

Yukon and N.W.T. Government

[Translation]

All of us know that this Commission was created in 1965 at the request of the Territorial Council in order to suggest to the federal government the proper action to be taken to insure the Northwest Territories a greater share in government.

The best compliment the government can pay to those who work on such commissions is to give immediate consideration to their recommendations with a view to enforcing them with the least possible delay.

The evidence of the success achieved by Mr. Carrothers and his colleagues lies in the fact that a great many of the major recommendations were already being carried out the year following the submission of the official report, and that steps were being taken to carry out additional recommendations.

As regards the other suggestions, including those with long term effect on the territorial administration, the government awaited the proper time to put them into practice.

I intend today to inform the House of the federal government's intentions in regard to some of these recommendations as the minister himself announced in Yellowknife on November 10, 1969.

Mr. Speaker, may I call it five o'clock?

[English]

Mr. Deputy Speaker: Order, please. It being five o'clock, it is my duty to inform the House that pursuant to section 11 of Standing Order 58 the proceedings on the motion are considered to have expired.
