WOMAN'S CHRISTIAN TEMPERANCE UNION WORLD'S CONVENTION

The World's Convention will be held in Philadelphia, in the Academy of Music, November 11-16, 1922, which will be followed by the National Convention at Atlantic City, New Jersey, November 18-23, 1922. The last International Convention was held in London two years ago. President Harding has been invited to welcome and address the foreign delegates. About thirty-five countries will be represented. According to the last reports five delegates were chosen recently in India, several in South Africa, some of the most prominent women of British Isles, etc. Being an event of a lifetime we are doing all we can to make it unusually big in every respect. We have twenty-five organized departments at work. Specialists will address sectional meetings, giving valuable help along lines of scientific instruction, child welfare, moral education, Christian citizenship, Americanization, etc., besides that which will be derived from the general program. It will be a matter of deep regret and disappointment to many that Lady Cecilia Roberts will not be present at the World's Convention, her health not being equal to the sea voyage. Among the illustrious leaders from England expected is the Right Hon. Leif Jones, Mr. Jones is a member of the British House of Commons and President of the United Kingdom Alliance, and an outstanding champion of the Temperance Cause in the British Isles. Thirty-five countries are expected to be represented. From far-away India we shall have the National President, Mrs. Price, Miss Mary Campbell and others. From Australia Mrs. Carvossa, the devoted Secretary of many years faithful service will come. I hope to plan for European ladies a short tour in the U.S.A. before the Convention, possibly landing at Montreal, thence to Toronto, Niagara Falls, Washington, and Philadelphia, sailing from New York after the Convention for England. Or

land in Boston, thence to Niagara Falls, Washington, and Philadelphia. Hospitality, including bed and breakfast, will be given all overseas delegates in Philadelphia. Agnes E. Slack, Hon. Secretary, World's W.C.T.U.

HIGH COST OF SCHOOL BOOKS IN NOVA SCOTIA

(From the Halifax Herald) Coincident with the opening of the public schools of the city, which takes place tomorrow, many complaints are being made with regard to the continued high price of text books of all kinds. Heads of families, especially those of the poorer class, faced with the necessity of providing books for their children, say that although there has been some reduction in other necessities, evidently the downward revision does not effect the high cost of education.

In an interview with Dr. A.H. MacKay, superintendent of education, The Herald was informed that the price list of text books as published in the April, 1922 edition of the Journal of Education, would remain unchanged for the balance of the year. Those prices are the same as were in force in 1921 and previous year, when conditions were a great deal better than at present.

Complaints in this respect are not confined to residents of Halifax, but are becoming general throughout the province, and not only is the continued high price attacked, but a prominent member of the legal profession, a resident of Sydney, states that the text books authorized by the Council of Public Instruction for the province of Nova Scotia, are in many cases reprints of the Ontario editions, and are identical with those in use in the Ontario schools, in everything excepting price. At any rate, school book prices in that province are much more reasonable than here, as the following figures will show:

Table with 2 columns: Book Title, Price. Includes Ontario and Nova Scotia sections.

Page 80, of the Journal of Education says: "Instructors and teachers are reminded that the course of study for common schools encourages an economical expenditure for the text books, by providing a system of oral instruction for junior classes". In view of the figures given above, which comprise the prices for junior grade text books, in both provinces, the economical side of the comparison lies wholly in favor of Ontario.

PUNCH HUMORIST DELIVERS HIMSELF OF PITH SATIRES

The gentlemen who purvey humor to the world through the columns of Punch are capable at times of making excellent speeches also. Consider these excerpts from an address delivered to the Bristol Rotary Society recently by Mr. Thomas Jay, of Punch's editorial staff:

The Government does not propose to live within its income, only within ours. The only side of politics I like is the outside. During the war we were told we were fighting for dear life and we've got it all right. Opinion is that when the meek come to inherit the earth the taxes will be so high that they will forego the claim. The only difference between death and taxation is that death is sometimes painless. Prices in shop windows were once an indication of value... now they are an indication of nerve.

Prohibition is a great thing if it can make a corkscrew lead a straight life. America has prohibition, and the Statue of Liberty is up for sale. The only thing allowed to get tight in America is money. Don't let us talk about business... it isn't respectful to speak of the dead. We owe a lot to America. Edison said we used to sleep too much. So he invented the gramophone.

Golf originated in Scotland, and that probably accounts for so many Scotsmen escaping to England. Golf is a game in which the ball lies well... and the player badly. Scotsmen are never in danger of being overcrowded at home, while there is room in England. Some credit Scotsmen with introducing the haggis. That isn't a credit... it's a debit. Bagpipes are all right if people would let them alone—Montreal Star.

He approached her with a look of tenderness in his eyes. "Darling," he began as he started to encircle her waist with his arms—

"Put on your brakes, kiddo," she interrupted, "you're nearing a dangerous curve."

CANADIAN DOLLAR AT PAR

New York Herald: "The Canadian dollar is at par. The importance of this economic event is evident. By it Canada is added to the small list of nations in which paper currencies serve only as substitute or subsidiary money, a list until lately confined to the United States and a very few lesser countries.

The steady rise of the Canadian dollar is left unexplained by official trade figures. Exports from the United States to Canada in the fiscal year 1922 amounted to only \$308,000,000, it is true, as compared with \$789,000,000 in 1921, but this is offset by a corresponding decline of imports from Canada from \$529,000,000 to \$308,000,000. Among the other possible sources of Canadian cash receipts must be counted American investment in Canadian properties.

The equalizing of Canadian exchange will doubtless affect this country in two ways; it will stimulate trade with our northern neighbor and it will add materially to our exports of gold. The rise of the Swiss franc to par some months ago caused the mountain republic to become a recipient of no little gold. Whether or not we may expect a similar event in Canada depends on whether the movement in progress for many months past goes on."

Amundsen's North Pole trip won't be like his South Pole trip. There is all the difference in the world between the two places.

is the cheapest and most effective method by which the local merchant can reach the buying public. No expense or trouble to get the message into the homes as there is in the case of circulars. Practically every family takes THE ACADIAN and everybody in the home reads it.

Better than a Catalogue

To issue a catalogue is beyond the power of the ordinary merchant but a weekly message in the columns of THE ACADIAN is much better, and the mail order houses acknowledge that their business is least in the district where merchants use the columns of the local paper.

START NOW—The present is the time to prepare for the fall campaign. In a few weeks many families will be preparing a list of fall and winter requirements, and the local merchant who is not in the family circle by means of advertising is forgotten.

They Want Their Customers To Use The Telephone

A large manufacturing concern having many distributing warehouses established throughout the Province recently wrote us for lists of Long Distance Telephone Rates between the places where these warehouses are located and points in the districts served by them.

This concern's object was to use the lists in connection with sales letters to customers and to encourage them to telephone their orders to these warehouses.

We were glad to furnish the lists.

That company is one of the ever increasing number that appreciate how orders telephoned in make prompt shipments possible, and prompt shipments, as every business man knows, form an important element in the founding and maintaining of goodwill between manufacturer and dealer.
