

WATCHED HOURS AT HER BEDSIDE

St. John Woman, After Being Completely Prostrated From Indigestion, Makes Astonishing Recovery.

"It is so wonderful I can hardly realize it, but it is every word true that for the first time in fifteen years I am free from indigestion, and I owe this blessing to Tanlac," said Mrs. James Ennis, of Partridge Island, St. John, N. B.

"Only people who have had chronic indigestion know how I must have suffered during all these years. Sometimes the agony was more than I could stand, and I would be so completely prostrated that someone had to watch at my bedside for hours. I didn't dare eat meats, pastry or anything solid."

"The fact of my complete recovery are nothing less than amazing, and the people who knew the condition I was in when I began taking Tanlac and who see me now are simply astonished. I have a wonderful appetite and perfect digestion and sleep like a child all night long. Tanlac certainly deserves all the praise people give it."

Tanlac is sold in St. John by The Ross Drug Company and leading druggists.

DIED OF BROKEN HEART.

Mrs. Richard Howard's End Hurried by Grief Over Brother's Sudden Death Last Week.

(Fredericton Gleaner.)

The home of Miss Julia Connors, South Devon, has been doubly bereaved during the last three days, her brother, Richard Connors, passing away on Saturday after a short illness, and this morning her sister, Mrs. Richard Howard, who made her home with her, passing away.

Mrs. Howard was taken ill a day or two after her brother was brought home ill, and had almost recovered when her brother died on Saturday. Grief over his death caused her to relapse, and despite the best attention and medical skill, she passed away this morning, apparently from a broken heart.

She was about seventy years of age and was a woman who made friends with everyone on account of her genial disposition. She was a prominent member of St. Anthony's church, and her death will be sincerely regretted. She is survived by one daughter, Mrs. Raymond Richardson, of Japan; one brother, Philip Connors, of Sackville, and two sisters, Miss Julia Connors, at home, and Mrs. Wm. Hanson, of Waltham, Mass.

The funeral will be held at 2 o'clock this morning at St. Anthony's church by Rev. Father Conway, and interment at Sunny Bank cemetery.

MARGARET FORD MAKES BIG HIT

Famous Singer Heard in Choice Selections at Opera House—Other Good Vaudeville Numbers.

Margaret Ford scored a distinct triumph in the Opera House yesterday afternoon and evening in an unusual feature singing offering. Possessing a sweet soprano voice she sang a choice number expensively and then songs in a deep rich bass. Her dual voice caused considerable speculation, and many waited until she terminated her act thinking that the star must be a male impersonator. Instead of being disappointed they were evidently charmed and the prolonged applause was so insistent she had to appear several times to acknowledge the appreciation.

Eugene and Finney were also popular favorites in a comedy horizontal bar offering. They are skilled performers and their sensational and comedy feats evoked hearty applause and laughter.

Al and Anna Knight appeared in a bright comedy sketch portraying a young married couple endeavoring to find peace and quietness away from the watchful eye of mothers-in-law.

They gave pleasing interpretations and the sketch was enjoyed.

Victoria, a clever variety dancer, won appreciative applause. She gave an entertaining and graceful performance of many difficult steps, and combined with attractive costume made quite a hit.

The Menke Sisters sang and danced well. In addition to the five vaudeville acts there was the final episode of the serial drama "Fighting Fate," featuring William Duncan. The concluding chapter had many thrilling scenes and the plot was worked out to a satisfactory termination. This programme will be repeated tonight at 7 and 9 o'clock and again on Thursday afternoon and evening.

OIL SHARES TAKE PLUNGE

New York, June 15.—(10.30.)—Oil shares registered sensational declines in the early trading on the stock exchange today as a result of reports that the Mexican oil supply was dwindling. A block of 2,000 shares of Mexican Petroleum changed hands at the opening at 120, representing an overnight loss of seven points. Pan-American Petroleum, which controls Mexican Petroleum, opened at a moderate loss, but this was immediately extended to three points. Royal Dutch, General Asphalt and Atlantic Gulf featured the other reactionary shares of that group. Uneasiness marked the early dealings in Petroleum. American Sugar, Crucible and numerous other industrials and specialties. Rails were only moderately changed, but mainly downward.

NOON REPORT

Oils overshadowed the market during the early forenoon. Mexican Petroleum was an extreme loss of 7-9-10 points, and Pan-American "B" fell 5-1-2. Most other oils increased their early losses, especially Atlantic Gulf, Common and Preferred, Royal Dutch, Shell, equipments, sugars and numerous miscellaneous issues continued to lose ground. Weakness was most pronounced in Crucible Steel, Baldwin and American Locomotive, American Sugar, U. S. Rubber, Sunatra Tobacco and International Paper. Theatres and sundry shares were two to four points down. Virginia Carolina Chemical preferred lost eight points.

Relief on one to three points occurred before noon on short covering. Calls money opened at 5 1-2 per cent.

COURSE FOR WOMEN

Students at Bryn Mawr for Educational Experiment—The Subjects.

Bryn Mawr, Pa., June 15.—A group of women workers in industry, representing many states, gathered at Bryn Mawr College this week for the opening of an educational experiment without precedent in America—a two months' summer college course for working women. Scholarships covering tuition, board, room, everything but incidental personal expenses such as laundry, had been provided for these young women by trades unions or through working girls' clubs. The college has assembled a corps of instructors from colleges and universities throughout the east and middle west, to help train these young women in broad and constructive lines, so that they may exercise an increasing influence in the social and industrial world.

Only seventy students could be accepted and it was a difficult task for the joint administrative committee, representing the colleges and women workers in industry, to select them from the many applications. They were chosen because of character and ability from among those who had shown a natural aptitude for leadership.

Subjects offered include English—both written and spoken; public speaking; literature, history, economics, government, labor movements and problems, industrial organizations, elementary law, physiology and hygiene, community life, the origin and evolution of the earth and of life, general psychology and appreciation of art.

Lectures and discussions will fill the morning hours and in the afternoon there will be two hours of conferences and preparations. The remainder of the day will be filled with various college activities—field athletics, training in the gymnasium and dancing on its roof, plays and entertainments. The college library will offer a cool summer retreat for the more studiously inclined.

A group of Bryn Mawr alumni will live in the same dormitory with the new students and share their athletic and social activities.

New York is represented by the largest number of students, with Massachusetts and New Jersey coming next. Others were divided in small groups—Connecticut, Rhode Island, Ohio, Indiana, Michigan, Illinois, Minnesota, Kansas, Missouri, Pennsylvania, Virginia, North Carolina, District of Columbia, Georgia and California.

Trades represented include weavers, sewing machine operators, sheet and pillow case makers, shirt and collar makers, cap makers, milliners and trimmers, clothing makers of various sorts, hosiery and knit goods makers, laundry workers, cigar box makers, bindery workers, printers and proof readers, silk workers, cordage workers, overall makers, electric workers, paraffine workers, telephone operators and soap makers.

IF YOU WANT BABY TO GROW UP

into a hardy, vigorous child, you must make sure you are feeding him properly. Baby should be fed at the breast if possible—and this will always be made easier if the expectant mother will prepare herself by including in one of her daily meals a bowlful of Neave's Food. But when Baby has to be put on the bottle, extra care must be taken in the choice of the food. Neave's Food has nearly a century's reputation and many eminent doctors express the opinion that it is the best alternative to mother's milk.

Dr. L.R.C.P., L.R.C.S. (Edin.), L.F.P.S. (Glas.), etc., Leeds, writes:—"Your Neave's Food is a most admirable baby food, for which we are very thankful."

RUSSIAN TRADE WITH GERMANY

Riga, May 27.—(A. P. by Mail.)

The text of the trade agreement recently negotiated between the German government and the Russian Socialist Federal Soviet Republic has been made public here. Its provisions are significant in view of the fact that this is one of a series of similar agreements already concluded in process of negotiation between Russia and other nations such as Great Britain Italy and Czechoslovakia.

The provisions may be of peculiar interest to the United States owing to the attempt of the Russian government to effect a trade agreement with the United States, which resulted in notification by the American state department to Russia that the Soviet government had no chance of recognition in any form by the United States so long as Americans were held prisoners in Russia.

One of the most interesting provisions of the Russo-German agreement is that the representatives of both Germany and Russia are bound by it to refrain from every form of agitation or propaganda against the government or the state institutions of the country in which the delegation is located.

These delegations will be composed, under the new agreement, of missions already existing for the purpose of looking after the affairs of war prisoners in both countries. The scope of the activities of these missions is extended so that they are authorized to protect the interests of citizens of both Germany and Russia. The membership of the missions is increased by adding to them additional delegates whose duties are to develop economic relations.

It is expressly provided that the representation of the Russian republic in Germany "must be regarded as the only representation of the Russian state in Germany."

The respective missions are to be authorized to perform the work usually done by consuls such as the issuance of passports.

The Russian government agrees to allow persons who were formerly German subjects but who have lost that nationality to leave Russia and to take with them their wives and children, provided they give proof of an intention to settle down in Germany.

Both governments guarantee freedom of trade to ships according to the stipulations of international law. Both promise to take steps to resume communication between the two countries by post, telegraph and wireless.

The agreement is described in its text as "provisional" intended to serve as a basis of economic relations pending the conclusion of a future trade treaty.

New Brunswick is now declared clear of the brown tail moth.

MADE CONCERT AT PARK.

A band concert was given last evening in Rockwood Park by the band of the St. John Fusiliers. The lake and park presented a scene of great beauty in the early part of the evening just as the sun was setting behind the hills and the sweet strains of music coming from the balcony of the pavilion, on the shores of the lake, blended perfectly with the wonderful setting. Either the residents of the city were unaware that a concert was to be given or they could not summon sufficient energy to walk to Lily Lake as there was a very small number there to enjoy it, which was very discouraging to the enterprising manager of the pavilion who has made arrangements for band concerts throughout the summer on Tuesday and Saturday evenings.
