Situated on the southwest corner of Mill and George streets is a neat brick cottage, and in it reside Mr. and Mrs. Thos. Hall. Here they have lived for many years, keeping a small grocery store. During all their residence there they have never been the victims of such a daring trick as was played on them Saturday morning about 10 o'clock. The perpetrator had evidently been on the watch for the execution of this robbery for a few days past, and this morning he succeeded in getting away with between \$50 and \$70. Last Thursday morning a well-dressed man of about 30 years of age entered the store and asked for some water for a sick child which he had at home, at the same time saying that the doctor had probibited them using the dector had probibited them using the city water. Mr. Love also said that medical evidence could be brought to show that had Mrs. Prince's injuries been so serious as supposed she would have been unable to walk part of the way to Hyde Park and then drive to London West. Judge Elliot then reviewed the evidence, and said that there was no doubt as to the family relations not being the most harmonious. It would be impossible to let the prisoner off on suspended sentence, as it had been prayed that the sentence. let the prisoner off on suspended set as it had been proved that the assat committed. In the meantime the robbers had evidently discovered their name and from where they came—England. On Mr. Hall's appearance the stranger claimed relationship and wanted to enter into conversation, whereon he was informed that should he go to the front door he would talk to him, but the man left the premises. He stated at the front door he would talk to him, but the man left the premises. He stated at the same time that he lived on Piccadilly street and was in business on Dundas street. No more was heard of him until this morning, when he entered the store and handed Mrs. Halla large order for groceries, and again asked for some water. After taking the order the lady wentout into the yard to the pump. During her absence the stranger jumped over the counter and entered the next room. Here the bureau was visited and in one of the drawers was found a pocket-book containing the sum above stated, the till not being touched.
