

The New England Electronics Industry

TABLE OF CONTENTS

Preface

The following study of the commercial electronics industry in New England reflects the findings of a study conducted from August, 1994.

1. Introduction - The New England Electronics Industry
2. Overview of Individual New England States & Their Commercial Electronics Industry

3. Profile of Individual Segments of the Electronics Industry

Although detailed in section three of this study, it is important to note that while ten specific SIC codes (3568, 3612, 3613, 3621, 3625, 3669, 3674, 3724, 3825, 3829) were to be the basis for this study (their inclusion is based on size, growth or potential for Canadian manufacturers and suppliers to the commercial electronics industry), all 300-3800 SIC commodity companies were included in the study to provide a complete picture of the electronics potential or involvement.

Commercial Electronics Companies by State:

4. Connecticut
5. Massachusetts

6. Maine

7. New Hampshire

8. Rhode Island

9. Vermont

10. Commercial Electronics Manufacturers' Representatives

11. Trade Associations

12. Electrical & Electronic Trade Shows

13. Summary Conclusions & Recommendations
