Handsome Lingerie Shirt Waists Values up to \$10.00 Clearing at \$5.00.

While the unseasonable weather has undoubtedly affected the selling of shirt waists to some extent, we cannot reasonably complain that our Shirt Waist Department has suffered. Sales have been good. The weather, however, has had a blighting effect in some quarters; at least, the willingness of manufacturers to part with merchandise at half value would so indicate. We introduce the subject of underpriced shirt waists in this way, so that you may know why we are in a position to offer crisp, fresh, seasonable and fashionable merchandise at an all around average of half price.

A thousand beautiful lingerie waists-the makes of several of the leading waist manufacturers in the United States and embracing some of their most attractive numbers. A BOND ISSUE AND GREATER

Editor World: I read your water supply article to-day. It's good, so far as it goes, but your purview has to be enlarged if we are to have the 500,000 people you say Toronto gives promise of possessing. How much, first to last, have our waterworks cost to date? Say \$5,000,000. When, therefore, Toronto comes to full citizenship, there will be needed another \$10,000,000 ing complete. Now, how much more would it cost to make the Georgian Bay our reservoir, with pure water and power enough to meet the wants of a population of a million?

Again, you plead the wants of the nanufacturers in this connection, and indirectly the insurance companies. Now, just find out how large of bonds these worthies would be willing to take care of at say 5 per cent, without discount, and perhaps the thing you want—a new waterworks system—might be got within ten years.
Also ascertain how the banks would treat the issue of bonds at home here.
Of course I know they would have no objection to the bonds being floated abroad, as then they would get the gold equivalent, which would be paid out with their own paper promises to pay notes; they would take the kernel. and we, the people, or country, the chaff. They would then have the gold
