ion Loan & Savings Co., v. Johnston ntiffs succeeded in obtaining judg-or the rectification of the descrip-the land described in a mortgage them, the defendant Johnston con-

senting.

In Covington v. Toronto Type Foundry Co. the action was dismissed with costs. The plaintiffs claimed a lien on certain goods and damages for their wrongful selzure. The defendants succeed on their counter claim for \$225 and are declared entitled to the goods as against the plaintiff's mortgage.

ANOTHER HOUSE LIQUIDATING.

Spence of This City Retiring From the Wholesale Drygoods Trade.

The well-known wholesale dry goods firm of Caldecott, Burton & Spence are about retiring from business. Their stock is being gradually reduced, and on Jan. 1 next, the date of the termination of the present the chief reason for taking such step is that there has been little or no a step is that there has been little or no profit in the dry goods business for severaly years past. Mr. Caidecott is glving up business entirely, while Mr. Spence and Mr. Burton are going to give their undivided attention to the affairs of the Merchants' Dyeing & Finishing Co., Limited, lately organized and capitalized at about \$200,000. The wholesale dry goods firm has been doing business in Toronto twenty years, and always had good credit. At the beginning of the present year the firm had a surplus of \$155,000. Liquidation will be on the basis of 100 cents on the dollar.

Potents Granted. Below will be found the on weekly up-to-date record of patents granted 28 DUTCH BULBS

to Canadian inventors, which is furnished us by Messrs. Fetherstonhaugh & Co., patent barristers, Toronto:
Canadian Patents—W. Ross, jointed wood bleycle frame; A. E. Ames, velocipede seats or saddles; R. C. Warner, foot rests and device for stopping the motion of bleycle pedals; D. A. Taylor, bleycle brake; J. J. Rouse, interchangeable gear for bleycles; A. Ryan, tires for cycle; L. G. McKam, gas stoves or furnaces; R. S. McPhall, trolley wheels; H. C. McQuarrie, bag holders, D. A. McCaskell, gold mining dredges; T. Hogan, non-refillable bottles; O. Bertrand, door fastener; F. A. Jumeau, stuffs for tapestries, carpets, furniture and other like purposes; H. Tevers, bottle-filling devices; A. Sergle, apparatus for treating heavy hydrocarbons by means of heat, especially applicable for distillation and the manufacture of oil gas; A. Prefontaine, stone extractors; R. J. Smith, charts for cutting coats and vests; H. Poole, methods for treating native aluminum, phosphates and minerals containing the same.

Improvement in Remittances. The trade distribution at Montreal, taken Round Lots Taken in Ontario as a whole, is of a very fair seasonable for Export.

Wall-Street Stocks Quiet With the Tone CALIFORNIAN

The general report regarding femittances is that the improvement noted of late is maintained.

General wholesale trade at Toronto is fairly satisfactory. When weather conditions are taken into consideration, the movement is most encouraging. The steady demand on wholesalers for nearly all lines of merchandise is evidence of the comparitively light stocks held at country points and of returning confidence. Manufacturers are busy and in many cases mills are ruinning overtime. Prices continue very nrm, with an upward tendency. Colder weather would stimulate the demand for heavy drygoods, but the sorting up trade is reported good. Business is active in hardware and metals, the demand being good for seasoniable lines, and prices are firm. Groceries in fair demand with prospects bright. The tone of the leather and hide markets is firmer. Large quantities of wheat have gone for export of late, and prices rule steady, around 80c, at Ontario points. Coarse grains, however, are inclined to be heavy. Hogs are lower, while cured meats, which are in limited supply, are firm. Money markets unchanged, with prime commercial paper discounted at 6 per cent. and call loans 4 per cent. Speculation is fairly active on the stock exchange, and values continue to rule firm. The Bank of England discount rate is unchanged at 3 per cent.—Daily Bulletin.

Loan Companies Amaigamation Talk

The Cincinnati Price-Chrrent says: Some additional relief from rains. Wheat crop situation moderately more assuring. Fair milling demand. The reduced prices of corn are likely to check the movement. Reports of amalgamation Talk
Reports of amalgamation or consolidation of the business of a number of loan companies are in circulation, but as yet it would appear as if no definite arrangements had been completed. It is stated that the Central Canada Loan & Savings Company will take over the business of the Manitoba Loan, and there is some talk about the uniting in some way of the Canada Landed and National with the Union Loan. Gentlemen interested in both the latter companies, however, say that there is nothing in these street reports.

Additional relief from rains. Wheat crop situation moderately more assuring. Fair milding demand. The reduced prices of corn are likely to check the movement.

There is no longer any buil pool in Chicago wheat. The last of their holdings was disposed of on Monday. They have been in the market six months. Up to the middle of July, when wheat reached 78c, they had cleaned up over \$630,000. One of the members of the pool carried a good-sized line from 70c up to 90c, and unloaded. Their operations have been on an extended scale for the past 60 days, and it has not been as easy for them to

Mentreal Live Stock.

Montreal, Oct. 21.—There were about 800 head of butchers' cattle, 30 calves and 1000 sheep and lambs offered for sale at the East End abattoir to-day. There was a large attendance of butchers and a good demand for pretty good cattle, but common and inferior stock, which constituted much the larger numbers, were very difficult to sell, even at the low rates going, and it is probable that a considerable number will not be sold to-day. There were 26 hard-looking bulls in one yard, and more than that number were scattered through the other yards, and it is probable that these bulls will be sold at less than 1½c per lb. on an average. Some of the leaner old cows will also have to be sold at about the same rate. A few of the best cattle were sold at about 4c per lb., with pretty good animals at from 3½c to 3c per lb. There is a good demand for stockers at from 2½c to 3c per lb. Calves sold at from \$2.50 to \$12 each. Shippers are paying 3c per lb. for good large sheep. Lambs sell at from 3½c to 4c per lb. and occasionally a little more. Fat hogs continue to decline in price. To-day about the highest price offered for hogs just off the cars was 5c per lb. Sterling, 60 days ... 4.82½ 4.82½ to 4.82½ demand ... 4.85½ 4.81½ to

84 YONGE STREET.

(Just above King St.)

ceived the following despatch to-day from New York:

Lack of outside support and London realizing, together with subsidence of covering by shorts, led to a dull draggy market, which culminated in a sharp reaction in the last bour and a weak tone at the close. In early trading there was a further moderate buying by Keene interests, which led traders to support values, but this buying ceased and the early advances were lost. In the last hour revival of Cuban troubles on press cables from Madrid, containing suggestions of the rather terse tenor of Spanish Government's reply to Minister Woodford's note, started general selling movement for both long and short account, under influence of which prices declined sharply. Coal stocks, particularly weak. Action of the market was disappointment to the buil interests, who expected much better results from their good buying of the past few days.
