TOWNSHIP COUNCIL ASKED TO INTERFERE

Balmy Beach Residents Want Assistance—Local Option League Formed—Items.

TORONTO, May 20.—The township council discussed the Dundas-street paving question to-night and called for new tenders. It transpired that another firm, the Toronto Construction Co., were willing to take the town's bonds as security, and this left the council open to accept either asphalt blocks or vitrified brick, as they, in their wisdom, saw fit. The representative of the Toronto company said he would be glad to supply the paving bricks, which is manufactured in Toronto Junction. The new tenders from this company and the Asphalt Block Co. will be in and the contract awarded on Monday night.

A. Bradshaw & Son asked for a block of land on Hook-avenue, upon which they propose erecting a factory (also for the manufacture of asbestos) and in which they intend to manufacture garments. The land will be sold to the company for \$800. The company will begin the erection of the factory, and work will be done by Charles, a Junction contractor.

At 2:30 o'clock this afternoon Arthur Johnson, aged 15, who lives with his parents at 115 Churchill-avenue, met with a painful accident at the Dodge Pulley Works. He was at work running a shaping machine and his shutting it off his sleeve caught in the gear and drew him in among the cog wheels, resulting in breaking his arm above the elbow and cutting the skin of his face and head severely. It was found necessary to take the machine apart to relieve him. Dr. Perfect was called, and after tending his injuries had him conveyed home.

It would be well for the parents of children who are not attending school regularly to see that their little ones do so, as the new truancy officer, Chief Finlayson, has started out to see that the law is enforced. A number of notices were served to-day on the north side of the town, and more are to follow, until all the absentees are rounded up.

The funeral of the late John Haggas, superintendent of waterworks, took place this morning to Uxbridge. The remains were accompanied on the 3:10 train by a number of the Masonic order, and the interment was conducted by the Masonic Lodge of Uxbridge.

North Toronto.
NORTH TORONTO, May 20.—The local Liberal-Conservative Association will meet in the Orange Hall on Wednesday evening at 8 o'clock.

The board of works and fire and light committees met to-night and put thru a lot of business. C. Wilson of Frederick-street complained of damage being done to his garden by rain running thru it. Committee will look into the matter. J. S. Banks and others petitioned the board to open up Castlefield-avenue by bridging it at the ravine, in order to give access to their properties. Committee will recommend to the local improvement plan. The members of the board became patriotic and ordered a new flag for Empire Day. The employees of the department petitioned the board for permission to stop work on Saturday, May 21, at 4 o'clock, without loss of time, during the months of June, July and August.

Chairman Murphy suggested that where the concrete work is being laid on Yonge-street it would be advisable to drain the street for a distance of

about 400 feet from the southern end. William Hanley, of 115 Parliament-street, said that Hanley was seriously injured by a defective roadway on Coxwell-avenue, and asked for compensation. He asked the solicitor, F. J. White, to refer the case to the bill on Spadina-avenue, from Davenport-road, be put in safe condition.

Mr. Hanley wants a tar and gravel roadway, 15 feet wide, on Keele-street, on the local improvement plan. Engineer will report.
W. J. Bennett, 361 Cooper-avenue, Davenport, claims \$50 damages for injury received to his knee by a defective sidewalk. The Confederation Life extended the time of suit to the township for six months, at a fee of \$100 per annum. City Engineer Rust wrote to the Davenport-avenue sewer, and asked the township to enter into an agreement with the city. The Bank Manufacturing Co. wanted permission to lay mains to get the city water. Referred to the commission.

The local board of health of the Township of York also met this afternoon. A lengthy discussion took place concerning watercourses, thru the property of Mr. Mishaw of Acland-avenue, Wychwood. The board contended that the ditch is on private property and that the owner had to keep the place in sanitary condition, or failing to do so, the board would be obliged to have the ditch cleaned. The board also complained that the people in the Davenport district cannot get proper satisfaction from the sewer. It is regarding a certain ditch carrying stagnant water. That official explained that the board should attend to the ditch, which the board has again cleaned. The board also complained that W. McKay, on the Todmorden Plains, keeps a nuisance in the shape of a slagery.

Alex. Reid, complained about an open ditch on Bathers-street, which carries more than surface water. The board of night soil on Salmon-avenue, Toronto, was the complainant of another resident. Inspector Fisher stated that one man is building six houses on a foot lot 175 feet deep, and he considers the same to be a nuisance. The board could not interfere. Dr. Warren, M. H. O., reported five cases of scarlet fever, but there are no other contagious diseases in the township.

BALMY BEACH, May 20.—A conference will be held to-morrow afternoon (Tuesday), in the office of J. J. Dixon, West King-street, east of the headquarters of the executive of the Balmy Beach Protective Association, with respect to railway matters in East Toronto, which has been the subject of the board of works and fire and light committees.

With the practical demolition of all the buildings in Munro Park, and the opening of Scarborough Park, the board of works and fire and light matter is assuming a serious phase. From Howard-avenue to the easterly exit of Munro Park is about half a mile, and the 200 residents along the street railway in this district are naturally anxious as to the outcome. C. B. Watts has returned from a short business trip to Winnipeg, and reports the building trade and business generally, notwithstanding the cold weather, as booming. Mr. Watts states that the opinion is, however, freely expressed that land values in the city are greatly inflated.

In July Mrs. Thelma Burton will celebrate her 86th birthday. A host of friends will learn with pleasure that the venerable lady is in excellent health, and has just returned from a visit to her daughter at Green River, Seldom if ever have the crops in Pickering Township been less forward at this season of the year, but with favorable weather there is no reason to believe that the harvest will fall below other years. In some parts of the township there is said to be a scarcity of fodder for cattle.

York Township Council.
COUNCIL CHANGES, May 20.—At this afternoon's meeting of the council the York Township Property Owners' Association of Emily Beach submitted a lengthy communication as to the threatened discontinuance of the street railway service east of the Woodbine. The likewise want the company to run their cars on Maple-avenue instead of "Ying" their cars at the Woodbine, without permission from or compensation to the township. It was pointed out that residents east of the Woodbine had bought their properties with the assurance that the car service would be maintained. It was further stated that the cessation of a service would seriously depreciate the value of property. The letter was referred to the solicitor.

On Monday night the Invincibles of Teston met the Maple Leaf team at Maple. A hot time is expected. Our side did not attend the race on Saturday, the price set too hot a pace for them. Think of Toronto Junction is building fence around his property at Tisdarora. A snider is opening up a bicycle repair shop. Our sidewalk was in a dilapidated condition. It is high time for Com. Craddock to start repairing the same. or the council will be melted for damages in case of accident. B. Rumble has sold his valuable pine forest to J. Pollock. The citizens of Maple all regret this deal as the pines were a beautiful summer resort.

Ted Cousins and wife of Toronto spent a day last week with Alvin Parker of Ellis Place. Ted secured several business trips to Winnipeg, and reports the building trade and business generally, notwithstanding the cold weather, as booming. FIGHT OVER A NAME.

U.S. Attorney-General Gives Decision for "Straight" Over "Blended" Whisky
WASHINGTON, May 20.—Attorney-General Bonaparte's decision as to what "straight" whiskey is will put about \$12,000,000 into the pockets of distillers who make whiskey of that kind during the next twelve months.
The wholesalers resolved to have "straight" whiskey bottled in bond would hereafter be retained at an increase of from 20 to 25 per cent.

There is no reason for the increase in price other than the members of the "straight" whiskey trust can get more for their product. The attorney-general gave his opinion. "Straight" whiskey has been going up ever since the "blended" whiskey trust was organized. Secretary Wilson, recommended to Secretary Wilson that only whiskey containing all the substances coming from the still should be entitled to bear the name whiskey without any qualification. This trade and public jumped to the conclusion that "straight" whiskey must be the purest and best.
