## "A GOOD PLACE TO BUY GOOD CLOTHES" Last Week of the Summer Sale

This week closes the Mark-Down Sale of Suits, Trousers and Raincoats—a sale which has proven exceptionally successful, both from our own and our customers' standpoints.

The substantial reductions made by us—20 per cent to 40 per cent—represent a real and large saving to the fortunate buyer. And even though these savings represent to us lost profits, we are glad to see the clothing change overhauled. Its sale at these figures will more firmly cement the bonds of confidence between us and our valued customers. They will know more certainly (as YOU may know if you wish) that we really mean to do the thing right, and that we are not content to attend to our patrons every possible opportunity for economical buying.

This week, while they last, we offer the rest of that good line of Summer Suits—very worthy.

Trousers, Raincoats, also.

Twenty per cent. reductions and more—some as much as 40 per cent.

Sole Agency 20th Century Brand Clothing.

## PREMIER HAPPY IN ALBERTA ADDRESSES

### A hearty Welcome at Red Deer— Drives First Spike for Alberta Central Railway

Red Deer, Alta., Aug. 10.—Red Deer gave Sir Wilfrid Laurier and party an enthusiastic welcome today. A procession, headed by bands, wended its way under a canopy of arches to the city park, where the civic addresses were presented. Alluding to his congratulations upon his health, Sir Wilfrid said:

"I thank God that I am in perfect health. I do not know that I ever felt better in my life. The only thing of which I can complain is that I am growing older, but that is a very prevalent complaint. But I am growing older in time I am growing younger in spirit these days. I fancy I am imbibing something of that spirit of perennial youth, buoyancy, courage and hope which belongs peculiarly to this country. The west is doing me good in many ways."

The premier rested tonight and will address a meeting here tomorrow. Sir Wilfrid assisted by the minister of railways, drove the first spike in the construction of the Alberta Central railway. The company is operating under its own charter and plans to connect with the Pacific.

A reference in the civic address to the climatic conditions in the winter elicited from the premier a sparkling eulogy: "For my part," said he, "I have no fault to find."

## SUFFERED THREE YEARS Till Dr. Morse's Indian Root Pills cured his Kidney Trouble

There are few diseases that cause more acute suffering than Kidney Trouble, and Mr. F. A. Thomas of Sudbury, Ont., is one of those who know it. He writes: "For over three years I suffered from kidney disease. First I thought I was sprained my back, but suddenly the pain would catch the small of my back and it would be impossible for me to stand on my feet for several minutes. I would ache across the kidneys was always present, my urine was thick and cloudy, and passing it caused a burning, scalding pain. Tried medicines, but they failed. I was advised to try Dr. Morse's Indian Root Pills, as they had cured my wife years before. A few boxes effected a complete cure. I now enjoy the blessings of good health, which is due to this remedy."

Don't neglect kidney trouble—it's too dangerous as well as too painful. That old, reliable family remedy, Dr. Morse's Indian Root Pills, has cured thousands and will cure you. It is equally effective in curing constipation and its attendant evils, biliousness, indigestion and sick headaches, and in purifying the blood. Get a box at your druggist's.

## Fashion Hints for Times Readers

**GRACEFUL VEIL ARRANGEMENT IS AN ART**

No woman who attends carefully to the important little effects of dress over puts on her veil in a hurry. She takes plenty of time, plenty of pins—and a hand glass; and, moreover, each time she goes out the veil is adjusted anew, and is removed from the hat, meanwhile and carefully folded flat. The bordered veil worn in this new autumn turban of fur and satin, is beautifully arranged and hangs just low enough to show the curve of the chin without touching the shoulders. At the back the draping is most graceful. The new turbans set so far down over the head that it is especially difficult to drape a veil over them without making a clumsy affair, but veils will be much worn in spite of the fact that the big turbans protect the hair from the breeze.

## The Evening Chit-Chat By RUTH CAMERON

"It's all very well," complained one of my letter acquaintances, "to tell people that they won't mind the heat if they get a good night's sleep, but why don't you go a step further and tell us how to get that sleep?"

One of the cases where it was "easier to tell than to do" was good to be done, than to be one of the twenty to follow my own teachings.

But if you will promise not to get indignant with me, and not to say "that Ruth Cameron really isn't any good," if they don't happen to help you, I will be very glad to give you what I consider four very good methods of obtaining a good night's sleep.

They have almost helped me. They may help you and they may not, but they can't hurt you.

The first thing I do when I find I'm getting into that restless, tizzy state, is to get up and eat something. Often times we are hungry even when we don't realize it. The empty stomach is the worst foe to sleep that there is. The physiology of this is that if you eat something and your stomach gets to working, that draws the blood away from your head and your system is satisfied.

But something very digestible, of course. Don't try cheese and doughnuts or mince pie and then blame the results on me.

A glass of milk and a slice of bread is an excellent night lunch. Only don't gulp the milk down—sip it—and also try not to have it at too hot a temperature. Set the glass in some warm water, or if you can't do that, just let it stand for awhile before you drink it.

Then read a chapter or two in a book that is interesting, but neither too exciting nor too abstruse. No matter what time of night I get into the insomnia mood, I always arise, light the light and do this.

If you try it, you will find that your mind, which has probably been leaping from thought to thought, like a nimble chamois skipping over the crags, will be arrested in its unwholesome activity in this way better than any other.

Before you go back to bed, bathe your face in cool water, wring out a wash cloth in cold water and put it on your forehead, and if you want to do the thing up brown, put a hot cloth at the base of your neck. The physiology of this, of course is the same as the eating—it draws the blood away from the head.

These four performances I have usually found quite sufficient for me and infallibly better than any sleep counting or poetry recitation performances.

Other insomnia killers that I have heard recommended, but have never personally tried, are:

Rob yourself, especially the face, neck and arms, in alcohol.

Smell of alcohol.

Smell of lavender.

Put your feet in a hot foot bath.

Take your pick, or "take a lot—take two."

## Daily Hints for the Cook

**CABBAGE SOUP.**

One cup of chopped cabbage boiled in salt and water until done. Add milk, pepper, butter. Roll a cracker fine and put in just before removing from fire.

**RASPBERRY FRITTERS.**

Grate the crumbs of two or three sponge cakes and mix with a little milk. Add three well beaten eggs, mix all well together with some strained raspberry juice. Drop the mixture from a spoon into a pan of boiling lard, to about the size of a five-shilling piece; drain dish and stick a blanched almond upon each fritter.

Beat well two eggs and put them into a quart jar of cream, a tablespoonful of sugar and a dash of vanilla.

**Put your foot in a hot foot bath.**

Take your pick, or "take a lot—take two."

## GAVE 3,000 PEOPLE A SURPRISE

**Exhibition Grounds and Buildings Present Appearance Totally Different from Other Years—What Inspection Discloses**

That the Dominion Exhibition to be here from September 5 to 15 cannot fall short of being one of the finest ever held in Canada was made more than plain to 3,000 or more citizens and visitors to the city who availed themselves of the opportunity afforded by Manager Good and the executive of the big fair to look through the buildings and grounds yesterday afternoon. The transformation has been little short of marvelous, and an inspection of the big acreage on which stands a magnificent array of buildings, cannot fail to make the greatest pessimist an enthusiast.

In every direction is written success. There is no one department but can stand comparison with the best either in Canada or the United States, in the line of exhibitions. The hundreds of thousands who will flock to the exhibition next month will behold a world in itself. Expressions of wonderment and of congratulation to those who have been instrumental in bringing this about were heard from one and all.

**All is Changed**

The doors were thrown open at 4 o'clock. The visitors were met by Manager Good and members of the executive who showed them over the buildings and grounds. Everything is changed. This about expresses it, and as the throng looked to right and left, overhead and far out on the grounds, it was found difficult to decide where to make a beginning. As first one then the other improvement and renovation was met with the spirit of optimism became general. "Every thing is new," "It is just wonderful," were common expressions.

Just inside the entrance to the main building 1000 additional feet of space is added by the removal of the general offices and press room which have been changed to the new annex. The building has been cleaned and painted so that one hardly recognizes it. The posts are made pretty with a coat of terra cotta and light green and the ceiling is beautified by a delicate tint of green.

In the centre of the building, hanging from the dome, is a large iron frame sixteen feet in diameter from which decorations will be hung. The restaurant has been enlarged by the tearing down of the partitions and the building of a kitchen addition. The new kitchen is 15x40 and is equipped in most improved fashion as obtains in modern culinary departments.

The old model of the Canadian of "Robert Reid" well known to visitors to previous exhibitions, has been painted and hung in the educational department of the main building. The lavatories have all been renovated and enlarged and are now of the most modern type.

In the eastern end of the main wing, on the second floor, are raised seats which are for those desiring to listen to the band music. A charge will be made for the use of these seats.

The new annex is 150 by 60. It is a fine building and greatly adds to the space for exhibitions. In the basement are the dairy department and agricultural department, formerly in the agricultural hall. On the first floor is the space for exhibitions for whom there is no room in the main building. On the upper floor is the women's department, art exhibit, etc.

The drill shed, which is also in the hands of the carpenters and painters, is to be used for the exhibits of the provincial government and board of trade. The carriages, formerly shown there, are to be seen with the automobiles in the agricultural hall. The building used previously for the poultry has gone through the process of transformation and is to be used for high bred horses. There are forty-two stalls. It is well adapted for this purpose. The poultry are to be found under the huge new grand stand and in their new fine commodious quarters there will be more than 100 extra coops.

**Grand Stand to Seat 1,800**

The new stand is an imposing one with seating capacity for 1,800. It is so situated that a fine view of the grounds is had. With its line of flagpoles it looms up large. In the rear of the new grand stand is the new midway and pike. For this the fence has been moved back about seventy feet giving a large space that has been levelled off and will give room for a small village of wonders and funny things. The fence has been lengthened by 900 feet.

A glance at the cattle sheds will make the heart of the stock raiser jump for there are twelve cattle sheds, the best that can be built with water accommodations. The sheds are easily removed before sending to the table without disfiguring the fritter.

**GOLDEN SUNSHINE CAKE.**

Cream one cup of butter, add two cups of sugar and beat, add one cup of milk, the yolks of eleven eggs beaten until very light and smooth, and three cups of flour which has been sifted with four level teaspoons of baking powder three times to make it very light. Turn into a tube baking pan and bake three-quarters of an hour in a moderate oven.

**A PAN OF ROLLS.**

Said one pint of milk and add one quart of sifted bread flour, one-quarter cup of sugar, a saltspoon of salt and one-half yeast cake dissolved in one-half cup of lukewarm water. Cover and let rise over night. In the morning roll half an inch thick, cut in rounds, spread a little butter on one-half of each, fold over and press together. Let rise until light and bake in a rather quick oven. Rolls may be raised lighter than a loaf of bread because the rising is checked as quick as they are put into the oven for they bake so quickly.

**RIBBON CORNSTARCH PUDDING.**

Two cups milk, one scant cup sugar, 2 tablespoons cornstarch, 1 scant teaspoon salt, whites of 2 eggs, 1 teaspoon vanilla extract, 2 teaspoons cocoa. Heat milk in double boiler. Mix sugar, cornstarch and salt together and moisten with a little water. Turn into milk, stirring till thick and smooth. Cook about five minutes. Remove from stove, add egg whites, which have been beaten stiff, and flavoring and mix well. Take out one-third and color it pink and place on the pink. Add cocoa to the remainder and pour on to the white. Chill and serve with cream, either plain or whipped.

There is an unaccounted rumour that the Dominion Iron & Steel Co. is negotiating for the sale of the James Pender & Co. mill, Brockton, N. B. Mr. Pender and his brother have gone to Sydney.

## Every statement concerning Red Rose Tea is made most carefully. Every claim that has ever been advanced has been fully borne out by the tea itself. You, if you use it, have always found it good tea. So good that no other tea pleases you as well. You may try it, but you always return to Red Rose simply because it has the fine quality and full value that pleases and satisfies.

Prices: 30c., 35c., 40c., 50c. and 60c.

are the same as used before but are being cleaned and painted. There are accommodations for 500 cattle.

## Your Liver is Clogged up

That's Why You're Tired, Out of Sorts—Have No Appetite.

## Radway's

**Clarify the Skin, Purify the Blood and Regulate the Bowels.**

They are a specific remedy for all diseases of the stomach, bowels, liver, and kidneys. They are a specific remedy for all diseases of the stomach, bowels, liver, and kidneys. They are a specific remedy for all diseases of the stomach, bowels, liver, and kidneys.

## WEDDINGS

McKim-Christophers.

Rev. W. R. Robinson officiated at an interesting ceremony last evening at 8 o'clock when Miss Maud Christophers, second daughter of Mr. and Mrs. G. W. Christophers, 100 Ludlow street, Charlottetown, was united in marriage to John I. McKim, a motorman in the employ of the St. John Street Railway Company. The bride, who was given away by her father, was attended. She wore a princess dress of grey silk tulle and carried a small bouquet of white carnations. The room in which the ceremony took place was prettily decorated with ferns and sweet peas. Many beautiful presents of cut glass and silverware were received. Mr. and Mrs. McKim will reside at 107 Ludlow street. The street cars running in Charlottetown yesterday were gaily decorated with flags.

## APOL STEEL
