

**THE WILLIAMS STRAWBERRY** This celebrated strawberry still maintains its lead in the Niagara District as the best all round commercial berry. In size, vigor, productiveness and the qualities that go to make up a first-class shipper, it stands at the head of the list of proved varieties, and is now more largely grown than any other strawberry in this section. We can supply a limited quantity of first-class plants at lowest rates.

**W. H. BUNTING, The Carleton Fruit Farm, St. Catharines, Ont.**

**Only requires 1 man**

**Lighter Draft, Better Results**

The Aspinwall No. 3 Potato Planter is not a two-man machine. It only requires one man, saving you the extra man's wages. It is lighter draft, too. And will plant one-third faster. No other potato planter can compare with it in accuracy. The Aspinwall No. 3 drops over 99 per cent. good. And does it without slightest injury to the seed. We've put seed through the planter over fifty times and it produced as good results as seed planted by hand. No change of pickers required for different sizes of seed or different distances of planting.

Get our catalog A2, explaining detailed construction of Aspinwall No. 3, which is made by largest makers of potato machinery in the world.

SEEDSMEN**

MONTREAL - QUE.

The results from growing our Seeds have made them famous. They are the most carefully selected seeds in the world, of the finest quality and germinative power. We keep only one quality, and that is the best. Try our **Magnificent Strains of Asters, Pansies, Petunias, Sweet Peas, Stocks, Well's New Early Flowering Chrysanthemum, etc.**

We also keep in stock French Spiral Wheel Spring Secateurs, English Watering Cans, Orchid Baskets, and all kinds of Garden Tools.

doors and cooped in a nice sunny spot and protection from the rains afforded.

Special care in feeding should be taken. Oatmeal, boiled eggs and bread crumbs should be fed sparingly for the first week. Usually the children are so taken with the new arrivals that they feed enough the first day to last for a week and the result is that perhaps a chicken or two dies but what of it, a delightful lesson has been given to the children in a branch of suburban or agricultural life, a lesson that is rarely forgotten and usually remembered in after life, something that perhaps may affect their destinies when the time comes for them to choose where they will pass their days—in the crowded cities or the green pastures of the country.

Reports from the Niagara district state that fruit buds apparently have come through the winter in good shape. Peach buds never looked better for the time of year. In the words of Mr. W. H. Bunting, St. Catharines, "with a continuance of normal conditions, there is every prospect for a good crop of fruit of all kinds this season." For Essex peninsula, Mr. J. L. Hilborn, of Leamington, gives a similar report. Even tender peaches show few dead buds.

Among the seed catalogues recently received is that of Graham Bros., Ottawa. A feature of this catalogue is a number of special collections designed to meet the needs of the ordinary purchaser, and which will be of interest to amateur flower growers. A copy of this catalogue may be had by writing to the above address and mentioning THE CANADIAN HORTICULTURIST.
