RECORDED

Departement of Indian Affairs
Ottawa ONT

Dear Sirs:

For sometime I have known of certain structural Oil Lands on one of the Indian Reserves up to the present time this land has not been surveyed or systematically had any geology on same, and I would that provided I get a survey at our own expense and all the necessary data which we would require , would the Dept give us a certain time within reason that we might ask before we would have to start our drilling operations

In leasing oil lands from the Dept do you mention and have enforced a drilling contract within a certain time, Should our Co think favorably of the possibilities they would require a large acreage with a view to developing same , Trusting to hear soon from you in this matter. I am

Yours truly,

B L Williams
