Yesterday was held the annual meeting of the Home Bank of Canada. There are over 1600 shareholders of the Home Bank, so it was a small but representative gathering that as-sembled at the head office, 8 West May 31, 1911:

Following the general meeting the directors met and re-elected the former board: Mr. Eugene O'Keefe, president; Mr. Thomas Flynn, vice-president. Directors—Messrs. E. G. Gooderham, W. Parkyn Murray, John Kennedy, John Persse, Thomas A. Crerar, Col. James Mason.

The President's Remarks. Mr. Eugene O'Keefe prefaced his business statement with a few remarks, reviewing his connection with the Home Bank. Fifty-five years ago he had joined the staff of the old Toronto Savings Bank—an institution which had developed into the Home Bank of to-day. All his life he had been actively identified with the Home Bank. He was an old man to sit at the head of such an institution, but cautiousness was what had made the Home Bank a success, and he had lost none of his cautiousness in business afafirs with his years. Referring to the report Mr. O'Keefe said:

President's Address.

"When we had the pleasure meeting you a year ago, I stated in my remarks that a circular, issued by the Northwest Grain Dealers' Association, dated June 7, 1910, showed the estimated crop acreage of the three provinces to be in excess of that of the previous year, in wheat alone, by 1,359,000 acres—that reports then in indicated an excellent condition of the growing crops, and that everything looked favorable for a big yield. I also added that more recent reports. however, were not so encouraging, as the want of rain and the excessive heat of the previous few days had apparently done considerable injury. The wheat crop, I regret to say, the large, was; disappointing, the yield being very considerably below that at rege, was disappointing, the yield eling very considerably below that at rest anticipated.

"The circular of the Northwest Grain ealers' Association of date June 7 of the present year, shows an increase the present year, shows an increase the present year, shows an increase the present year.

Dealers' Association of date June 7 of the present year, shows an increase to acreage of wheat this year over last year, almost identi-cal with the excess of last year over the previous year, viz., 1,355,009 acres, the total acreage in wheat alone being well up to ten millions. The grand acreage total of all grains, according to this circular, in the three millions. The weather up to the present time has been considered favoryears.

"Nobedy would now fare" said he "to go back on Lloyd-George's budget of 1908, altho even yet he roceives vituperation for it."

"The policy of the present government of Great Britain will soon be the policy of every legislature in the world, viz., the improvement of the condition of all the people."

Dr. Clifford caused laughter when he referred to Hugh Price Hughes' belief that the final struggle of the 20th centary would be between the Jesuits and the Baptist conscience. "Gur desire," said he "is to give the Jesuits and quarter of an hour."

Separate Church and State.

"We are asking for the separation of the gold and the separation of the condition of the leaves for home.

Believer in Home Rule.

"We are asking for the separation of church and state, and we are asking doxologies because the house of lords is on its knees. (Loud applause).

"The British Cabinet is largely a Free Church cabinet, and even many of the labor members have received their preparation for parliament in the pulpits of the free churches of the land.

"The veto must be removed. (Applause).

"Free churches must be established. (Renewed applause.)

"The veto must be removed. (Applause.)

"Free churches must be established. (Renewed applause.)

Loud applause greeted the speaker's refernce to "the iniquity of the present educational law."

"To preach Protestantism in the churches on Sunday, and to uphold a protestant nation, and then go and educate young Britishers in Romanism on Monday," he cried. "I am simply one of hundreds who will never do it. We'll have no political interference in our religious affairs. We will resist it, aye, to the death, if needs be. (Applause. We want freedom, not for the sake of license, but to help one another and to advance the interests of the entire commonweath. Liberty for the sake of virtue must be thuse of every man who dwells on earth."

Dr. Marshall, principal of the Baptist College, Manchester, England, and professor of Victoria University, in that city, also gave an address. Dr. Marshall was the first man from the British lises to receive the degree of D.D. from McMaster University.

Passive Resistance.

Rev. John W. Ewing, M.A., B.D., of London gave an interesting address on

WE leader for public meetings contitioned the party lost two meetings perater than he is able to meet. In Manitoba the party lost two meetings the method to the meeting show entered upon parallel tours within that province. In Alberta the same step has had to be taken. To-day Mr. Borden addressed two meetings personally, one at Lacombe and one at Red Deer, while Dr. Roche addressed a gathering at Olds, and Andrew Broder spoke at Stettler.

Mr. Borden spent the day in the riding represented at Ottawa by Dr. Michael Clark, Liberal and free trader. Yet a larger portion of the audience at Lacombe cheered heartily an appeal to the west.

"Let the Americans come over here and do their manufacturing," came a friendly interruption.

"That's what we want," promptly rejoined Mr. Perley. "That's what we are doing now." (Cheers).

Appeal to the People.

There was a hearty cheering, too, when Mr. Borden repeated his intention to force an appeal to the people, if possible, on the reciprocity issue and again when he amcunneed himself in favor of imperial preference. But there were few cheers, when he stated his confidence that reciprocity would be "a curse."

Mr. Bergeron's arguments for protection drew out a stout protectionist from Utah, Amos Gregg by name. He was strongly opposed to reciprocity.

"I was born in the United States." he shouted, "and I love it as myself, but if you are refers to a myself, but if you are going to give your goods and money to the United States you will have to go yourself, body and soul." (Cheers.)

The Conservative leader was met on his arrival at Lacombe, by Hon. Peter Talbot, Liberal sonator, who entertain-ed Mr. Borden to a motor drive about ded Mr. Borden to a motor drive about the experimental farm. Mr. Borden was also the recipient of a civic address. The welcome which was given him by the audience was very hearty. On the platform with Mr. Borden was E. Michner, the Conservative leader for the province.
