RECENT DEATHS

Thomas Hartin.
Moncton, N. B., Nov. 14.—Thomas Hartin, who died at his home here on Sunday, was a well known employee of the Canadian Government Railways, having been foreman of the car department here. He was sixty-two years of age. He is survived by his wife, two sons—Lewis H. of Ottawa, Ont., and Fred T. of Williamsdale, N. S.—and two daughters—Mrs. R. H. Cooke, of Moncton, and Mrs. Sanford Finkel, of Lunenburg, N. S.
Aurora, N. S., Nov. 13.—Hy Davis, supreme dictator of the Royal Order of Moose, is dead at his home in Cleveland, Ohio, after an intestinal operation, according to word received here today. Mr. Davis was sixty years old.
PRINCESS COLONNA DEAD
Wife of the Mayor of Rome Left Three Sons in the War.
Letters from Rome announcing the death of the Princess Colonna, wife of the Mayor of Rome, Prince Prospero Colonna. She died in Rome on October 29. She was Maria Maddalena, Duchess of Rignano di Calca, which title her husband had been permitted to bear since 1900. She was fifty-seven years of age, married the prince in 1884, and left three sons, all fighting on the Italian front in the same company—Mario, born in 1886; Piero, 1891, and Fabrizio, 1898.
Her illness is said to have been due to over work in providing for the soldiers at the front.
Mrs. John Mackay's daughter, Evelyn, who married Ferdinand Colonna in 1885, is sometimes designated in the American press as the Princess Colonna, although she is not so called in Rome. There she is known by her correct title, the Princess di Stigliano.

If You Suffer From Piles

no matter how long or how bad—go to your druggist today and get a 50 cent box of Pile Treatment. It will give quick relief, and a single box often cures. A trial package mailed free in plain wrapper if you send us coupon below.

To Stimulate Tungsten Mining

Officials of Geological Department in Halifax on Interesting Mission.

(Halifax Chronicle)
E. R. Fairbairn and Charles Cassell, of the Geological Survey, Ottawa, have arrived in the city and are guests at the Halifax Hotel. They have been sent to Nova Scotia by the Canadian Munitions Resources Commission to enquire into the possibilities for an increased production of tungsten, which at the present time is in great demand for the manufacture of tool-steel used for munitions work.

So far the Schellie Mine at Moose River, Halifax county, is the only one that promises production, but Mr. Fairbairn, who has been making a survey of the country for the past thirty-four years, and who is well acquainted with the mineral resources of the province, believes that there may be other showings in the Moose River district, which would pay for operation at existing prices for the metal, and with the advantage of having a mill in the locality to treat the ore ready for shipping.

Tungsten ore has already been found at Waverley, Oldham, Fifteen-Mile Brook, Baker's Settlement, the Ovens and a few other places in the province. The high price being offered for tungsten as well as the great need of it from a patriotic standpoint should stimulate prospecting and development work at these places. As there is no concentrating plant at any of these places, the ore would have to be shipped to the Moose River mill for treatment.

The price of the tungsten-bearing mineral Scheelite has advanced since the outbreak of the war. It was formerly sold for \$400 to \$1,200 per ton of concentrates. This mineral is rare, and is never found in large quantities. It is used in the manufacture of the best hard steel, and is especially suitable as tool steel, for certain purposes tungsten steel is absolutely required, especially for the manufacture of machine tools.

Returns from the Schellie Mines Company operating at Moose River, Nova Scotia, received at the mines office this morning, show fifteen tons of tungsten ore extracted during the month of August, and twenty-five tons during the month of September, making forty tons for the two months. This metal has to be concentrated at the mill before being ready for shipment. The work at the Schellie Mines only began in July when a few men were employed at price work.

PRICE OF CIGARS TO SOAR
Manufacturers Losing Money, Tobacco Leaf Explains.
(New York Times.)

In line with the trend of almost everything else, there is soon to be a pronounced increase in the cost of cigars. Tobacco Leaf explains the causes on these grounds: Increased activity in other industries has made labor in the tobacco-growing districts scarce, and the price of labor unprecedentedly high. The wooden cases in which domestic tobacco is packed, the cheesecloth under which shade-grown tobacco is grown, fertilizers necessary to the soil, implements used in the fields, all have advanced, and in Cuba the great boom in our sugar has diverted agriculturalists to that industry and created a shortage of good Havana leaf. The result is that all kinds of leaf tobacco used for cigar purposes in this country have gone skyward.

The upshot of it is that, while even before the war began a large proportion of manufacturers were at the best, just about breaking even on their investment, now they find themselves actually and almost without exception playing a losing game.

VanBuren Gets Pulp Mill
(Bangor Commercial.)
The arrangements have been made through the medium of the Bangor & Aroostook Railroad Co. for the establishment of the Aroostook Pulp Co., at Van Buren. This company will engage in the manufacture of sulphate or Kraft pulp, which is made from spruce waste freed from the saw mill and used in the manufacture of brown papers and twines.

This announcement is one of great importance to Aroostook county and indeed to this entire state. It means the employment of 100 men at Van Buren, where a plant will be erected at an immediate investment of half a million dollars, large payments annually to saw mills in Aroostook for waste that they are now burning and increased freight tonnage for the Bangor & Aroostook railroad.

The advantage that accrues from such an enterprise is not confined to Aroostook alone for already many thousands of dollars have been expended in this city and Brewer for the start of construction and the benefit extends all over the section.

Weekly Summary of Grocery Markets

(Canadian Grocer.)
The last week in the grocery market has been one of generally steady and upward tendencies. Manitoba wheat has advanced 20c per barrel and feeds \$2 per ton. Sugar advanced 2c per hundred to Ontario points due to increased freight rates. Butter is up one cent per pound and cheese advanced 1/2c. Eggs in the best grades are generally firmer owing to their increasing scarcity. Lard, Prunes, peaches and apricots are all firmer and dressed hogs and poultry are two exceptions in which there have been declines. Both live and dressed hogs are down, the amount of decline in former being 45c, and in latter 50c per hundred. Chickens and hens have been coming to the market in such numbers that commission men have been forced to reduce the prices being paid by 1c per pound in order to try and slacken up the supply. Farmers object strenuously to feeding poultry with present high cost feeds.

All dried fruits are dearer. New prices have been named on seeded raisins and these are 1c pound higher than former quotations of California Association before prices were withdrawn. Prunes, peaches and apricots are all firmer in price, with advances recorded in some instances. Tapioca continues in a firm market with possibility of still higher prices. Teas have advanced in the primary market in London and there is a generally firmer tendency for future sales.

Canned goods in some instances have recorded advances. Potatoes have advanced in price. Reports from Quebec indicate that business continues brisk. The principal increases in foodstuffs during the week have been in the provision lines. Fruit and vegetables have also moved towards higher levels. There is a good demand for canned goods despite the high prices. Some wholesalers have fairly good stocks of last year's pack canned goods. In a few cases canners have bought back goods from the wholesalers at enhanced prices in order to fulfil contract obligations. Considerable quantities of American canned goods have also been brought into Canada, and include mainly tomatoes, corn and peas. American canners have been advanced slightly in price during the week. Prices on Japanese beans have been withdrawn at Montreal. Beans are firm and higher prices are expected. The French embargo on wheat has been raised and supplies can move forward for Christmas trade.

THE MARKETS AT A GLANCE
"Hardware and Metal," Nov. 11, said: The market reports this week show one of the heaviest budgets of price changes that have occurred in any one week during the last year. The hardware trade is amazed at the remarkable changes which are taking place. Prices have advanced in the last few months ago would have been thought impossible. All price changes this week are in an upward direction and the lines affected include wire nails, fence staples, fence hooks, O. & A. wire, haling wire, cut haling wire, wire screen, broom, door checks, brass hinges, wrapping paper, cotton twine, turpentine, cotton waste, gold and aluminum paints, galvanized and black sheet, single bit axes, double bit axes, handled axes, auger bits, ship augers, iron washers, gas ranges and hot plates, lapweld iron pipe, paint brush, alarm clocks, steel thumb latches, Mrs. Potts' iron, barn door latches, electric irons and toasters, sweat pads, asbestos paper, asbestos, fence wire, lamps and shades, cross-cut saw, hand saws, buck saws, sleigh bells, lamps and shades, lace leather, tinware, enamelware, japanned wares, stanne wares, tinners' trimmings, stove pipe, elbows, Canada plates.

Further advances are expected on buttweld pipe, screws, bolts, sandpaper, locks, emery cloth, sandpaper, linseed oil. One large American maker of hardware and tools has withdrawn all prices. Another has advanced all prices 10 per cent. A large Canadian hardware manufacturer has advanced all line from 10 to 25 per cent. The list on poultry netting has been withdrawn and a new and higher list will probably be issued in the near future. Despite the high prices business continues good. Collections are also good. There is a scarcity of many hardware lines and deliveries from the factories are very slow.

Had Awful Attacks of Heart Trouble FOR 5 OR 6 YEARS
Diseases and disorders of the heart and nervous system have become frightfully prevalent of late years. One can scarcely pick up a paper but he will find recorded instances of sudden deaths through heart failure, or of prominent men and women unable to prosecute on account of a breaking down of the nervous system.

We do not desire to unnecessarily alarm anyone, but to sound a word of warning. When the heart begins to beat irregularly, palpitates and throbs, has shooting pains through it, it is time to stop and think.

To all sufferers from heart and nerve troubles Milburn's Heart and Nerve Pills can give prompt and permanent relief.

Mrs. Frank Arsenault, Newcastle, N. B., writes: "I had awful attacks of heart trouble for the past five or six years, and as I had tried many kinds of medicine without getting any better I decided to give Milburn's Heart and Nerve Pills a trial, and to my surprise I found case from the second dose. I continued taking them until I had used six boxes, and now I feel as well as can be."

"At the present time my sister is using them for nervousness and finds great comfort by their use."

Milburn's Heart and Nerve Pills are 50c or three boxes for \$1.25 at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

PARIS NEWSPAPERS ON RE-ELECTION OF WILSON
The newspapers of Paris, while giving prominence to the news of the American election, express little opinion as to the result. What comment there is, is sympathetic to President Wilson.

The Petit Journal says: "President Wilson's victory is highly satisfactory to us for two reasons. The first is that for four years American foreign policies will be free from electoral considerations as the constitution forbids President Wilson from seeking a third term; the second reason is that the result of the election must put new life into American neutrality."

"Obviously an immense majority of the electorate pronounced against war but apart from the millions of voters who approved the vigor with which the president forced the Germans to recede on the submarine war question, other millions voted for Hughes because he demanded an even firmer defense of American rights. The chief executive is obliged to take into account this double wish. Just as Hughes could not have ignored the verdict against war so Wilson must take into consideration the condemnation of a line of policy which Roosevelt has characterized as 'back boneless.'"

The Matin and the Parisienne express the same view. The latter concludes: "It is because he played a very honorable role in a moment of a grave crisis that the American people have renewed their mandate to President Wilson."

Canadian Steel Foundries, Limited, has redeemed its issue of \$1,000,000 par value one year debenture notes, which matured on October 11th, 1916.

Royal Securities Corporation, Limited, has purchased from Canadian Steel Foundries a new issue of \$500,000 notes, guaranteed as to principal and interest by Canadian Car & Foundry Company, Limited, maturing serially in equal amounts monthly, up to March, 1917.

Royal Securities Corporation, Limited, announces that it has sold all the notes of the new issue recently purchased.

JUDGE LANDIS FINES CORPORATION \$171,000
Swift & Company and a Number of Railroads, Including Pennsylvania, Assessed for Violations.

Fines totalling more than \$171,000 were assessed by Federal Judge Landis in Chicago last week against Swift & Company, packers, and several railroads, convicted of violating the Interstate Commerce Act. In most of the cases, the charges were rebating or in shipping less than carload shipments at carload rates.

Swift & Company were fined \$80,000. The Pennsylvania Railroad, \$20,000; the Elgin, Joliet & Eastern Railroad, \$20,000; and the Pittsburgh, Cincinnati, Chicago and St. Louis Railroad \$20,000 in one case and \$80,000 in another.

In addition, fines ranging from \$100 to \$1,000 were assessed against the Chicago & Northwestern Railroad, the Indiana Harbor Belt Railroad and the Chicago, Milwaukee & St. Paul. These fines were in most instances for failure to comply with the twenty-eight hour cattle law permitting live stock to remain in freight cars more than twenty-eight hours at a stretch without attention.

The Pennsylvania fine and the \$80,000 fine against the P. C. & St. L. were for rebating to the W. D. H. Merritt Company, a Chicago Board of Trade firm, while the \$80,000 fine was for rebating to E. A. Eckhart, head of the Eckhart Milling Company. Mr. Eckhart was tried for the same offense some time ago, but the case was thrown out of court by Federal Judge Anderson.

It's your fall shoes that we are mostly interested in and we want to interest you about, as we know you are going to buy a pair or so and we realize that we have no business to expect you to get them unless we can show you some advantage—price advantage, style advantage, wear advantage—and we are in a position to show you all these advantages and even more—Wile's Cash Stores, 248-247 Union street.

Here is New Health and New Life for the Ailing

DON'T let your life be clouded by indifferent health. Don't let ill-health steal your good looks. Don't remain weak, or anemic, or nervous, or run-down. Don't suffer needlessly. Get well the "Wincarnis" way—the quick, sure, and safe way to new and vigorous health.

"Wincarnis" is the quick way, because the benefit begins from the first wineglassful—the sure way, because it has given new health to countless thousands of sufferers for over 30 years—the safe way, because it does not contain drugs.

"Wincarnis" is recommended by over 10,000 Doctors because, it possesses a four-fold power in producing new health. It is a Tonic, Restorative, a Blood-maker, and a Nerve Food—all combined in one rich, delicious life-giving medicine. Therefore it promotes new strength, new blood, new nerve force, and new vitality.

"Wincarnis" is an elegant combination of choice wine, prime extract of meat, and finest extract of malt—each ingredient selected with scrupulous care, and blended together by a secret process whereby the value of each ingredient is intensified, thus producing a delicious, life-giving medicine. This life-giving "Wincarnis" is the one thing you need.

Remember that "Wincarnis" is not a patent medicine, nor a new untried preparation. "Wincarnis" has an unimpaired reputation of over 30 years' standing. It is recommended by over 10,000 Doctors who, from personal experience, have proved "Wincarnis" to possess extraordinary power in promoting new health. Begin to get well now. Buy a bottle to-day. Impressed only in two sizes—90 cents and \$1.50 per bottle.
