ROBBERD CHIEF CONSTABLE

Seven Burglaries Have Been Recorded Recently in the Town of Whitby.

ONE ARREST HAS BEEN EFFECTED

Part of Stolen Property Recovered Cuts From Broken Glass a Valuable Clue.

Whitby, Nov. 12.—Burglars have been worrying Whitby with appalling frequency recently, and no less than seven cases have been reported to Chief Constable Calverley. One of these cases is proof positive that the burglars look upon the majesty of the law in anything but a serious vein, for one of the burglaries reported to the Chief was reported by the Chief himself. He took this official action because his own harness shop was entered and his nice warm overcoat, which he will need soon, his tools and other things were missing.

The burglars have been endeavoring to secure sufficient booty to stock a departmental store. They have visited Richardson's jewelry emporium, which is an evidence of their vanity. They touched Pringle's grocery proving conclusively that they respect the comfort of their inner man. They called secretly at Hatch Bros' hardware store for a few things they like to see in their business, and with a view to their personal appearance, they gave unwelcome patronage to the Ferguson's tailoring establishment, possibly having lady friends or may be some of the burglars were burglars, as the ladies are drifting into every line of business, they broke into Miss Morley's millinery shop. No burglars can do without shoes, so they broke into Burns' shoe store.

But what they wanted with harness is a mystery, and the audacity of a burglar, or even a score of burglars, invading the place of business of a chief constable, especially an officer who commands the terror of the town, is the essence of a series of mysteries.

After such defiance of the powers that be, it naturally follows that an arrest has been made. The prisoner is James Dawse, and some of the property stolen from yesterday's burglary was traced to him. The clue was blood. Night Watchman McCourt had seen a man who looked like a burglar, and, through him, Dawse was arrested by Calverley. In the course of one of the burglaries, a window had been broken, and the robber had cut his hand so badly that there were blood stains on the glass. When Dawse was arrested, he wore gloves, and he refused to remove them. An attempt was made to remove the gloves, but with several of the crimes recently committed.

DIED ON A HUNTING TRIP.

Dr. Hart Expired Thru Bursting of a Blood Vessel.

Dr. J. Moore Hart, 232 Shaw-street, expired suddenly on Monday last while out hunting with Dr. Charles Trow and A. E. Trow, barrister, of this city. The remains were brought to Toronto yesterday. The funeral will take place tomorrow morning to the Union Station, and thence by the 7.50 train to Canington. The interment will take place at Wilfred Cemetery.

Two weeks ago the party set out for the north. They encountered about 12 miles overland from Dorset, and had some excellent sport. On Monday evening the exertion of chopping down a tree for firewood made Dr. Hart feel

unwell. He shortly afterward became unconscious, and later in the evening died. The bursting of a blood vessel in the brain resulted in paralysis, which caused death.

Dr. Hart was 51 years of age. He graduated in 1871 from Trinity Medical College. He had been in practice 31 years, 22 of which were spent in Canington, and 9 in Toronto. Dr. J. S. Hart of Parkdale is a cousin of deceased, and Rev. A. B. Chambers, a brother-in-law. The deceased leaves a widow and one son, Garnet, aged 10. Dr. Hart was a member of the staff of the Presbyterian Church and a past master of Brock Masonic Lodge at Canington. He was a member of the staff of the Western Hospital.

RY CONTINUES.

Increase in Number of Firms Signing Exclusive Contracts.

Montreal, Nov. 12.—Before the Tobacco Commission to-day, M. E. Davis, President of the American Tobacco Company of Canada, presented a statement, showing that there had been a large increase in the number of wholesalers, who had signed the exclusive contracts in the last two years. The company tried to introduce evidence to show that such contracts were common in many other lines of business, but Judge McTavish thought the scope of the inquiry should not be widened to that extent. Four small manufacturers testified that, since these contracts came into force, their business had either declined or had become unprofitable, by reason of the extra cost of selling, owing to the necessity of employing more travelers, etc.

TRADE WITHIN THE EMPIRE.

Should Be the Motto of the Hour, Says Sir William Mulock.

Ottawa, Nov. 12.—Sir William Mulock addressed the Ottawa Board of Trade to-night on trade with South Africa. He referred to the recent colonial conference, and said that if Britain would give even a small percentage of the empire would fall in line.

Sir William said trade within the empire should be the motto of the hour, and dilated on the greatness of the British possessions and the possibility of developing an enormous and profitable trade independent of the other nations of the world.

More steamship lines are required, and the line to South Africa will shortly be extended to Australia.

The Pacific line from British Columbia is insufficient for the traffic at the east coast of Australia. Mr. Mulock took a hopeful view of the trade with South Africa, and announced that the second Elder Dempster line ship would leave on the 15th instant. Already it has a full cargo.

DIED UNDER CHRISTIAN SCIENCE.

No Physician Was Called in, The Patient Had Typhoid.

Washington, Nov. 12.—Miss Louise Hope of Evanston, Ill., who has been ill here for almost a month, and who has been under treatment by a Christian Scientist healer, died to-night. Miss Hope is the daughter of Mr. W. H. Hope, the assistant cashier of the First National Bank of Chicago. She came here on Oct. 17, intending to act as bridesmaid for her former school chum, Miss Ethel H. Bogan, the daughter of Dr. Samuel A. Bogan. While the wedding preparations were going on, Miss Hope became ill, and remained at Dr. Bogan's house until her death. No physician of the regular school was called in until a short while before Miss Hope died, but the patient a portion of the time of her illness, has been in charge of Mrs. Ellen Brown Lincoln, a Christian Science healer, who said to-night that Miss Hope had suffered from typhoid fever. The parents of Miss Hope are Christian Scientists, and they gave directions that their daughter should receive medical attention, if she desired, but she preferred the Christian Science treatment.

ROMANCE OF BRANTFORD GIRL.

Eloped With a Famous Sprinter and is Happily Wedded.

Kalamazoo, Mich., Nov. 12.—The elopement and marriage of Asa J. Townsend, nationally famous as a sprinter and general athlete, has just taken place. Townsend's home is in this city, but he spends very little time here.

Last summer he met Miss Maude Knight, a young woman of 18 years, at Mount Clemens, where Townsend was residing. Her home originally was in Brantford, Ont. Miss Knight went to the home of a friend in Brantford, and in September, Mr. Townsend followed. Oct. 8 the marriage took place.

The young woman is well-known and of high social standing, and the only reason for the elopement was the tension in which her parents kept her. Both families are entirely reconciled.

JOHNSON FOUND GUILTY.

Charged With Conspiracy to Defraud the Canadian Pacific.

Montreal, Nov. 12.—This evening the jury in the Johnson conspiracy case, in which the accused was charged with having conspired with certain parties unknown to defraud the Canadian Pacific Railway Company, reached a verdict finding the prisoner guilty with a recommendation to mercy.

To-day interest was augmented by reason of a number of Canadian Pacific Railway conductors having been implicated in the course of the evidence. It is rumored that other arrests should have been made yesterday.

The charges, briefly, are that a number of Canadian Pacific conductors conspired with the Johnsons to defraud the office to give advanced information as to the secret checking of trains.

MAY LOSE HIS SIGHT.

Woodstock, Nov. 12.—William Hunt, a resident of Huron-street, who has been employed in St. Thomas as a stone-cutter, returned to this city to-day with a seriously injured eye. While at work yesterday a sharp-edged piece of stone struck the ball of the eye, and it is very probable the injury will produce the total loss of sight.

Order for German Rails.

Montreal, Nov. 12.—Messrs. MacKenzie, Mann & Co. have just closed a contract with Mr. Gerald Lomer of this city, acting on behalf of German manufacturers, for about 10,000 tons of steel rails and fastenings for their requirements on the Canadian Northern Railway, in the Scotch roads. The competition was very keen for this contract, which is approximately the largest ever placed at one time in Canada.

YIELDS 50 BARRELS AN HOUR

Definite Test of the Oil Gusher in Raleigh Township by Experts and Operators.

NO BOON TO THE LANDOWNERS

Prospectors' Claim to Be Protected by Conditions Made With the Old Canada Company.

Chatham, Nov. 12.—A large number of oil experts and operators this afternoon witnessed a definite test of the oil gusher in Raleigh Township. The water was pumped out, and the well at first yielded 50 barrels an hour, which, of course, will slacken off considerably.

A test made by Dagobert hydrometer shows 34, a degree better than ever found in Petrolia.

The gravity is considered unusual. The Imperial Oil Co. of Canada will at once lay a pipe line to Parloa siding a mile away, to pump the oil from the wells direct into the tank cars.

The excitement which is naturally attendant on the discovery of an immense oil well in Raleigh Township, about two miles from Charing Cross, with a capacity of a barrel a minute, is running high, and oil men are swarming like bees about the well.

On the basis of standard oil valuation, this well itself is worth half a million dollars. A striking point in connection with the find is the indication given of how close was the big Standard Oil Corporation keeps on matters of this kind. The well was struck at 10.30 a.m., and by 5.30 in the afternoon telegrams began to reach the drillers and others from Standard Oil officials and others from the States, asking for particulars.

Rough on Farmers.

While at first sight this discovery would seem to be a great boon to the farmers in the neighborhood, such is not the case. Some 70 years ago large tracts of land were granted to the Canada Company for colonization and sale by the Imperial government. When they resold the land they reserved the right to all oil and minerals that might be on the property.

At present the operators are taking all sorts of liberties. The new well is within 30 feet of a farmer's house, on his lawn, in fact, and his residence has been rendered untenantable. Prospects are being made for the purchase of the land to the leases they have obtained from the Canada Company. The situation is becoming intolerable, and the government have a nice problem to solve as to the rights of the farmers.

The province's highest grade of oil is 29 degrees gravity, that of this new find is 34, and the best well at the former place yields only one barrel a minute in 24 hours, while the new gusher gives almost a barrel a minute.

Another Good Prospect.

For some months, the Ontario and California Oil Company, whose successful operations in the latter province, have been noted from time to time, have been prospecting in the same vicinity and have struck a well. A contractor is engaged to put down a well at once in the neighborhood of the gusher just struck by the Petrolia firm. While, however, the Petrolia prospectors dealt with the Canada Company for their lease, the new wood operators have dealt directly with the farmers, who will therefore have a keen and immediate interest in the operations and their probable success.

BLACKMAILER CONVICTED.

Wealthy Manufacturer Lay for Him With Force of Deputies.

Ithaca, N. Y., Nov. 12.—Harlow Cezar of Peruville, charged with attempting to blackmail Ben Conger, a wealthy manufacturer of Groton, was to-day found guilty, with a recommendation for leniency.

Last July Mr. Conger received a letter, threatening his life if he did not pay \$12,000 in a secluded spot on a stated night. On the night in question the gusher just struck by the Petrolia firm, where a dozen deputies had been stationed by the Sheriff. The plan was for the blackmailer to enter the house, and if he was not paid, to shoot him. Cezar was poorly executed, and they escaped, also some 30 shots were fired, one of which wounded their horse. By the time the gusher was struck, the horse of the blood, Cezar was traced to his home, and arrested, and afterwards indicted. The court withheld sentence.

KAISER A CRACK SHOT.

Dropped Twice as Many Pheasants as His Royal Uncle.

Sandringham, England, Nov. 12.—Emperor William today proved his prowess as a crack shot. Clad in a light green hunting suit, he kept three loaders busier than they had ever been in their lives. King Edward, the Prince of Wales, Count Wolf-Meternich, the German Ambassador, and the 11 other members of the shooting party who accompanied the Emperor are all good shots, but twice as many pheasants fell to Emperor William's gun as to those of the others. The large crowds who had come to witness today's drive, which was the biggest one arranged for the royal visit, had an excellent view of the sport and cheer after bird dropped before the unerring aim of the German Emperor. The spectators openly expressed their astonishment and admiration, much to the Emperor's amusement. The day's bag was one of the biggest on record.

SUTHERLAND FOR CANALS

Mr. Tarte Thinks His Stay in the Public Works Will Be of Short Duration.

Montreal, Nov. 12.—The ex-Minister of Public Works does not seem to be in favor of dismemberment that department. "We believe, for our part," writes Mr. Tarte, "that Mr. Sutherland's stay in the department will be of short duration. He is certainly looked for by Railways and Canals, and as Mr. Blair's health is far from being good, he will likely retire from public life in the near future."

Hon. Raymond Prefontaine reached here this evening and delivered a speech in the evening. The minister said he had the assurance that all matters concerning harbors and navigation would be transferred to the Department of Marine, and also made the claim that in the future the canals would also come under the same control. He also said that Hon. James Zougar had taken the Public Works only on condition that the department be thus relieved. Mr. Prefontaine said that his work would not be done until navigation was just as safe at midnight as day time from Quebec to the Great Lakes.

As regards protection of the speaker quoted Mr. Fielding's remarks promising protection to all legitimate industries. He said he did not mention Mr. Tarte's name.

DISMEMBERMENT IS TALKED OF

Prefontaine Hints That Canals Will Come Under His Control in the Future.

GRAND TRUNK MAY BUY IT

WANTS A LINE TO PACIFIC

Senator Cox and Other Capitalists Acting in Concert With Railway Looking To the Purchase of the Mackenzie & Mann System—Would Build From North Bay to Port Arthur

Montreal, Nov. 12.—Hon. Mr. Tarte writes as follows in La Patrie: "I am in a position to say that the Grand Trunk is looking to the purchase of the Mackenzie & Mann railway system. Senator Cox, Mr. James Ross and other capitalists are acting in concert with the Grand Trunk in this matter."

Up to the present time Senator Cox has taken a more lively interest in Mackenzie & Mann's system than any other capitalist. Senator Cox and Mr. Mackenzie have met at Ottawa quite recently and have likewise had interviews in Montreal with Mr. James Ross and that the Grand Trunk is ready to enter into the arrangement.

The policy of the Grand Trunk would be to utilize its Toronto and North Bay branch and build a line from North Bay to Port Arthur, passing some distance from the Canadian Pacific and following the Mackenzie & Mann system to the Pacific Ocean. I believe I have discovered that Hon. Mr. Blair favors the purchase of the Canadian Northern by the Grand Trunk, although Mackenzie & Mann do not seem to be too anxious to dispose of their railway system.

"It may also be noticed of late that the Globe speaks quite often of the new railway routes to the Northwest. I do not know if Mackenzie & Mann will consent to sell, but it is certain that the transaction has been initiated by Senator Cox and Mr. James Ross and that the Grand Trunk is ready to enter into the arrangement."

MASAGNI LOOKS TO ROME

Asks the Italian Government to Protect Him From Vexatious Treatment in America.

Rome, Nov. 12.—According to The Tribuna, Italy proposes to make an international matter of the arrest in Boston, Mass., of Masagni. The Tribuna says: "Masagni has been arrested by the Italian government requesting the intervention of the Italian government to protect him from the vexatious treatment of which he says he has been a victim in America. Signor Zanardelli replied to the musician, assuring him of the interest taken in his case by the government and inquiring for an explanation, into the evidence which he presented."

The charge of apathy brought by Masagni against the Italian Consul at Boston is regarded here as without justification, and an outcome of the musician's ignorance of the fact that an Italian citizen in the United States is entirely subject to American laws.

OMINOUSLY CALM.

Manila, Nov. 12.—Cholera made its appearance yesterday among the men of a detachment of the Fifth Infantry, which is stationed here. Seven men have already died, and a number of others are seriously ill.

REAPPEARANCE OF THE DISEASE HAS CREATED A FEELING OF MISAPPREHENSION.

Manila, Nov. 12.—Cholera made its appearance yesterday among the men of a detachment of the Fifth Infantry, which is stationed here. Seven men have already died, and a number of others are seriously ill.

The detachment of the Fifth Infantry in question had been placed on guard along the Maraguina River, whence Manila receives its water supply, as it was deemed necessary to protect the stream from possible pollution. The cholera developed while the men were on this duty.

It was believed that cholera had entirely disappeared from Manila, and its reappearance has created a general feeling of apprehension.

COMMITTED FOR TRIAL.

Windsor, Nov. 12.—William Campbell was this morning arraigned before Magistrate Bartlett, charged with assaulting Attorney J. H. Hanna on the night of Sunday, Oct. 26. The evidence of two witnesses was taken and Campbell was committed for trial at the next session of the Peace at Sandwich in December. Mr. Hanna was unable to present.

UNSETTLED WITH RAIN.

Meteorological Office, Toronto, Nov. 12, 10 p.m.—Conditions to-night are very unsettled and complicated. The temperature distribution in the Lake region is rather remarkable, unusually mild weather prevailing over Lakes Erie and Ontario, while north of the Georgian Bay and in the Ottawa Valley the temperature has barely risen above the freezing point. Rain has fallen over Ontario, snow over the greater portion of Quebec, and snow and rain in the Maritime Provinces.

Minimum and maximum temperatures: Dawson, 16 below—4 below; Victoria, 44—48; Calgary, 4 below—32; Prince Albert, 2—32; Inuvik, 14—24; Port Arthur, 24—28; White River, 29—24; Toronto, 32—42; Ottawa, 28—32; Montreal, 28—34; Quebec, 22—28; Halifax, 22—28.

Lakes and Georgian Bay—Strong Winds and Gales; Unsettled, with Rain.

Ottawa and Upper St. Lawrence—Strong breezes; continued unsettled; sleet and rain.

Lower St. Lawrence and Gulf—Strong northwesterly winds; not unlikely to increase to gales; cloudy, with snow or rain, more especially to-night or by Friday morning.

Maritime—Fresh to strong northerly or northwesterly winds; fair, cloudy and east to north; rain and snow.
