large share of its inhabitants. Canada grew from a few scattered settlements rebellious to a great and contented people sending soldiers to support the flag and offering to feed the Empire with her crops.

Under her sway, free and enlightened government advanced throughout her own dominions; and it is impossible to give a ruler higher praise than this. Never was she a retarding obstacle in the path of liberty; ever was she its champion and warmest friend. The British people had immensely more power in their hands when her reign closed than when it began; and not a shred of it had been siphoned from the unwilling fingers of the reigning monarch, for the reigning monarch had been glad to see her people rise. Self-government was given to her Colonies by her Ministers; and her Colonies were thereby drawn closer to the throne.

The Empire does well to keep Victoria Day. It commemorates the brightest span in its history—the greatest single leap forward it has ever made—a golden age of scientific

Advancement and the growth of popular freedom.

The Colonies do especially well to keep it; for during the Victorian era, they attained their present status as the mightiest, the happiest, the most prosperous free Colonies which the world has ever seen.—Star.

The Cure of Consumption.

It has been announced that the executive committee of the Canadian Association for the Prevention of Consumption has appointed a committee to take steps to secure co-operation of municipalities and of governments for the establishment of a large sanatorium in each province for the treatment of consumption, and that Dr. Moore, the secretary, will visit the maritime provinces in August or September and lecture upon the cause of consumption.

It is sincerely to be hoped that the effect of the campaign is the awakening of the local government, in that matter. No menace in this country is so grave as the Great White Plague, and nothing has been more conclusively proved by medical science than that the disease is actively contagious and is amenable to only one remedy: open air, sunlight, nourishing food and care. In no way can this remedy be so well applied as in a sanatorium, which, while saving the lives of their patients, also saves the lives of many who would otherwise be exposed to the deadly infection.

Private beneficence can and has done much good in this direction, but as private institutions cannot be otherwise than optional, and as the proper fighting of the plague demands compulsory attendance, it must soon be evident to all governments that the provision of public institutions for the cure of consumption and the quarantining of consumptives is a work as necessary as any that now falls in their province.—St. John Star.

Acadia's Second Forward Movement.

DEAR MR. EDITOR: I desire to thank you very cordially for the space so generously devoted to your excellent paper to the commendation and support of the Second Forward Movement. I desire also to acknowledge through THE ACADIAN the public-spirited and generous response that has been, and is being, made to the appeal for pledges towards the movement. Each day makes some addition, larger or smaller, to the contribution by the Wolfville community; and by the time all who are proposing to respond have done so, the aggregate sum will, I feel satisfied, make a very creditable showing for the town.

As was confidently anticipated, others than Baptists are showing a generous and practical interest in the movement. This is very much appreciated. The occasion as you have pointed out, is one that has to do with the well being of the community as a whole, and the evident growth of genuine public spirit is highly gratifying.

With the desire to make as inspiring an announcement as is possible, at the College closing next Wednesday, I should deem it a great favor if the friends would, as far as possible, send in their pledges before that day.

Very truly yours, THOS. TROTTER.

Lost—Between Wolfville and Greenwood a bundle of papers enclosed in an elastic band. Finder please return to Parker's Pharmacy, E. F. Fox.

W. R. McCurdy, who represented the Halifax Herald at the press excursion to the World's Fair at St. Louis, has a most interesting account of the trip in the Herald. The big Exposition is not as yet finished, and later on will be the proper time for a visit.

Dr. Keirstead spent last Sunday in Yarmouth. He preached morning and evening, and in the afternoon addressed the Y. M. C. A., his subject being 'An Advance in Christain Thought and Service a Necessary to Canada's Growing Material Life.' Referring to the latter the Times says: 'We wish that every man in towns could have heard him.'

A meeting of the Nova Scotia Fruit Growers' Association will be held in Herwick on Tuesday, June 7. An exhibition of the working of the power sprayer will be given in the afternoon, and a meeting will be held in Victoria Hall in the evening. W. A. MacKinnon, Chief of Fruit Division, and A. McNeill, Ottawa, B. W. Chipman, Secretary for Agriculture, Prof. Sears, and others will be present.

Whirlwind, A. R. Burgess, owner; Wiley Church, jockey 4 3 Golden Donae, James A. Harris owner; and jockey 3 5 Gordon, F. B. North, owner; H. B. North, jockey 5 4 Judges—C. Coulson, Lawen Borden, F. G. West.

Starter—C. C. Church. Announcer—G. W. Parker. A show of high bred stallions came next to the carriage houses, and L. G. Harris' shire 'Norley Baronet,' W. Halsey's French coach 'quay,' and his Clyde 'Barrister, Jr.,' and in the trotting class S. Palmer's 'Earl Sim-

mons' should receive special mention. The next event was a show of gentlemen's carriages, single and double hitch, and a prize of a nice carriage rig in each class for the best turnout. The single rig prize was won by Captain W. R. Potter, of the supply company, and the double team by Leslie Baxter's matched pair of bays. Chauncey Ward's matched pair of blacks were very fine, but did not get the award. The other sports took place at monument square, and consisted of boys' races, hurdle, bicycle finishing with a tug of war between Canard and Cannig. The first heat was won by Canard, but being unable to pull the other heats, the contest was given to Canard. The band gave a grand concert in the evening.

Painful Rheumatism. This Trouble is Caused by an Acid in the Blood, and Can Only be Cured Through the Blood.

Rheumatism is caused by an acid in the blood. That is a medical truth every sufferer from this trouble should bear in mind. Liniments and outward applications cannot cure what is rooted in the blood—the disease must be cured through the blood. That is the reason rheumatism yields almost like magic to Dr. Williams' Pink Pills. This new blood conquers the painful poison, sweeps out the aching acid, soothes the nerves, loosens the muscles and banishes rheumatism. Mr. Robert Morrison, one of the best known and most esteemed residents of Guelph, Ont., gives striking testimony to the truth of the statements made above. He says: 'My trouble came gradually and was pronounced muscular rheumatism, and was located chiefly in my neck and shoulders. I can hardly tell you how much I suffered. I was confined to my bed for fifteen months. A great many friends came to see me during that time and I think I am safe in saying that most of them had very few hopes that I would get better. I tried a great many remedies without any lasting benefit. Then I tried Dr. Williams' Pink Pills, and I am thankful to say that through the use of these pills and the indefatigable nursing of my wife I am again on my feet. My neck is still somewhat stiff, but the pain is gone. I am now in my 77th year and I feel that I owe much to Dr. Williams' Pink Pills. These pills have cured thousands of the very worst cases of neuralgia, rheumatism, sciatica, lumbago and backaches, and they can do the same for you. Sold by all medicine dealers or sent by mail at 50 cents a box or six boxes for \$2.50 by writing the Dr. Williams' Medicine Co., Brockville, Ont.

Victoria Day at Canning.

In the forenoon of Victoria Day most places of business were open, and everything going along as usual. At two o'clock a parade formed up on Main street at the Kerr evaporator and marched to Sheffield street, near Colonel Beckwith's. The parade was about half a mile long and under the supervision of Colonels Beckwith and Northrup, and made up as follows: Heavy carriage, containing Canning brass band, drawn by grey horses; cavalry troop, 68th battalion of infantry; cowboys, clowns, Filipinos, school children carrying flags; fancy trimmed bicycles and carriages of all kinds. At the terminus, the first event was a running race for green horses and riders, one-third mile, best two out of three heats; the prize—a gent's riding saddle given by G. W. Parker—was won by Grazer in two straight heats. The contestants in this race were as follows: Grazer, Victor Eaton, owner; Wiley Brewster, jockey, 1 1 Stranger, John Jordan, owner; D. Holt, jockey, 2 2 Whirlwind, A. R. Burgess, owner; Wiley Church, jockey 4 3 Golden Donae, James A. Harris owner; and jockey 3 5 Gordon, F. B. North, owner; H. B. North, jockey 5 4 Judges—C. Coulson, Lawen Borden, F. G. West.

Quality's the Point

We have in view in making Clothes. Any tailor can make poor clothes, badly fitting, cheaply lined, clumsily put together. We don't make that kind. When we advertise a Tweed suit at \$16.00, Fancy Worstedsuit at \$25.00, Pair of Trousers at \$5.00, We mean the very best that can be made at the price.

The only difference between our most expensive and cheapest suit is the price of the cloth you pick out. Our reputation proves it.
