British Grain Trade.

LONDON, Sept. 22.—The Mark Lane Express, in its weekly review of the British grain trade, says: English wheats are plentiful. The deliveries for the first fortnight of the new cereal year are estimated at 300,000 quarters against 280,000 quarters during the corresponding period in 1909, and 300,000 quarters in 1908. The sales of English wheat during the past week were 107,341 quarters at the corresponding week last year. Foreign wheats are in large supply. Roumanian and Indian reds are lower. The Russian and Californian are steady. Hay is firm. Oats are weak. Rye has risen. Corn is firm. Mixed American touched 3s 6d, the highest of English wheats since prices fell. Most foreign wheats shared the weakness. Australian and winter wheat were scarce, and prices were fully maintained. California was very firm. Barley, oats and beans were steady. There were increased supplies of corn, and prices fell.
