These Illustrations represent a portion of ou Premiums which we offer for the getting up subscription clubs,

The Review, with its increased size and the new feature about to be introduced, is now in the front of Canadian journalism. We take this opportunity of thanking the many friends who have sent us in lists of subscribers, and as a still further incentive, for efforts on our behalf, we have determined to donate the following premiums to those sending in to us the number of prepaid subscribers as designated below. All these goods are of the best quality, manufactured by the well known firm of the Gendron Manufacturing Co., 7 and 9 Wellington St., Toronto,

and 1910 Notre Dame St., Montreal, and can be seen at tithe warerooms at either of these two cities. We ship them prepting to any destination in Canada or the United States. We had no hesitation in saying that this is an unprecedented offer, and our reputation, we think, is sufficient to warrant the promptine filment of obligations, and a guarantee that goods are are as I have presented. We wish to double our circulation during the hand six months, and take this as the most effective way of so do de at the same time remunerating those who work on our belief

The frame is made of imported weldless steel tubing: the front and rear forks of special steel, concaved; the handle upright and har, as also the spade handles; the swivel head and its brackets; the double rail bottom bracket; the sprocket shaft, cranks and peda pins; the front and rear axles are all made of steel dropped forgings—the only absolutely reliable material.
