### ORATORICAL CONTEST AT SCHOOL EXERCISES

East Toronto High School Have Fine Rally—Junction Items—County News in Brief.

**EAST TORONTO, Nov. 15.**—The commencement exercises of the East Toronto High School, held in the assembly hall here to-night, were in every respect an unqualified success. The spacious building was filled to the doors and the program throughout of a most interesting character. Great interest centred in the oratorical contest for the medals presented by Councilors Phelan and Mr. Barwell.

The contestants were four in number and each acquitted himself with credit and the orators with their subjects were Arthur Burrell on "Citizenship," H. McDonald, "Public Ownership," Mr. Sheppard, "The Development of Electricity from Water-Power," and "The Preservation of Our Race" by Stanley Thompson. The judges were Solicitor W. H. Grant, E. A. Hardy, J. A. and R. B. Thompson, B.A., who decided unanimously in favor of Mr. Thompson for first position and Mr. Burrell for second. In making the presentation Mr. Hardy paid a high compliment to the teaching staff of the high school.

Among those present were: Dr. Stanley, Rev. Mr. Rogers, W. H. Givens, T. H. Phelan, H. C. Nasmith, W. Greenwood Brown, Rev. Mr. Ratcliffe, Jas. Ormerod, Jas. Patterson, Mr. Howarth, Secretary Mills and G. G. Jones, the chairman of the evening. Miss Westlake presided at the piano. The Little Yorks play the Thistles on the home grounds to-morrow afternoon.

The East Toronto T.M.C.A. play Norway at 2 p.m. on the athletic grounds. The team will be made up of Fitzgerald, Scanlon, Trebilcock, Slesky, Mitchell, head, forwards; Thompson, McLockie, Hurd, half backs; Davis, Broughton, Brown, McMadison, full backs.

Interest in the illustrated edition of the Sunday World of Sunday, Nov. 17 is shown in the largely increased orders. The number, devoted largely, as it is, to the interests of East Toronto and the Beaches, cannot fail to be a good advertising medium and a source of ultimate benefit to the town.

**TORONTO JUNCTION.**  
Mayor Baird Will Again Be a Candidate—Junction Items.

**TORONTO JUNCTION, Nov. 15.**—One thing necessary for the Junction, whether annexation takes place or not, is a new police station. For a progressive town of 12,000 inhabitants, it is a regrettable fact that the headquarters of the local force is a little underground apartment with insufficient accommodation, bad location and an atmosphere that bears a strong resemblance to what might be expected in the catacombs of Rome. At the present time there are only two cells available for prisoners, and part of the office is filled with an indiscriminate aggregation of uncleaned articles, anywhere from bedclothes to a kitchen clock. In one corner are the beer barrels, cases of whiskey and jar of wine lately seized by the police, and the odors arising from the barrels, the contents of which have

The contractors on the C.P.R. deviation have about completed all the heavy cutting and will have no use for the steam shovel in a few days.

Mrs. Reid of the Inkerman House had a sudden relapse a few days ago, but is now a little wiser to recovery again.

D. Mackenzie and Levi Kaiser went to Queensville on Monday to see Samuel Kaiser, brother of Levi, who is very sick, suffering from a cancer.

Not so much grain is now coming out, owing to the drop in prices. Buyers who have loaded up do not feel any too happy, but hope for better prices soon.

Mrs. George Julian, formerly of this place, died at Coleraine, and was buried here on Sunday last. The pall-bearers were her three sons and Messrs. Frank Herbert and William Denton of Toronto.

The house on Pecker's-avenue, lately purchased by Mr. J. G. Hallett, manager of the Crown Bank, was burned down during the week. More rain is wanted for the work of an incendiary, as it was not occupied at the time. There was no insurance.

Altho there were several good rains recently, the water in the Humber still keeps low, and some days the flour mills have scarcely enough water to run to its full capacity. Usually at this time of the year all the creeks and ponds are full. More rain is wanted for the freeze-up.

Mrs. Agnes Elliott Cameron of this village has returned from a few weeks' visit in Hamilton.

Farmers are, considering the difficulties they had to contend with in the early part of the season, well advanced with their work. Fall plowing is practically all done and the root crop all stored away. The crop of corn was generally good and little or no apprehension exists regarding the supply of coarse feeds.

Sam McClure was successful in winning a prize in the Toronto and North York Township match a few days ago. Mr. McClure's work at the several matches this fall has been of a high class.

Woodbridge is singularly favored in having both present and a prospective candidate for the election of Captain as citizens, in the persons of Capt. Tom Wallace and Dr. McLean.

## DODD'S KIDNEY PILLS

THE VEGETABLE GROWERS yesterday held their second day's session at the city hall, the president, Mr. Bushell, in the chair.

In the absence of Frank Williams of Ottawa South, Mr. McMeans of Guelph read his paper on "The Best Methods of Marketing Vegetable Crops," giving particular attention to the marketing of lettuce. He emphasized the importance of careful grading of packages scrupulously clean, of throwing away culls, and of making it a particular point to place the grower's name upon all the produce sent out. The last two recommendations aroused considerable opposition.

In Toronto and in London the lettuce is usually sold in small bunches, while in the rest of the province the majority of the growers produce a larger head and sell by the pound. Mr. Williams urged the growers in and for this city to adopt the latter practice.

T. B. Revett, B.S.A., of this city read, producing the canning industry, a paper which aroused considerable comment. He said that he had seen tomatoes in the market, and that for human food taken to the canneries.

R. F. Ennis, secretary-treasurer of the Ontario Canners, Limited, had told him a couple of weeks ago that they could not possibly pay over 25c per bushel for tomatoes, in view of the prices they were getting for their pack, and that for a tomato yielding from sixteen to seventeen cans per bushel they would gladly pay 35c per bushel. The growers, in his opinion, should produce a better quality and try to get 35c as the highest and 25c as the lowest price.

The canners paid \$25 a ton for dried beans, \$8 a ton for green corn, three and four tons per acre being a big crop; \$20 for beans 2 inches in diameter, and under 2 inches 1/2.

The Ontario tomato crop last season was grown on 6636 acres, which had 1,297,150 bushels, valued at \$336,496.

Mr. McNeill of Ottawa, opened, for testing purposes, a number of cans of vegetables, tomatoes, corn, etc.

## CYPRUS' FIRST RAILWAY

Is Now in Operation—Missionary Interesting Information.

Rev. W. R. Livingstone, who has been doing missionary work in the Island of Cyprus, is in Toronto on his way to the Northwest, where he will continue his work. He is a great admirer of the island, of which little is generally known.

"Cyprus," said Mr. Livingstone yesterday, "is owned by Turkey, inhabited chiefly by Greeks and governed by British. It is one of the few more modern countries in the world. The population consists of eighteen members, nine being Greeks, six Britons and three Turks, and each speech is given in the three languages. Many Britons in Egypt visit the island as a health resort.

As inspector of schools, Mr. Livingstone journeyed around the island, which is 14000 miles, and has a population of 300,000. Up till a few months ago, when a railway was inaugurated, the traveling was done by mules. The islanders are fond of animals, and the result is that the traveler has to go well armed with, not gun, but tea powder.

Of the Greek church and clergy, Mr. Livingstone speaks highly, and he commends their use of the revised Bible which, except in St. James' Cathedral, the local use of the King James version.

"Anglicans should take a greater interest in the Greek church, which gave to England the fish-boat which first brought the country into parishes," he remarked. Mr. Livingstone frequently preached in the Greek churches.

## C.P.R. Won't Build Crossing

The C.P.R. refuse to plank their tracks so as to give access to the city's new yard at the foot of Princess-street, extending the street ends at the Esplanade, and Engineer Rust advises that a consent order be obtained from the railway board, under which the railway will do the work and the city pay the bill, without prejudicing Toronto's right to collect the cost afterwards.

## LIABILITY INSURANCE.

Company Will Apply to Parliament For Incorporation.

**OTTAWA, Nov. 15.**—(Special).—The Manufacturers' Mutual Liability Insurance Company of Toronto will apply for incorporation at the next session of parliament. It will insure against liability for damages for the injury or death of persons for whom the insured may be responsible. The Canadian Weather Insurance Company, to insure against injury caused by cyclone, tornadoes, hail, etc., will also apply for incorporation. The head office will be in Toronto.
