"Regarding recent reports respecting losses in the Atlantic from the action of U-boats, German claims are not borne out by the facts. In this area there has, for obvious reasons, been increased enemy activity, but our counter-measures are proving success. counter-measures are proving success-ful. In this class of warfare the fight time franchise act is very unfair and is, and must be, a stiff fight, but not-inadequate in the measure of franchise given to the women of Canada, and we vigorously protest against it. We respectfully urge that the franchise be granted to every British woman of 21 years of age."

GENEVA, Sept. 13.—The Freie Zeitung of Berlin publishes an article from a high Austrian official who recently traveled through several sections of his country, in which the writer states that Austria-Hungary cannot hold out the coming winter, owing to economic reasons, as both soldiers and civilians will be starved.

He gives several reasons, notably ians will be starved.

He gives several reasons, notably the almost complete destruction of the crops in the richest regions of Hungary, by the cold and heavy rain, while 300,000 tons of Ruman ian cereals could not be transported owing to the lack of rolling stock, which, first of all, is utilized for military purposes.
