### DR. W. HUBBARD ON CHRISTIAN SCIENCE

Right Understanding Always Has Dominion Over Material Conditions.

Dr. Walton Hubbard, C.S.B., of Spokane, Wash., addressed a large gathering in Massey Hall yesterday afternoon on Christian Science. Dr. Hubbard is a member of the board of lectureship of the mother church, the First Church of Christ, Scientist, in

Boston, Mass.
"We are led," said he, "thru the study of Christian Science to try to stop viewing man as sick and sinning and to accept the fact of his righteousness and dominion, which is insisted upon thruout the Bible, and to undertake to manifest this dominion

over all things. "Every advanced idea, every unfoldment of truth, has come to the world thru the avenue of some human intelligence. Whoever has discovered or presented truth has done so only because his fundamental qualities, molded by environment and cducation have made such a one a suitable channel for the presentation

of a particular idea.

"For three years following her discovery Mrs. Eddy devoted all of her time to a deep study of the Scriptime to the study of the study of the stud tures, seeking a solution of life's

"This investigation revealed the fact that the entire Bible record teaches conclusively that a right under-standing of God has always brought dominion over all material conditions and that when the knowledge of truth has been correctly applied it has always been attended by healing

### **EVERY MAN IS A** POTENTIAL CHRIST

American Theosophist Traces Development of Consciousness to the Spiritual.

A. P. Warrington, formerly a rail-way manager of repute in the United States, now national president of the American section of the Theosophical Society, spoke last night in Foresters' Hall on the subject, "Every Man a Potential Christ." He traced the development of consciousness thru the lower kingdoms of nature, mineral consciousness having been demonstrated by the experiments of Prof. Bose, up to the highest animal types. At this point spiritual consciousness reached down and touched the animal soul, and thru this contact mind ed on his own effort. The recognition of the Christ spirit in all men, however lowly or degraded, creates beautiful stained glass windows of the compassion and pity that enables the church and sparkled on the inmen to love even the worst types of struments of the famous silver band, humanity. In them, crucified in the flesh, the Christ suffers, and those which was massed in the choir galwho fail to help the darkened light lery behind the platform.

### **CANADA'S SHARE** IN GREAT WAR BILL

W. E. Raney Contrasts National Debt and Sources of Income.

"When the last bill for the war is in, Canada's national debt will have reached the total of eighteen hun-dred million dollars or a per capita debt of \$75", was the rather astounddebt of \$75", was the rather astounding statement made by W. E. Raney, speaking on "Who Will Pay for the War?" in the open forum, Foresters' Hall, yesterday afternoon. The annual amount of interest which Canada will pay yearly on this debt is estimated to be about one hundred million, dollars.

Prior to the war, Canada received her revenue from two sources, mainly

Prior to the war, Canada received her revenue from two sources, mainly the customs tariff tax and excise duties. The excise duty is about to disappear very largely, said the speaker, and there will only remain the one old source of revenue by customs duties. They protect industry and are a source of revenue. "You cannot add any more to them and probably will have to reduce them. They are a tax on the poor man and the rich man practically escapes," he said.

"Hello, is Prof. Mulveney there?"

"Yes, speaking."

"I just wanted to know if your remedy called B'Well was good for a bad cold?"

"Yes, it is excellent, also a splendid preventive. B'Well has restored people to health that were being treated for consumption—people who were coughing their lives away. It has cured people who spent hundreds of dollars doctoring for Bad Coughs."

per capita debt is \$759. Altho the debt of the United States is not so large as that of Britain, her debt per capita has increased more appreciably than that of any other country.

Prof. R. L. Mulveney—Dundas car

But listen! Let the baker with the idea speak:

"My scheme is to bake bread for the retail grocers. Within sixty days I can arrange to produce 50,000 loaves the minister of finance had to be sure and Rheumaticide. It daily."

"Have you got the plant?" asked

The World.

"Your B well and Rheumaticide. It surely saved my life; I was in awful misery. I could hardly breathe, my breath was so short I could hardly breath was chang-

"But"—began the reporter.

"Stop right there," said the baker.

"There are no 'buts' or 'ifs' about it.
The necessary plant I don't have is "dead hand" ruling an eistate of mil-The necessary plant I don't have is all booked and located. And what is even more to the point, altho I am quite a young man yet, I have been a baker for thirty-one years."

"Still, it is a big venture," said The World.

"No venture about it—it is a certainty."

Present Trade Large.

My present trade is a large one and if 1,200 grocery stores combine with the existing business, it can easily be the largest concern of its

# HATING HOLLAND

Germany and Neighboring States Have Reciprocal Vital Interests, Says Count Rantzau.

Basle, Feb. 16.-Count von Brockdorff Rantzau, the German foreign secretary, in a speech Friday before for the purpose of nominating reprethe national assembly at Weimar, discussed the relations of Germany with Poland and the Czecho-Slovaks. He said Germany and the neighboring states had reciprocal vital interests in each other's prosperity, and that adult member of the Toronto Jewish the atmosphere of hate which marked community will vote. ependence will be assured."

"Then there would be no doubt as be dissipated "if we are to have our right of sovereignty in favor of our

same right where it is opposed to us," condition the speaker continued. "It is important to know what territories fall under the scope of President Wilson's points."

Popular Red Cross Nurse

The idea of social harmony is nowhere more at home than the most eminent jurists in the country. Several have retired during the last few years because of the low reinvestance on the low in Germany. That is why it is not agreeable to us to see a peace continue the business with \$1,000,000 cluded which does not reconcile the position from his pro-Japanese cabinet.

More than 500 delegates of the various Hebrew associations societies of the city attended a meetling in the Zionist Institute last night conference will recognize its injustice.

#### Prof. Mulveney Answers Phone

Parkdale 4830. "Hello, is Prof. Mulveney there?"

People in this country and in the old land were protesting against the world dropping back into the old ways of five years ago and if new conditions would not come some other way, they would come under pressure, such was his belief. He then made a comparison of the national debts of Canada, Great Britain and the United States.

Before the war Canada's is a wonderful Blood Purifier Storm Before the war Canada's is a wonderful Blood Purifier, Stommath, Liver and Kidney Medicine, a wonderful venture value of her railways of two-thirds of all improved land in the country. Great Britain's liability in 1913, was \$3,400,000,000, now it has reached a total of \$34,900,000,000. Her per capita debt is \$759. Altho the

From \$12 per head in 1913 to \$187 at the present time.

Canada's expenditure in 1913 was \$144,000,000, which covered every\$1.25. Rheumaticide, 25c. -get off at Ossington avenue. Open until 10 o'clock each evening. Price,

\$144,000.000, which covered everyshing, lately the country's expenses have reached \$500,000,000, only half sufficient to meet the liability.

Sources of Revenue.

"Of the \$222,000,000 of revenue collected last year, the Manufacturers' Association estimated that threequarters of it had been raised by the customs tariff," he said. "It is possible to continue to raise this amount, but what about the remainder which must be supplied? The money raised last year only covered necessities such as interest on debt, railway deficits and ordinary expenditures. We are now going to have to provide not only railway deficits, and interest on debt, but for pensions, good roads, trolley lines, water power development, publicly owned telephone rates, and also housing conditions. Income and property taxes will bring in eighteen millions during the coming year."

Mr. Borney contrasted the revenue producing power of the income tax here and in England. The mother of the producing power of the income tax here and in England. The mother of the producing power of the income tax here and in England. The mother of the producing the producing power of the income tax here and in England.
