TALEN HALL LATLANTIC CITY.N.J Hoteland Sanatorium. Noted for its superior table and service:

GAS IN THE STOMACH IS DANGEROUS

Recommends Daily Use of Magnesia To Overcome Trouble Caused by Fermenting Food and Acid Indigestion.

Gas and wind in the stomach accompanied by that full, bloated feeling after eating, are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so-called "acid indigestion."

Acid stomachs are dangerous because too much acid irritates the delicate lin-ing of the stomach, often leading to gastritis, accompanied by serious stom-ach ulcers. Food ferments and sours ach ulcers. Food ferments and sours creating the distressing gas which dis-tends the stomach and hampers th-normal functions of the vital interna-organs, often affecting the heart.

water was five feet deep. Many chickens were drowned.

Brantford reports a veritable cloud-burst.

Chatham suffered little. A few places the excess acid and prevent its formation of the company of the excess acid and prevent its formation. tion, and there is no sourness or pair Bisurated Magnesia (in powder or tab let form—never liquid or milk) is harm less to the stomach, thexpensive to take

PARKHILL, Feb. 25.—William Mc-Lennan, aged 63, one of the best-known drivers of this vicinity, and for many years a resident of East Williams, is dead at his home here after a long with no more fear of indigestion.
