The busy mart of the Toronto Live Stock, Exchange, at the Union Stock Yards, halted its activities for a few minutes to give the members and friends an opportunity of expressing to Mr. Ashcraft, the retiring manager, their regrets at his retirement and best wishes for his future.

There was a large representation of the cattle trade on nand, and they gathered informally around Mr. Ashcraft as he entered the door of the exchange building, when C. H. Maybee mounted a bench and called for order. After reading the following address, President Maybee presented Mr. Ashcraft with a handsome solid gold watch, valued at \$150:

"J. H. Ashcraft, Toronto:

"Dear Sir,—The members of the Toronto Live Stock Exchange, and others interested in the cattle trade, have requested you to meet with us that we might take advantage of this opportunity to express to you our sincere regrets occasioned by your departure from us.

"We understand that we have re-

to express to you our sincere regrets occasioned by your departure from us.

"We understand that you have resigned
your position as manager of the Union
Stock Yards, Toronto, to accept a similar
position with the Stock Yards Company
of Edmonton, and, while we feel it a distinct loss to the cattle trade in Toronto
we cannot help but congratulate the Edmonton Stock Yards Company for the
wisdom and foresight they have exhibited
in their choice of a manager.

"We also take this opportunity to express our appreciation for the services
you have rendered to the trade here.

"We have always recognized you as
the manager under the Union Stock

"The Stock Stoc

"We have always recognized you as the manager, under the Union Stock Yards Company, and we also realized that your first consideration was always to their interest (a quality which we could not help but admire). Your next thought was for the good of the people represented in the trade. You were always anxious that their wants should be satisfied, providing it did not interfere in your duty to your employers.

"Now, to show our appreciation in a more tangible way, we take this privilege and consider it a pleasure to present you with this token of remembrance, and the hope and wish of the givers are that Hogs—Receipts, 6000; active; heavy, \$8 to \$8.10; mixed, \$8.20 to \$8.25; yorkers, \$8.15 to \$8.25; pigs, \$7.85 to \$8; roughs, \$6.75 to \$6.85; stags, \$5 to \$6.

When the applause quieted down the recipient acknowledged in a few well-chosen words the compliments of his friends and associates. Mr. Ashcraft felt deeply affected by this token of appreciation after six years at the head of these yards. Three loud cheers and a tiger finished the proceedings, as the men crowded around to individually wish godspeed. WINNIPEG, April 30.—Wheat futures opened '%c to %c lower this morning. Oats were %c lower, while flax was %c to %c higher. Trading was light, and showing little interest in May. Cash demand was indifferent. Oats were slow, demand being only for Nos. 1 and 2 feed. Men Graduate From Toronto Bible College.

Forty-one students finished their course at Toronto Bible College last night. The graduating eyercises of the 1915 class were held in the Assembly Hall, 110 College street. Thirty-one finished the regular course, four the post-graduate, and six were granted certificates for evening class work. Twenty-six women were among the graduates and fifteen men.

The presentation of diplomas and certificates was made by Kev. John McNicol, the principal of the college, who also made the parting address to the students. Rev. Prof. J. D. Gilmour, D.D., of McMaster University, also addressed the graduates.

Entrenching guns, with four of the big 18-pounders, featured the effective work of the 13th Battery at the lake front within one stone's throw of the Old Fort road entrance gate to Stanley Barracks. Colonel Brown, brigade commander, directed the operations which were exactly the same as those of the hidden batteries of the allies around Ypres in the fighting in progress there. The guns were placed in a row of four facing south. The guns were almost hidden, first by sand bags covered with green sods, while an almost instantanous growth of a row of fifty young trees were used as a front screen. At a short distance the guns looked like small natural turf covered hills. The work was so perfect that experts declared it to be "wonderful" and artis. who also made the parting address to the students. Rev. Prof. J. D. WE wish to call attention of the people to Chiropractic Science as a means for restoration to health. We can prove what we advertise, and court investigation of this scientific method, which is a radical departure from drugs and treatment of effects by surgery. We fear no criticism, skepticism being matural through the many failures of so-called cures to cope with real disease, such as tuberculosis, cancer and affections of the kidneys. One has only to read the admissions of medical authority of late to know the futility of drugs in cases of consumption. We hereby make a vital statement—This science enabled the advertiser to get health when all else failed—it will do the same for Toronto people if they take spinal adjustments from graduate Chiropractors who understand the human body and its weaknesses. Poisonous drugs and the knife do not add any improvement to a healthy body—much less a sick one; treating effects does not reach the-cause of disease which has remained in obscurity, until discovery by Dr. Palmer, of Chiropractic principles. There are now over six thousand competent people engaged in Chiropractic—adjusting the cause of disease in the spine. Bone pressure on the nerves cause nervous disorders, we adjust the vertebrae—nature can then restore normal stimulation from the brain centres. We publish these facts for a purpose—space costs money—but we are forced to make those statements, by the unscrupulous and malignant condemnation practiced by many calculated to do Chiropractic lasting injury. This science has come to stay—the people need it and it fills a long-felt want. We do not publish testimonials—but we have a large number on file. If you are interested, call or send for explanatory literature—investigate personally and do not besieve you are incurable until you try Chiropractic. No medicine—no massage treatment. Consult Dr. Chattoe, Palmer graduate. Fountain Head, 316 Brunswick, just north Bloor. Rooms, 24 West King street, Toronto.
