There is no intelligence from Europe later than that which we formished our readers last week—the 20th March. We have made a variety of interesting catracts from the papers in our possession.

The Ricer.—The ice, we learn, yet holes firm for 15 or 10 miles below Fredericton. The Steamers John Ward and St. George, are ready to commence their triple; they are in fine order, and in the course of a few days we hope to see their, and in the course of the steam Boat to Fredericton, was on the 18th of April.

On Saturday evening last, the Brig Gambia bound on a Foreign voyage, was towed out of the Habour, by the Steamer Henrictia, where a favourable arceze awaited her. We believe this is the first instance of a vessel being towed to sea from our harbour, by the aid of a steam boat; but an example having thus been given, it will doubtless be often followed, instead of suffering vessels to lie in port becalined or whellowed the four or five days, and sometimes a week.

Theatres transferred intelligence.—The Theatre in Providence, (thode laber!) has been purchased by the Episcopalians of that town, and is to be conveted into a Comeb. The Chatham street Theatre in the city of New York, has also been recently purchased, and fitted up as a Charch.
