landers in India that the writer ignored that country shall go on from stage to the gallant efforts made by the Derbyshire Regiment and their dusky brothers. the Indian Ghoorkas, and that between these two latter regiments they lost over equality of the sexes, and our own gra100 men out of the 129 killed. We are clous Queen in her long and prosperous all pleased with the gallant efforts made by the Highlanders, but to praise one national regiment to the exclusion of the others is to be regretted, for each of the other two regiments made greater which the sun never sets, but because which the sun never sets, but because

important one because it announces a ment. And as if to make this triumph-discovery not made by any of the anatomists of ancient or modern times, viz., that the human male skeleton is so unthat the human male skeleton is so un-like that of the female as to account for that in the joyous exultation thus creatthe difference in character in the sexes.

quest are no doubt good and sound to one who understands them, but I have difficulty with such phrases as "edging off on a side wind," "dread of an up-poetry from Rudyard Kipling: difficulty with such phrases as "edging off on a side wind," "dread of an uphill game," and "unmatched as a helpmate in the kitchen." Did "Yggdraeil" never see a helpmate in the parlor or in the drawing room? and if not I am afraid some little event in his own history may coloring his views in discussing the be coloring his views in discussing the subject of the equality of the sexes, for there are cases where the lady with that lack of intellectual power which he has so fully proved to his own satisfaction and beg to point out the fact which tude the transcendent merits of the in-

bible besides them. The churches have generally regarded Jeremiah, Isaiah and other writers in the Old Testament as protected and safeguarded. What would prophets and not the early teachers of Christianity, and this view seems to be the correct one, for if St. Paul and St. John had possessed the gift of prophesy they would have forseen the positive to the fruits of your husbandry? Should

wait for credentials and also to discover should be changed and at once. The

the subject, I would wish to remark that development of any country, no matter it was not to be expected that in point of how rich and great its possibilities. We it was not to be expected that in point of how rich and great its poss numbers of great names or amount of literary work done, women could ever compare with men. Woman's education, to begin with, is shaped to befit her ally opposed to business principles.

How rich and great its possibilities. We should rather exclude foreigners and should rather exclude foreigners and slow our own subjects every advantage. Free trade in placer mines is diametrically opposed to business principles. sex and proper position in society; then the dawnings of the tender passion with its absorbing anticipations and influences, and, above all, the duties and responsibilities of motherhood, all combine to narrow her field for intellectual effort, while with the other sex there are no conditions immigration would be insulated that the conditions immigration would be insulated to the conditions immigration. such hindrances, but whenever she has duced, and the Klondyke rush anticibeen able to break through the limita- pated in the next few months would be

of the highest order, and in proof of which let us look at a few names of eminent women who can claim to rank with the greatest amongst men.

Taking only one name from ancient Taking only one name from ancient history we have Aspacia of Athens, who was honored by Socrates and other great men of that age for her eloquence and extensive learning. Then, coming down to last century, we have Jane Austin, of whom Sir Walter said, "that young lady had a talent for describing the involvements, feelings and characters of every day life which to me is the most lady had a talent for describing the involvements, feelings and characters of every day life which to me is the most wonderful I have ever met with, and to an extent which is denied to me."

Spring will soon be here. You're going to the Clondyke, Are you preparing yourself for the loug journey? Getting all yourself for the loug journey? Getting all power equal to anything ever Shakes.

cupies carries with it greater difficulty further consolidation of all provincial and responsibility than that of the judiaction that every bishop at his consecration should take the oath of canonical intellectual powers of a very high order to unravel the tangled skein which some cases present; but even here woman has shown her fitness, as in the case of the Countess of Pembroke, who occupied the office of sheriff in Westmoreland during the reign of Charles the First, and no record exists of any of her decisions ever having been challenged, But great as woman's powers are in the larger field of intellectual achieve-

the larger field of intellectual achievement when she has the opportunity of showing it, it is not here but in her own little world within the family circle that larger field of intellectual achievement when she has the opportunity of thing as "the several colonial churches, it is a misleading way of speech and very harmful, however often told. Australia is only a group of the Church of England has a Bishops who, through their To the Editor:—It must have certainly been an oversight on the part of the writer of the paragraph in to-day's Colonist when calling attention to the heroic conduct of the Gordon Highlanders in India that the writer ignored the gallant efforts made by the following the destiny of t

general one, consisting of products of the mines, lumber, agricultural products of widening their existing plans tremenand animals and their produce. The imports for the month were valued at \$12,057,914, an increase of \$727,020. The revenue increased \$99,874. The increase in exports for the quarter over last year amounts to a total of \$9,264,914. The imports, however, are practically stationary. The duty collected for the quarter of increase of \$83,000.

working of the railway to the importance of widening their existing plans tremendously. We cannot afford to be caught to be caught of the Westminster board of trade and city council have jointly met Sir William Van Horne and asked among other things for the inclusion of Westminster on the direct transcontinental route by a new link to Vancouver; also for the information in respect of civic concessions in return for improvement expenditure amounting shows an increase of \$83,000.

shape of a quid pro quo for their uncommon good luck in being permitted to mine where—were it theirs—they would "For these reasons alone, without the votes on the Dominion list be polled."

"The considered unless more than half the votes on the Dominion list be polled."

The Flax Raising industry.

To the Editor Recently I received a communication from Mr. Donaldson, formerly Dominion immigration agent in advantages of flax culture in British Columbia. Through Mr. Donaldson's exertions the raising of flax has been intried on in the province of Ontario. The despatch is signed by Lord Elgin, the viceroy of India; Sir George Stewart White, commander-in-chief of the British forces in India and extraordinary in this morning's Colonist, brought the six of the control of the Governor-General; and by the ordinary members of the council of the Governor-General; and by the ordinary members of the council of the Governor-General; and by the ordinary members of the council of the Governor-General; and by the ordinary members of the council of the Governor-General; and by the ordinary members of the council of the Governor-General; and by the ordinary members of the council of the Governor-General; and by the ordinary members of the council of the Governor-General; and by the ordinary members of the council of the Governor-General; and by the ordinary members of the council of the Governor-General; and by the ordinary members of the council of the Governor-General; and by the ordinary members of the council of the Governor-General; and by the ordinary members of the council of the Governor-General; and by the ordinary members of the council of the Governor-General council of the Governor-Genera

WEEKLY TRADE REVIEWS.

The sick man knocking at the door of health gets in if he knocks the right way, and, stays out if he doesn't. There are thousands of ways of getting sick but only one way to get well. Do whatever you will, if you do not put your digestion in good order, and make your blood rich and pure, you will not get well. Rich, pure blood is the only thing that can bring perfect health. Constipation is a disease of the blood. A large part of all diseases are traceable directly to impurities in the blood, and can be cured by eliminating them with Dr. Pierce's Golden Medical Discovery. The first thing it does is to put the whole digestive system into perfect order. It stimulates the appetite, excites a copious secretion of the digestive fluids and promotes assimilation. It searches out disease gering wherever they may, be, kills them and droces them out of the system. The "Golden Medical Discovery" has been used with unvarying success and a long list of other staples remain in unchanged. Cotton and print cloths

are lower, as are glucose, Indian corn, oats, flour, coffee, lead and copper.

eats, flour, coffee, lead and copper.

R. G. Dun & Co.'s report to-morrow will say: There are uniformly good reports of Canadian trading this week in suite of careal and the components. spite of some local drawbacks. Whole sale trade is steady. Collections at Vancouver in retail business are fair in some lines. Money is easy and large shipments of salmon have cleared. Trade is quiet at Victoria in wholesale groceries and dry goods and fair in hardware, while retail business has improved, and especially in clothing, boots and shoes, owing to the change in the weather.

Bank clearings for eighty-seven cities for the week ending October 21, as telegraphed to Bredstreet's graphed to Bradstreet's, shows totals of \$1,306,993,884, an increase of 25.2 per cent. as compared with the corresponding week last year. Outside of New York city the clearances were \$527,892,-

here. We have already purchased two steamers, and if the business amounts to Pass Coal Company.

D. G. Macdonnell, Vancouver, gives notice of application to parliament to insteamers to come to Vancouver instead of giving it the go-by as at present. Indeed that is one of the objects of the company in putting on these steamers. Until this is done you will not see the Klondyke steamers from Puget Sound,

"This wharf matter is going to be one to live in England so he may be able regularly to attend the meetings of the judicial committee. As yet no fund has been provided from which his salary could be paid; hence he will not resign the chief justiceship.

Ottawa, Oct. 22.—The trade returns for September, which will appear in the Canada Garatta towards above an above of the september ties."

The Daily News says: "Had the proposals been known, public opinion would have killed them in a single day, but the cabinet containing Mr. Balfour has taken three months to give them their distance on the consisting of products of the cabinet containing mr. Balfour has taken three months to give them their distance of the cabinet containing mr. Balfour has taken three months to give them their distance of the cabinet containing mr. Balfour has taken three months to give them their distance of the cabinet containing mr. Balfour has taken three months to give them their distance of the cabinet containing mr.
