MURDER SUSPECTED IN DESTRUCTION OF BARN Finding of Remains Leads to Theory of Fire to Hide Evidence. CHATHAM. Ont. Dec. 22.—Murder is suspected in connection with the finding of the charred remains of an unknown man which were found in the ruins of a fire which a few days ago destroyed a barn on the farm of Thomas Kilbride, near Wallaceburg. It was learned today that a man was seen running away from the barn at the time the fire was discovered. and the theory is advanced that murder was committed and the barn then set on fire in an attempt to cover up the crime. A searching investigation has been ordered. ST. JOHN, N.E., Dec. 22.—Part o the stores of W. H. Thorne & Co Limited, on Market square, were gut |

Various Concerns Suspected of Trading With Enemy Boycotted

LONDON, Dec. 22. 6.30 p.m .-- Various American mercantile and manufacturing firms doing business in Great Britain are said to be suffering losses due to a blacklist which they claim the British Government maintains against neutral industries suspected of having affiliation with Great Britain's enemies

Official circles admit that firms sus-pected of actual trading with the central powers or their allies are objects of suspicion and liable to meet with discriminatory treatment, but it is de-nied that simply because an American firm may have German stockholders it is placed in the same category as organizations which are known or sus-pected to be trading with an enemy

It is pointed out that such treatment would be quite impossible of enforce-ment without great injustice. for scarcely any large industrial organization is without stockholders of varied na-tionali'ies.
