NEW MERCANTILE AGENCY.

J. Arthur Green has returned to Winnipeg after a long business trip to eastern cities. He has been appointed manager of the Mutual Mercantile Agency, a strong organization promoted by Erastus Wiman, well known throughout Canada in the agency field, who takes the position of managing director; and the company is composed of some of the leading business men of the United States. Mr. Green's field covers the ground from Port Arthur to Donald, B. C., and he will proceed at once to the equipment of an office in the city. His long experience in this special line of business should be an assurance of detailed and exhaustive work.

D. Moore has moved from Dauphin to Qu'Appelle with a view to engaging in the milling business there.

G. W. Baldwin, fur buyer, of St. Paul, arrived in Winnipeg on Tuesday and will remain here for the winter buying.

WINNIPEG CLOSING WHEAT.

Wheat closes dull and weak, in sympathy with lower United States and British markets and higher lake freight rates. Lake space has been scarce this week, and 5c per bushel has been offered, Fort William to Buffalo, without securing space in some cases. With higher freights and lower markets, the navigation season is closing in very bad shape for shippers here. No. 1 hard was quoted at 61c in store Fort William, today.

Threshing Results.

The following collection of representative threshing notes has been made by The Commercial with a view to showing some actual results in leading grain districts:

Deloraine—John M. Lacey has brought the first of this season's wheat to market. It went 32 bushels to the acre and is a fine sample. Lacey has also threshed his oats, which went 90 bushels to the acre.

Melita—The yield of wheat per acre has so far surpassed the most sanguine expectations. It has run from three to five bushels more than was expected. W. Cobb threshed 40 acres which went 22 bushels per acre, while Cutlbert, west of town, threshed a field which went 25 1-2 bushels per acre. Lennox threshed a 30 acre field which went 30 1-2 bushels per acre.

Alameda—The yield is from 20 to 25 bushels per acre, all No. 1 hard.

Nesbitt—The average yield of wheat around here has been about 20 bushels to the acre, the oats are also turning out remarkably well.

Macdonald—Summer-fallows are turning out 30 to 35 white old land is going 20 to 25.

Cypress River—The heaviest yield of wheat we have heard of in this vicinity this season is from the farm of Jas. Connon, where grain yielded 35 bushels to the acre in one field. A 200 acre field averaged 27 to the acre.

Treherne—The yield is most satisfactory, the average being 30 bushels to the acre. Individual farmers have reached as much as 45 bushels to the acre.

Miami—A farmer named Thompson, near Miami, threshed a field which went 46 bushels to the acre after one per cent had been deducted refuse.

Alexander—A. Nichol has some wheat which yielded 42 1-2 bushels per acre.

Griswold—From 175 acres sown with wheat, Wm. Baird delivered at the elevator 5,000 bushels of No. 1 hard, while from 43 acres of oats he delivered 1,800 bushels.

Moose Jaw.—Andrew Dalgarno threshed 5,000 bushels of wheat off 200 acres, or an average all round of 25 bushels. His oats yielded 100 bushels to the acre, having threshed 2,270 bushels off twenty-two acres. Alex. Wilson also threshed a splendid crop, having 3,300 bushels of wheat off 180 acres, an average yield of nearly thirty-five bushels. His oats yielded 1,100 bushels off seventeen acres.

Union.—Threshing is done. The average run has been about 18 to 20 bushels.

Dr. Stewart, of Newdale, has purchased the drug business of the late Dr. Wilson at Shoal Lake, and will continue the business.
