

Pontville--The Town with a Future

VARIOUS ENTERPRISES costing an aggregate sum of 20 millions of dollars and which, when completed and in operation, will employ no less than 2,500 men, are the corner stone of the rapid development of **Pontville**.

One may easily imagine the rapid growth of that new-born town of **Pontville**, by considering that it is the **only** land subdivision immediately facing:

The Terminals of Eleven Railroads

The Quebec Bridge (Longest Spanned in the World)

The Grand Trunk Pacific Shops

Vast Freight Yards (3 Miles of Track)

Signed contracts call for the construction of these gigantic works, the expenditure of some twenty million dollars;

The shops, together with the freight yards and the care of the Quebec Bridge, will keep at least 2,500 men at work the whole year round;

Within 5 years, **Pontville** will have a population of 10,000;

Tramway lines, splendid highways and many railroads will connect **Pontville** to the City of Quebec.

Pontville will have its church, school, and all services of public utility.
