Turkish Ladies Leaving the Country in Large Numbers.

Constantinople, May 11.-An antiharem epidemic seems to have broken out among the Turkish women and girls of the better classes. A few months ago two daughters of Nouri Bey, secretary-general of the minister of foreign affairs, fled from the harem and went to Paris. A little later a daughter of Redvan Pasha, city prefect, who was recently assassinated, fled to Broussa. Today, it is learned that the daughters of Memdouh Pasha, minister of the interior, and of Turkhan Pasha, minister of pious foundations, have fled from the country in order to escape the deadly dullness of harem life. Similar cases are reported in other families of good standing. The Sultan 25 is uneasy over the matter, and, in consequence, he is likely to sanction a law forbidding the intrusion of foreign ladies in the harems, inasmuch as they "constitute a grave danger to the peace of the souls of Turkish women," who frequently are too weak to resist the glowing, tempting descriptions of European women in contrast to the dismal harem life.

This he thought desirable because the bill is a

> new departure. Mr. Haggart thought this bill did not go far enough. The Dominion Parliament, when it gave authority to any Ask. Bld. Ask. Bld. company to export power, oil or gas, should expropriate any control that might be held by the Province. There 248 should not be dual power in that con-2681/4 nection.

Mr. Fitzpatrick contended that when the Dominion gave power to export it involved greater power of control, even if it was necessary to take over provincial control of the property. At the same time that point was disputed, and he was confining this bill to export of power, etc., which was undoubtedly within the absolute right of the Do-

minion. Mr. A. A. Wright, of the Provincial Electrical Power Association, thought the bill was on the right lines, but he asked that it be laid over so that it might be discussed at the annual meeting of the association.

On motion to go into supply, Mr. Ames, Montreal, rose to move an amendment touching the administration of the department of the interior. He said there was no department the administration of which gave such opportunities for private persons to become beneficiaries at the public's expense. Conditions were changing, large areas of free lands were being occupied, and they should consider whether they had been strict enough in disposing of the western lands. He estimated that in the prairie provinces there were 90,000,000 acres of fertile prairie land fit for settlement.

Mr. Ames continued his remarks this evening, and calculated that of the do, preferred, 25 90,000,000 acres of land available for at 72%; Dominion Steel, common, 25 and 75 at 30; Bank of Commerce, 22 at 180; Electrical Development, 25 at 56; C. There are, he esti- Chance for Profit Offered Advermated, some 2,500,000 acres of land which have been homesteaded but not patented, and which are, he contended, simply being held by speculators, as practically no settlement duties have been done on them. of instances which had come under his personal observation to show that on the whole the administration of the department in respect to homesteads was being conduced more satisfactorily than ever before. He also pointed out that many modifications had been made in the regulations for the benefit of settlers, all of which tended to encourage settlement. So long as the Minister of the Interior continued in the course he had followed up to the present, so long would the Government continue to carry three-fourths of the seats there.

THE TEMISKAMING ROAD

Another Seventy Miles To Be Finished Before End of the Year.

Toronto, May 10.-The next division of the Temiskaming and Northern Ontario Railway is to be opened for traffic in about two months. This is 25 miles beyond the end of the first contract, which extended to Liskeard, and, though it is part of another contract, it will ultimately be included in the first division.

The terminus of the new portion i White River Crossing, to be called Englehart. Towards the end of the year another 70 miles will be operated and will be the beginning of the flaa second division.

In order to keep pace with increasing traffic and provide for the extensions, the company is adding to its rolling stock. Four new coaches have been delivered from Cobourg this week and four others have been purchased from another road. Four new engines have been ordered from Montreal and tenders are being asked for two more. Tenders for leases of the mineralized portions of the company's right-of-way and the northwest 40 acres of the town site of Cobalt, receivable up to noon today, will not be opened until the meeting of the commission on May 15. These include a number from the
