## RUDOLPH AND CONWAY LATEST Mitts of the Mighty MANAGER NEEDHAM IS READY ADDITIONS TO LONDON'S TEAM

Brother of Dick Rudolph, of Toronto Team, Has Signed a Local Contract—Cuban Stars Have Been Forced to Cancel London Dates-Park in Good Shap.

TWO MORE players have been added to the list who will report in London next week to struggle for places on the London Canadian League team. Edward Rudolph, a brother of the famous. Dick the Toronto International League pitcher, is one of the players. Rudolph is an outfielder. Last season he played in the New York State League, and had a good record. Several Canadian League clubs were after him this season, but the London club seemed to attract him a little stronger than the others, and his signed contract was reeived by the local management yester Rudolph is only a youngster scarcely out of his teens. He is said to be good with the bat, fast on the bases and an outfielder that can cover a great deal of territory. If he lives up to these requirements there is no doubt but what he will hold a summer-long job with

the Tecumsehs.

The other player to sign a London contract in the last two days is John Conway, an infielder, who can play any of the infield positions. Conway lives in New York, and he is no relation to the Conway who played for Brantford last season. He is delighted to be a member of the London club, especially since it has been announced that Frank Bowerman, the idol of the New York fans, will manage the team. Conway comes well recommended, Bowerman himself advising the local club to sign him. He, together, with Rudolph, who lives in New York also, will report in London at the first of the week, and will be among the first to arrive. The local directors are well pleased over landing Conway and Rudolph, as they beat out several other clubs who were

LOTS OF CAUSE FOR REJOICING. With Bowerman coming on Thursday, and about twenty-five or thirty players coming next week, the local directors are able to sit back now and congratulate themselves on the winter's work. They feel that they have the most likely bunch to pick from in the league, more youngsters having been signed up than by several other teams put together. Bowerman is the only veteran on the team, the average age of the rest of the players being about The Tecumsehs should have the edge on many of the other teams in speed alone. Knotty Lee seems to fall back on the veterans, he having severa on his line-up. However, Knotty has a few good youngsters, Jo Jo Keenay being the most versatile of these. Jo Jo has practically cinched a job at third base with the Hams, and the local fans will look forward with pleasure

to his first appearance in London in one of Knotty Lee's borrowed uniforms. CUBANS CANNOT COME.

The Cuban Stars, who were billed for two exhibition games in London before the Canadian League season opened, have been forced to cancel their dates, owing to the fact that they will be unable to reach here until near the end of May. The cold weather in the south this spring has kept them back and they have had to change their dates wherever they were billed. Severa! Canadian League teams had them billed to play pre-season games, but these will all have to be cancelled now. The Tecumsehs will play a couple of preseason games before the season opens, most likely with a team or two from Detroit. The Ottawas, who will train at Chatham, have arranged for a couple of games with semi-pro teams in Detroit, and it is likely that these will be brought on to London in order to give Manager Bowerman a line on his men

It has long been a problem to the civic officials how to induce the people in the surrounding towns to come to London. It looks as though the London Baseball Club has solved the problem. Nothing will attract a crowd like a good baseball league, and with the Canadian League attracting the attention of the outsiders, there is no reason why London should not be a Mecca for excursionists this summer. The London team, with Frank Bowerman as manager, will be a strong attraction, and the announcement that the London club will arrange for cheap rates, will be welcomed by the fans in the differ

SOME CHANGES AT TECUMSEH PARK.

The work at Tecumseh Park is proceeding merrily. The London fans will hardly recognize the place when they see it this spring. The ridge that marked the old bicycle track, that cost the park owners about \$5,000, and never brought them in five thousand cents, is being plowed up, and the outfield is being made perfectly level, right to the fence. This work will be completed by the end of this zeek, and the grounds will be in splendid shape for the players next week. A big roller has been at work for several days, and the infield and outfield are being smoothed out. The infield is in splendid shape, and it will require but little improvement. The home plate and pitcher's box have already been put in, and all that is now needed to make it look like a real ball park is a few players. A roadway for automobiles is being built along the south side of the park, the south-eastern gate being enlarged so that autos can go out this way instead of having to back up and turn around to ge

The above-named nieteen players, along with several more who are anxious to break into the professional baseball ranks, will be brought to Guelph in a little more than a week's time to train for the coming season in the Canadian League, and will represent the city of Guelph on the diamond. Of course, all these players will not be kept, but every man who reports for a tryout will be given every opportunity to show Manager Needham that he has the goods, and only given every opportunity to show Manager Needham that he has the goods, and only

the best players will be retained.

Geo. Needham is a ballplayer from the ground up, and any candidate for a place on the Guelph outfit this year will have to show him that he can deliver. He has had considerable experience as a player and a manager, and the officials of the Maple Leafs are placing the selection of the team entirely in his hands, and will hold him responsible for placing a winning team in the field. He will arrive in Chelek today ready to take over the lingers, but thinks that it will be all Guelph today ready to take over the managerial reins, and from then until next September there will be something doing all the time. Guelph fans can rest assured that the owners of the team will do their part, and it will be then up to the citizens to do their part and patronize
