A Deodorized Extract of Petroleum a now improved and Perfected—Is Ab-solutely the Only Article that will Bestore Hair on Bald Besds. And Cures all Diseases of the Skin and Scalp.

What the World Has Been Want-

What the World Has Been Wanting for Centuries.

The greatest discovery of our day, so far as a targe portion of humanity is concerned, is CAR-Bulling, an article prepared from petroleum, and which effects a complete and radical cure in cases of baidness, or where the hair, owing to diseases of the scalp, has become thin and tends to fall out. It is also a speedy restorative, and while its use secures a luxuriant growth of hair, it also brings back the natural color and gives the most complete satisfaction in the using The falling out of the hair, the accumulations of dandraft, and the premature change of color, are all evidences of a diseased condition of the scalp and the gl-ands which nourlsh the hair. To arrest these causes the article used must possess medical as well as chemical virtues, and the change must begin under the scalp to be of permanent and lasting benefit. Such an article is CARBOLINE, and, like many other wonderful discoveries, it is found to consist of elements almost in their natural state. Petroleum oil is the article which is made to work such extraordinary results, but it is after it has been chemically treated and completely devidorized that it is in proper condition for the toilet. It was in far-off Rusria that the effect of petroleum upon the hair was first observed, a government officer having noticed that a partially hald-headed servant of his, when triunning the lamps, had a habit of wiping his oil-besmeared hands in his scanty locks, and the result was in a few months a much finer head of black, glossy hair than he ever had beonyuThe oil was tried on horses and cattle thu baid has first of black, glossy hair than he ever harden on the results were as rapid as they were marvelous. The manes and even the talls of horses, which had fallen out, were completely restored in a few weeks. These experiments were heralied to the world; but the knowledge was practically uscless to the prematurely bald and gray, as so one in civilized society could tolerare the use of refined petroleum as a dr ing for Centuries.

THE GREAT AND ONLY Hair Restorative.

BEAD THE TESTIMONIALS

DAVISVII LE, Cat., Nov. 8, 1878.

CHAS. LANGLBY & CO., San Francisco:
DRAR SIR-I take great pleasure in informing
you of the most gratifying results of the use of
CARBOLINE in my own case. For three years
the top of my head has been completely baid
and smooth, and I had quite given up any hope
of restoring the hair. Four weeks ago I notice
the advertisement of CARBOLINE, and on the
recommendation of a friend, I concluded to try
a bottle without any great hopes of good results;
however, I have now used it less than a month,
and, to my most agreeable astonishment, my
head is completely covered with a fine, short,
healthy growth of bair, which has every ap
pearance of continued growth; and I confidently
believe it will restore it as completely as ever it
was in my youth.

I take great pleasure in offering you this testimonial, and you have my permission to publish

believe it will restore it as completely as ever it was in my youth.

I take great pleasure in offering you this testimonial, and you have my permission to publish the same. Yourstruly, CHAS. E. WHITE, Davisville, Cal. Subscribed and sworn to before me, this 8th day of November, 1878. JAMEN D. KING, Notary Public. JOSEPH E. POND. Jr., Attorney at Law, North Attleboro', Mass., says: For more than twenty years a portion of my head has been as smooth and free from hair as a billiard bail, but some eight weeks ago I was induced to try your CARHOLINE, and the effects have been simply wonderful. Where no hair has been seen for years, there now appears a thick growth. It is growing now nearly as rapidly as hair does af er it is cut. You may use the above testimonial if you choose, and may refer to me for its truth MR. W. S. G. I.D., No. 76 River avenue, Allegheny City, Pa., writes to us that he had his head badly scaided by hot water and that CARBOLINE not only cured his head but caused his his ir to grow luxuriantly.

ALFAED PHILLIPS. Druggist. Gloversville, N. Y., says: My wife has tried CARBOLINE and she has now a coating of hair over the top of her head an inch long where her head has been entirely BALD for years which had been bald for twenty years, and now I have a nice grow h of hair on my head that surprises everybody that has observed the fact.

THOMAS LAWRENCE, M. D., Mill Creek, Ill., says: I can cheerfully recommend CARBOLINE as a remedy for Baldness I was entirely bala, and procured one bottle of CARBOLINE in and grow have a fine suit of hair growing where there was no appearance before I began using CARBOLINE.

I certify to the above, besides selling Dr. Lawrence the CARBOLINE.

W. H. MOELHANY, Druggist.

TELEGRAMS.

THE ZULU WAR.

London, July 23 .- In the house of commone, this afternoon, Sir Michael Hicks-Beach, colonial-secretary, announced the receipt of a telegram from Cape Town July 8, giving news of a decisive victory by Lord Chelmsford over the Zulus at Ulundi, virtually ending the war. Lord Chelmsford remained in camp till after July 3rd, await to the control of the c ing the surrender of the cannon and 15,000

CAPTURED BY ZULUS AT ISANDULA.

These not arriving, he advanced, and was attacked in the open country by 15,000 Zulus, who fled under the heavy fire of the British. Lord Chelmsford advanced and destroyed Ulundi. The Zulu loss is 800; the British lost 10 killed and 53 wounded.

THE BATTLE

was fought July 4th. The Zulus are variously estimated at 10,000 to 20,000 in number They surrounded the British troops, who formed into a hollow square. The Zulus were pursued by the cavalry and utterly routed. Lord Chelmsford burned and destroyd all the military kraals and returned to camp the same evening. A detailed official telegram from Lord Chelmsford says Cetywayo not only failed to comply with my description. charged the square on all four sides. After wayo not only failed to comply with my demands for the return of the cannons, &c., but

FIRED HEAVILY ON OUR WATERING PARTIES. I consequently returned the cattle he bad sent in and ordered a reconnoisance by Col. Buller's horse. This caused the Zutu army to advance and show itself. On the morning of July 4th, my force consisting of The Privy Council Meeting at Quebec. Major-General Newdigate's division and Brigadier-General Wood's column, aggregating 4,000 Europeans, a thousand natives, 12 cannon and two gatlings crossed Umvolosi river at 6:15 a.m.

The force reached an excellent position between Enandwago and Untenadwango and and Ulundi, about 8:30 a.m., The Zulu army had been observed leaving its bivouac about 7:30 a.m. The engagement was shortly after commenced by the mounted men at 9 o'clock, the Zulu attack was fully developed at 9:30, the enemy wavered, and the lancers, followed by the remainder of the

CAYALY ATTACKED THEM.

A general route ensued. The prisoners state that King Cetywayo was personally commanding, and witnessed the fight from a neighboring kraal. The Zulu prisoners state that twelve regiments of

20,000 MEN PARTICIPATED IN THE ATTACK. Lord Chelmsford estimates the Zulu loss at not less than one thousand. Ulundi was burning at noon. The steadiness of the troops, who at one time during the engagement were under a

COMPLETE BOLT OF FIRE,

was remarkable. The dash and enterprise of the cavalry was all that could be wished. The fortified camp had been left in charge of 900 Europeans and 250 natives. A portion of the Zulu forces at one time threatened to attack it. The news of the battle was brought by special steamer to St. Vincent. A large body of Zulus surrendered after the battle.

They are also coming in in large numbers on I expectorated large quantities of phlegm and

Major-General Crealock's line of advance.

As I have fully accomplished the object for which I advanced, I consider I shall be best | The disease was attended with cold chills carrying out Sir Garnet Wolseley's instruc-tions by moving immediately towards Kam-friends thought I was in the last stages of bawasa. I shall send back a portion of this force for supplies, which are now ready at Fort Marshall. Kambawasa appears to lie about 30 miles south of Ulundi. Sir Garnet believe the war is over. Do not send any more men or supplies till you hear from me. I expect to meet the great Zulu chief about the 16th instant, and discuss the terms of

Ulunni, July 4.—Cetywayo witnessed the beginning of the fight, but retired when the

Zulus began to retreat. A correspondent at Ulundi, of July 4, says it is stated that Cetywayo, five days ago, sent four hundred cattle with the peace messeugers to the British, but they were stopped by one of the Zulu regiments, who declared no peace should be made till they were beaten. Prisoners say that Cetywayo opposed the war, but they admit that the entire Zulu force was present at the battle of Ulundi. The Zulu loss is estimated at 1,500. The two guns taken at Isandula were found.

A correspondent at Cape Town writes July 8th that he hears from a trustworthy source that General Sir G. Wolseley, finding the arrangements of Lord Chelmsford for the march to Ulundi so excellent, left that general to redeem his name.

One of Cetywayo's messengers brought in the sword of the late prince imperial.

The British to Set Up a Pretender.

London, July 24.—A Cape Town correspondent says the question whether Cetywayo will surrender or not is of little importance, as, in the event of his proving stubborn, the British can place his brother Oham, who surrendered some time ago, in possession of the lower and far more tertile part of Zululand, and, by assuring Oham of some little support at the commencement of his reign, establish a complete outwork between Cetywayo and the British colonies. The continuation of the war would he an arduous and fruitless task, as beyond Ulundi the

COUNTRY IS A WILDERNESS,

where the difficulties of transportation would exceed anything yet experienced. The official return of the British losses does not include those amongst the native contingents. The Zulus were compelled to pause by the heavy fire when they arrived within 60 yards of the British square. Eye-witnesses differ greatly as to the persistency with which the Zulus pressed to the attack, and this probably arises from the various positions from which they witnessed it. The most circumstantial narrative shows that the Zulus came

WITH A MAGNIFICENT RUBII,

in dense masses, on the rear of the square and seemed determined to get to close quarters. Their attack on the left flank was not nearly so determined, as that was protected by a gatling gun, which the Zulus greatly dread. The estimates of the Zulu losses vary so greatly as to show that they are pure guessing; the highest is 1,500. The dead were seen lying thickly all around the square. In the pursuit of the flying enemy several officers of the lancers killed four

escape to Sitting Bull's camp. It is very probable another fight has taken place before this. Bear Wolf's band of Crows, who are at Terry's Landing, report 300 lodges of Sioux on this side of the Missouri, on their way to Fort Keogh, to make friends with the whites.

Heavy Storm in Ireland.

London, July 21.—A despatch from Dublin states that a terrific thunder storm occurred yesterday in the vicinity of Portadown, Ulster county, demolishing crops and causing much general damage. Thousands of acres of corn, potatoes and hay are destroyed. The rain fall was such as to form a lake extending fifteen miles from Portadown bridge.

The Shooting at Wimbledon. TORONTO, July 25 .- The Globe this morning

contains the following special cablegram, inted London, July 24 :-

The match for the Kolapore cup was shot this morning. The weather was dull, but in the afternoon it was much finer, and later the wind was rather strong and gusty. The English were victorious by 23 points, making 653, while the Canadians only scored 630. year the winning score is 33 more than last year. The shooting all round was very good. Col. Gibson, Lieut. Hunter and Private Mills made the best scores in the Canadian team. Col. Gibson ties for second prize in the third series of extru prizes

Оттама, July 25.—Sir John Macdonald, асcompained by Hon. Hector Langevin, Hon. M. Bowell, Hon. M. Baby and Hon. J. H. Pope, left for Quebec last night. Mr. Himsworth, clerk of the privy council, accompanied the ministers. They will proceed to Quebec by special train from Montreal, and a cabinet council will be held at 3:30 this afternoon.

The services of his honor Luc Letellier having been dispensed with, the Hon. T. Robitaille, M. P., will be sworn in licut-governor of the province of Quebec.

INCIPIENT CONSUMPTION .- In bronchial and other ctest affections, in arresting jucipient consumption, and in lessening the distressing symptoms of this disease in its hopeless stages. as well as in cases of nervous debility in giving tone to the system, it is undoubtedly a valuable remedy. Jons McMunnay, (Methodist Minister) New-

Two naked cherubs, over the portal of a new court bouse at Rockford, III., so offended the moral sense of the city that they were chiselled off. "SUDDEN COLDS."-At the commence-

port N.S.

ment of a cold, take a teaspoonful of Perry Davis' Pain-Killer in a little milk and sugar, and the cure is more sudden than the cold, DR. P. MEREDITH, of Cincinnati, says:

matter. During the last winter I became so much reduced that I was confined to my bed. Consumption, and could not possibly get well. I was recommended to try ALLEN'S LUNG BAL-SAM. The formula was shown to me, which induced me to give it a trial, and I will only Wolseley telegraphs from Durban, 5th July: add that my cough is entirely cured, and I have halted all reinforcements here, as I am now able to attend to my profession as usual."

A Surprise Party on Ice! Canada is the place for sleigh ride. It matters little how odd and bizarre the number is, all that is needed to make a ride enjoyable is to have it large enough to hold a good many people and small enough to have them well crowded together. Where can better sleighing be found? Had our people enjoy it to the full. Given a emapping cold, clear, moonlight night and a jolly party of men and women, mostly maidens and bachelors, plenty of buffulo or other robes, a driver who knows how near to run to embankments without tilting over, and just how near so as to make every man clasp right hold of his lady, an evening bright, and the voices of the songsters clear and musical, a warm parlor where the host and hostess are to be surprised, and where the party are to halt, and take lemonade with a stick in it, and broiled chicken, and huge joints of meat, and jolly sandwiches, and real good coffee, and substantial pies and cakes, and a merry dance, with all its soft nonsense, and you have a real Canadian surprise party on runners, one of the olden time. Hurrah for such a sleigh ride! Then next day taper off with a few of Dr. HERRICK'S PALATABLE SCGAR COATED Pills and you are all as riggt as a trivet. But dont forget the pills!

THE VERDICT OF HALF THE WORLD. The entire western bemisphere pronounce MURRAY & LANMAN'S FLORIDA WATER the most delicious perfume for the boudoir, the ballroom, and the bath, that chemistry has yet succeeded in the extracting from living

POSITIVE VIRTUES! THE MOST OF the so-called great remedies possess only that sort of negative virtue which, while it may not often cure disease, will seldom endanger life. Bristol's Sarsaparilla is equally safe, but it is possessed of that positive or aggressive virtue which will not tolerate the presence of disease or impure blood, or humors in the human system where it is used, and thus it is that it always effects complete and lasting cures.

Weak and Sickly Children, with their pinched features and emaciated forms appeal at ongy to the best sympathies of everyone. Yet, our sympathies are of but little benefit unless they take a practical form, and the suffering a from both Menial and Physical Debility be relieved by administering some such strengthelying medicinal and nutritive Blood and Brain food as Kobinson's Phosphorized Emulsion of Cod Liver Oil with Lacto-Phosphate of Lime. It sids the process of direction and assimilation, revitalizes the blood, and, supplying material for bone and muscle structure, furnishes the foundation for strong and healthy constitutions. Prepa ed solely by J. H. Robinson, Pharmacentical Chemist, St. John, N.B., and for saie by Druggists and General Dealers. Price \$1.0 per bottle; six bottles for \$5.00:

Reveral officers of the lancers killed four Zulus each.

THE INDIAN WAR.

Deadwood, D.T., July 23.—A special from Fort Keogh says an engagement took place near the mouth of Beaver Creek, on the 17th, between two companies of troops and Lieut. Clark's Indian scouts, of General Miles' command, and 300 Sloux. The troops lost four Indian scouts killed and two soldiers wounded. When Gen. Miles' main column, which was twelve miles behind, came up, the Indians were pursued fifteen miles, but made their co., Homosopathic Chemists, London, England. EPPS'S COCOA-GRATEFUL AND CUMFORTING
