CORBETT DOESN'T APPROVE FIGHTING. ST. PAUL, Minn., Feb. 2.—At Hotel Ryan yesterday a large number of the members of the Legislature and James J. Corbett, the pugilist, met by appointment to discuss a medification of the laws as to pugilism. Corbett began to refute the charges of brutality in the ring. "Hew do you account for the recent fatalities," asked a member who is a physician?" "Easily enough," replied Corbett. "Ninety-nine fights may take place and no person would be hurt enough to keep him in bed an hour, but one of the participants in the hundredth will be fatally deficient in some vital part, even though apparently sound as you look at him. The warmth and excitement, a chance blow perhaps with a big glove, any one of a score of causes weakens the man, the nerve force leaves him, collapse follows and then the end. I am not an advocate of prize fighting nor do I advise any one to take up with the business. I am in it just as I might be in any business. As it is, I mean to quit after the test with Fitzsimmons." Do you not consider that padded rings and large gloves would do away with much that is repugnant in boxing matches?" "Most assuredly," said the champion, "Legislatures might well enact that such safeguards shall be provided."

WORLD'S RECORDS BROKEN. REAL, Feb. 3. - John N. Neilson, of Minneapolis, skating under the colors of the Victoria Hockey Club, of Winnipeg, is the hero of the hour, for, thanks to his plucky racing, two world's records were broken yesterday afternoon at the championship meeting of the Amateur Skating Association of Canada. The immediate result is that Tom Eck says he intends to take him to Europe with Johnson. Neilson, however, states that he will not go unless his expenses are given him cash

down beforehand. Seven thousand people, half of them ladies, watched the races from beginning to end. Johnson appeared in only three events-part of the 2:20 race and the one mile and five mile. He won the last two. His fast time was due to his being forced to his utmost by Neilson. The excuse given by Johnson for not skating oftener was that his skates were too slippery. The two races in which the world's records were broken were the three-mile and the one-mile. In the three-mile only David. son, Budd, Mosier and Neilson started. The man from Minneapolis set the pace in both events, winning the former and being only headed by Johnson at the end of the mile. His time for the three miles, 8:48 1-5, knocks 10 3-5 seconds off the best previous

record for the distance.

Johnson's mile in 2:42 4-5 is 15 1-5 sec. onds faster than anything on record. In the five mile Neilson again forced the pace. He fell, but recovered himself and finished a plucky second, only a yard and a half behind Johnson. The weather was cold, but beautifully bright. The track could not have been better. The following is the

220 yards (first heat)-J. K. McCulloch, Vinnipeg, won; T. Moore, Montreal, second; time, 22 2-5 seconds. Second—Harey, Davidson, Toronto, won; John Neilson, Minneapolis, second; time, 23 3-5. Third-J. S. Johnson won; James Donoghue, second; time, 21 4-5. Fourth-Moshier won; H. Hulze, second; time, 21 3-5. Final-Davidson won; McCulloch, second;

time, 21. Half mile-Davidson won; McCulloch, second; time, 1:24 1.5. Mile-Johnson won; Neilson, second; time, 2:42 4.5. Half mile backwards-McCulloch won;

time, 1:41 2.5. Three miles-Neilson won; Budd, second; time for each mile, 2:48 3-5, 5:44 4-5,

The Pennsylvania Coal Miners' Strike Spreading.

WILKESBARRE, Pa., Feb. 3 .- The strike which was inaugurated at the Prospect colliery on Tuesday last has spread to many of the other collieries operated by the Lehigh Valley Coal Company, and many of their mines may remain idle until settlement can be effected. The strike was caused by the runners and drivers in the Prospect colliery, who complained of being docked for every ten or fifteen minutes they are idle, caused by cars off the track. These dockings amounted to sometimes two hours a day, or about 35 cents of the day's wages of the runners, and they objected to it and struck. Next day the leaders of the strike were discharged, and the others went out in sympathy. They held meetings and succeeded in calling out the runners and drivers of the Oakwood and Midvale mines. From present indications the strike will be one of long duration. The number of boys and men out is said to be 1,500.

Terrible Story Told by One of the Elbe's Passengers.

Brutality of the Steamer's Men-Children Crowded Out of the Boat to Make Room for the Crew.

A TERRIBLE STORY. Three of the rescued passengers of the steamer Elbe called upon the New York Sun's correspondent in London on Friday to emphasize certain features of their experience of which little has been said in the first telling of the awful story of the disaster. Mr. Hoffman's story is the worst. He says he entered the boat against the protests of the crew. His wife handed him their boy and then he was about to assist her in when the order was given for the women and children to go on the starboard side. She blindly obeyed, although her husband called her back. Before he could move the chief engineer appeared at the side of the boat and shouted, "Give me that child." The boy put out his hands to the man, and the engineer dragged him out, although his The heavy snowfall throughout Great father tried to hold him. Hoffman then

had yacated. At the same instant the boat was launched. The boat quickly drifted past the first lifeboat, which had capsized, and to which Miss Boecker was clinging. The four passengers begged the officers and crew to pick her up, but they re-fused. Mr. Hoffman and another passenger managed to get bold of her and after infinite exertions dragged her aboard. Then instead of showing the slightest sympathy for Hoffman and his grief over the loss of his wife and child the chief engineer bewailed his failure to bring a pair of cuffs containing valuable

Mr. Vera corroborates Hoffman's story and describes how, after permission had repeatedly been refused him to enter the boat, he jumped in from above when it was launched and had a severe struggle with a member of the crew who tried to put him overboard. It was only when he told the man that he would drag him too into the water that he desisted.

London, Feb. 3 .- The crew of the fishing smack Tara, which arrived at Lowestoft tonight, report that about 6 o'clock on the morning of the 30th, about 50 miles from Lowestoft, they saw rockets. They had just hauled up their trawl. They bore down on the signaling vessel, but lost sight of the signals and the steamer when about 700 yards distant. They saw another steamer burning blue lights and then a few minutes later she was steaming east. They cruised about but saw nothing more.

The crew of the fishing smack Industry passed the body of a foreign seaman with a lifebelt attached to it about 35 miles from Lowestoft. They did not bring it ashore, because recently after landing a body they had been forced to pay the funeral expenses. Crews of other report having seen wreckage and a body.

THE SOUTH PERTH CASE. MITCHELL, Ont., Feb. 3.—After sitting stealily for three days, the trial of the election petition against John McNeill, Pation member-elect for South Perth, was adjurned to Stratford on Thursday next. On commencing yesterday merning both Judges Barton and Osler gave judgment, dispissing the charges against alien voters and those persons non-residents in the village charged with having voted knowing they had no right to vote. Their Lordships held that to constitute a corrupt practice it would be necessary to show that the person so voting had knowledge of the fact that he was not entitled to vote, and that the person so voting was aware that in a counting of the ballots the vote would be thrown out. In deference to this jugment counsel for the petitioner after-wards abandoned upwards of 100 charges. Many of the other charges which were entered into proved to be of a trivial nature, with little or no evidence to suppers them, and they were either dismissed or abandoned by the petitioner's counsel after evidence had been offered. The only charge on which anything of importance was brought out was one in which it was shown that James Dougherty, of Mitchell, had hired a horse and buggy to take a voter to the poll. It was argued by the prosecutor that this was a corrupt practice.

prosecutor that this was a corrupt practice, but as the question of agency is to be considered in connection with the charge, their Lordships reserved judgment until next week, when the question of agency will be taken up at Stratford. Four charges still remain to be heard.

ST. LOUIS, Mo., Feb. 3.-A Globe-Democrat special from the City of Mexico says: The 3,000 prisoners in Belem prison would have been free but for the timely discovery of a tunnel. Patient search for the suspected outletwas rewarded yesterday by finding an entrance to the tunnel close to the school room.

The prisoners, under pretense of attending night school, have been at work on the tunnel for a period of two years, working secretly in regulation shifts. The conception of the daring undertaking is due to desperate criminal named Jose Vicente, who was under sentence of death, but who was shot some time ago before his elaborate scheme for the extvation of himself and comrades could be put into effect.

No Canadians Need Apply. Sr. Paul, Minn., Feb. 3.-A special from Grand Forks, N. D., says: Early in December the Minto school board engaged

Prof. Alex McConnell, of Toronto, as principal of the public schools. When he arrived to take charge of the schools he applied to County Superintendent Woods for the required certification of examination. The superintendent declined to grant the certificate on the ground that his employment was an infraction of the alien contract law. McConnell subse quently took a State examination and re-ceived a State certificate, but a protest was made by Minto people and the matter

was referred to the authorities at Wash ington. On Wednesday McConnell was arrested by Immigrant Inspector Eyford on a warrant issued by the Secretary of the Treasury, requiring the deportation of the school teacher to the country whence he came, and he was sent across the Canadian border line. The affair has caused quite a commotion at Minto.

GOLDWIN SMITH

On English Models for Municipal Gov-

NEW YORK, Feb. 3.-Goldwin Smith contributes a signed editorial to the Sun today on "English Models for Musicipal Government," in which he comments on Dr. Albert Shaw's recent book on municipal government in Great Britain. Mr. Smith says: "In borrowing any part of the British institutions it is necessary to consider the relation of that part to the whole and the effect of the whole on the part. If you want men to do hard work you must pay them or they will pay themselves. So it will be, at least till the Angel Gabriel is mayor, with a city council of scraphs. The pay may be either money or dignity. A municipality is now practically a commercial concern, its chief business being the raising and expenditure of money. A commercial concern would hardly be well managed in which the incidence of expenditure was separated from the control. The question will become

more serious if politicians improve upon the lesson which they now have learned of buying the vetes of the many with the money of the city. "In every great city, moreover, there is a body of electors who, though inhabitants, are hardly permanent citizens. If the city were ruined the mechanic would have only to take up his tools and go elsewhere. Dr. Shaw was pointing the other day to Tox rento as a striking instance of the success of the English system, but if he has read the Canadian papers since he will have seen that Toronto has the same troubles, both in the way of maladministration and corruption, as her sisters on the Yankee side of the line, and that if she is prosperous ar dattractive she owes it to natural advantages and the industry of her citizens, not to a municipal government which she is now struggling to reform."
