Are there more of this, our National Scandal, during serious causes why the exporters are a conversation with several business men on Saturday evening last. From what could be gathered of the conversation, it appears one of the ironies of the sugar muddle is that the F.C.B. 000 on the original purchase price and this was followed by a big purhase in the New York market, but a day or two afterwards the market losses, through the F.C.B. being too poration Saturday on account of the hasty. We learn from other sources that a large quantity of granulated sugar hel dby a manufacturer was bought by a grocer, the manufacturer not needing it, on account of the decline in price of articles manufactured by him, but before the transfer would be permitted the F.C.B. demanded and actually is receiving three cents per lb. on that lot. This effectually stopped the grocer from retailing below the F.C.B. price.

# We Invite You

To see how really clean teeth shine

Men who smoke

will see a quick, conspicuous change

Tobacco stains the film-coat on the reth. So men who smoke will see a great change quickly. But millions of teeth have that same film-coat with a

Children's teeth are most affected by the film. Young teeth seem most subject to decay. Dentists advise that Pepsodent be daily applied from the time the first tooth appears. Otherwise, decay is almost certain.

Pepsodent brings to women whiter, prettier teeth. But that means cleaner teeth and safer. The luster comes from constant film removal and the high polish given to the teeth,

Your teeth are coated with a film. When fresh the film is viscous—you can feel it with your tongue. Later it forms a cloudy coat. It enters crevices and stays. It dims the teeth, and now we know that it causes most tooth troubles.

There is now a way to end it. This week your druggist, if you ask, will give you a 10-Day Tube. Get it and see what it does for your teeth. Learn what film removal means.

#### Old ways don't end it

Old ways of brushing do not end film. Millions of people know that. Teeth discolor and decay despite the daily care. The reason lies in film. It clings and

hides, and very few escape its damage. It is the film-coat that discolors, not the teeth. Film is the basis tortar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. All these troubles have been constantly increasing - some have grown alarming. And all because we knew no way to daily fight the film.

#### A new dental era

Dental science has for years studied to combat film. Ways have now been found to do it. Able authorities have proved those methods by many careful tests. Now leading dentists everywhere are urging their daily use,

These methods have been combined in a dentifrice called Pepsodent. Millions of people have come to employ it. You can see the results wherever you look - in glistening teeth, in teeth you envy, maybe.

A new dental era has begun, due to these discoveries. And these are benefits everyone should share. So you are urged to let this 10-Day Tube show what Pepsodent can do.

### Brings five effects

Pepsodent brings five distinct effects. All are apparent, some are quick. A low days' use will leave no doubt about them. And a little book will tell you what each one means to you.

One ingredient is pepsin. Another multiplies the starch digestant in the salive to digest starch deposits that cling.

The alkalinity of the saliva is multiplied at once. This is to neutralize the aci. which cause tooth decay.

Two factors directly attack the film. One of them keeps teeth so highly polished that film cannot easily adhere. Every application brings the Pepsodent

effects. Together they mean tooth protection like you never had before.

Watch these effects. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coat disappears.

Compare your teeth now with your teeth in ten days. Then judge this newday method by what you see and feel and

# I'M COMING, Says Cheery Joe

There's been too much grumblin' and bickerin' the last tenmonths. Too much beating about hard times. People need my bright smile, my cheery greeting that rings so happily across the snow on Christmas morning. And so I've been sent—the advance agent of the great giver. I have been the follower of the sled, pushing it over high banks, digging it out of hollows for many Christmases, but this Christmas I have been sent on ahead—a percursor of joy to make your hearts warm.

ith my fund of joy I also pack a great deal of wisdom-a marvellous amount of knowledge on Christmas Gift choosing, gathered from many centuries following the Trail of the Sled. I know ALL about gifts, where to buy them, and how to buy them.

But I know more about men than about women—a great deal more than most women. I'm going to criticize, analyze, suggest and urge. And before Christmas has passed I hope to gain the love of every woman in this good old burg by making every man exclaim on Christmas morning, "How did she know that that was just what I wanted?" So much so that they'll want me to come again—next Christmas and for many Christmases after, so long as this old world continues making Christmas Merry.

I'll be back again

Yours for Joy,

CHEERY JOE.
