Pills. As a remedy for the various diseases of the stomach, liver, and bowels, these Pills have no equal. Their sugar-coating causes them not only to be easy and pleasant to take, but preserves their medi-cinal integrity in all climates and for any reasonable length of time. The best family medicine, Ayer's Pills are, also, unsurpassed for the use of travelers, soldiers, sailors, campers, and pioneers. In some of the most critical cases, when all other remedies have failed,

### Ayer's Pills rove effective. "In the summer of 1864 I was sent to the

Annapolis hospital, suffering with chronic diarrhea. While there, I became so reduced in strength that I could not speak and was compelled to write everything I wanted to say. I was then having some 25 or 30 to say. I was then having some 25 or 30 stools per day. The doctors ordered a medicine that I was satisfied would be of no benefit to me. I did not take it, but persuaded my nurse to get me some of Dr. Ayer's Pills. About two o'clock in the afternoon I took six of these pills, and by midnight began to feel better. In the morning the doctors came again and after deciding the doctors came again, and after deciding that my symptoms were more favorable, gave me a different medicine, which I did not use, but took four more of the pills instead. The next day the doctors came to see me, and thought I was doing nicely, (and so did I). I then took one pill a day for a week. At the and of that time, I considered myself cured and that Ayer's Pills had saved my life. I was then weak, but had no return of the disease, and gained in strength as fast as could be expected."—F. Sarsapariila belongs to the smilax family of plants, and is found very generally over the American continent: but the variety that is richest in medicinal properties is the Honduras root, of which the famous Ayer's Saraparilla is made.

Doctor, what will remove superfluous sulting from the effects of such a winter and spring as has just past. Whether the theory of three will be confirmed in this case or not remains to be seen. At any rate it behooves every person still affected by any of the complaints due to these climate changes and epidemics such as catarrh or bronchial troubles, to look well to themselves and see that every trace of the trouble is removed this present month; before the heat of summer still more debilitates their system.
