A man with mutch welth, and
no pedigree, should do az the
bob tailed kats do, set down on
himself, and keep still.

Tricks upon travellers are all-
wuss dangerous experiments, i
hav known a ded hornet to wake
up sudden, and sting just once
more.

Familiarity iz a dangerous ex-
periment, the most familiar thing
in the whole world iz a puppy,
and the oftenest stept on.

This is my plan,—to beleave
all things that i hear, but to put
mi faith, and munny, in but few.
