100 LESSONS IN  
**English Composition**

**MODERN. PRACTICAL.**  
**THOROUGH. METHODICAL.**

A New Book, by a Practical Teacher, for use in Composition Classes in the Public and High Schools of Canada.

This book contains 100 lessons, each lesson consisting of four exercises, and each exercise being composed on the average of eight questions or examples. There are thus within its covers about 3,200 questions for class work. The exercises are properly graded for use in the Public Schools and in the junior forms of the High Schools.

PRICE, - 25 CENTS.

**THIRD EDITION!**

Indispensable to every live Teacher.

**Practical Problems**

IN  
**ARITHMETIC.**

For First, Second and Third Classes.

By **JAMES WHITE**, Public School Teacher  
EDMONTON, ONT.

This book has been prepared specially to suit the convenience of Public School Teachers. It contains about 700 Practical Problems suitable for First, Second and Third Classes in Public Schools. It is very carefully graded, and each principle required to be taught is introduced in logical order. It receives the hearty approval of Teachers and Inspectors.

Read their Opinions.

From **ALLAN EMBURY, ESQ.**, Inspector, Peel.

I have examined this little book of Arithmetical Problems, and can give it an unqualified endorsement. The questions are carefully graded, and are specially suited to the wants of our over-worked teachers who have not always the time to devote to the preparation of exercises upon the various subjects of the school curriculum. The questions are not stated in the form of propositions; but their statement is incidental, leaving the inner connection of the problems to be discovered by the pupil himself; and in this important feature lies their special adaptability as an educational force. I heartily recommend this book to all teachers wishing to economize time and labor in their preparation for ordinary school work.

From **E. TROUGHT, ESQ.**, Teacher, Member County Board of Examiners, Inglewood.

I have examined with some care Practical Problems in Arithmetic for First, Second and Third Classes, by Mr. White, Edmonton. Without the slightest hesitation I say that they are the best I have ever seen—the best in selection, the best in grading, and above all, the best for developing the reasoning powers of the child, and for exercising his ingenuity. A special feature of the grading is that principles which have been introduced are being constantly made use of in the succeeding problems which are in their turn introducing new principles, so that the whole work may be said to be one unconscious review. It is a great boon to Teachers.

Price, Bound in Cloth, 25 cts.
