sour stomach, gas or constipation and prevents appendicitis. Leaves stomach in condition to digest anything. J. Benson Mahony, druggist.

The commissioners of the St. John County Hospital will meet this afternoon to arrange for taking over the new wing erected for the use of tubercular soldiers. The federal government will pay for the keep of the soldiers in proportion to the cost of maintaining the institution and the total number of patients.

Commissioner Fisher, acting mayor, yesterday received word from Montreal that the moving picture film companies had accepted the city's offer to alter the new assessment act so as to tax them on their stock in trade instead of on their income, and that they would not now be obliged to move from St. John as would have been the case had the act remained unamended. The amendment, passed by the council, and accepted by the companies, now needs the sanction of the legislature.
